An Act relative to improving asthma in schools.

*Be it enacted by the Senate and House of Representatives in General Court assembled, and by the authority of the same, as follows:*

1 Chapter 111 of the General Laws, as appearing in the 2016 Official Edition, is hereby  
2 amended by inserting after section 5S the following section:-

3 Section 5T. (a) As used in this section, the following words shall, unless the context  
4 clearly indicates otherwise, have the following meanings:-

5 “Cleaning product”, a product intended for use for routine cleaning, including but not  
6 limited to general purpose and all-purpose cleaners, glass, carpet, and bathroom cleaners,  
7 appliance cleaners, and floor and carpet care products (cleaner, finisher, polisher, and stripper);  
8 but shall not apply to disinfectants or sanitizers regulated by the United States Environmental  
9 Protection Agency under the Federal Insecticide, Fungicide and Rodenticide Act 7 U.S.C.

10 section 136 et seq. or as required by other federal or state regulations or antimicrobial hand soaps  
11 regulated by the Food and Drug Administration.

12 "Department", department of public health.

13 "Environmentally preferable products and services", cleaning products or services that  
14 perform effectively and have a lesser or reduced effect on human health and the environment  
15 when compared to competing products or services that serve the same purpose.

16 "Environmentally preferable purchasing criteria", standards for evaluating products that  
17 have been established by reputable third-party certifying organizations as specified by the  
18 operational services division in the commonwealth's statewide contract for environmentally  
19 preferable cleaning products, programs, equipment, and supplies. The department shall rely on  
20 multiple third-party certifying organizations, including, at a minimum, the United States  
21 Environmental Protection Agency's Design for the Environment (DfE) program, the United  
22 States Environmental Protection Agency's Safer Choice program, EcoLogo, and GreenSeal.

23 "HEPA vacuums", a high-efficiency particulate air filter vacuuming device.

24 "Public school", an elementary, secondary, high, charter or innovation school operated by  
25 a public school district or board of trustees pursuant to chapter 71.

26 (b) (1) The department shall recommend a public school with a pediatric asthma  
27 prevalence of 20 per cent or higher, or the highest quartile of pediatric asthma prevalence, to  
28 develop an indoor air quality management plan that describes the measures to be taken to  
29 provide good and improved indoor air quality to reduce the levels of indoor air pollutants  
30 through preventive measures to promote a comfortable and healthy learning and working

31 environment; plan objectives may include, but are not limited to: (i) routine maintenance  
32 activities; (ii) periodic building evaluations and inspections; (iii) maintenance of adequate air  
33 exchanges by repairing and maintaining ventilation equipment; and (iv) effectively  
34 communicating corrective steps to all interested parties. Any indoor air quality management plan  
35 shall include the use of HEPA vacuums which shall be specified in any cleaning contract entered  
36 into by a public school for the purposes of implementing the air quality management plan.

37 (2) A public school under this subsection shall be recommended to create an  
38 environmental health committee that shall consist of the school superintendent or designee,  
39 school superintendent assistant or designee, the facilities or custodial director or designee, the  
40 indoor integrated pest management coordinator or designee, a school nurse, a teacher, and a  
41 parent; provided that the committee may consist of other health professionals, local government  
42 agencies, community organizations, asthma coalitions, and others as appropriate in the  
43 assessment of current conditions and operations and in the development of strategies to improve  
44 indoor asthma triggers in schools and to protect the health of students, faculty, and staff. The  
45 committee shall be trained with expertise to assess current school building conditions and  
46 operations. The committee shall develop an indoor air quality management plan to improve  
47 indoor asthma triggers in schools and to protect the health of students, faculty, and staff. The  
48 committee shall sponsor activities to engage the school and community to raise awareness of the  
49 importance of asthma and environmental triggers. The committee may secure financial assistance  
50 through grants or other revenue sources to address environmental concerns. The department shall  
51 develop a school indoor air quality training program to educate the committee members on how  
52 to identify problems, develop methods to improve indoor air quality, and implement an indoor  
53 air quality management plan. The objectives of any air quality management plan developed by

54 the committee may include but are not limited to (i) routine maintenance activities; (ii) periodic  
55 building evaluations and inspections; (iii) maintenance of adequate air exchanges by repairing  
56 and maintaining ventilation equipment; and (iv) effectively communicating corrective steps to all  
57 interested parties. Any indoor air quality management plan developed by the committee shall  
58 include the use of HEPA vacuums which shall be specified in any cleaning contract entered into  
59 by a public school for the purposes of implementing the air quality management plan.

60 (c) (1) Beginning September 1, 2017, cleaning products shall not be used in any public  
61 school unless the cleaning product meets environmentally preferable purchasing criteria. A  
62 public school may purchase environmentally preferable products and services through statewide  
63 contract vendors or through outside vendors; provided that such vendor meets environmentally  
64 preferable purchasing criteria.

65 (2) A public school under this subsection shall report environmentally preferable cleaning  
66 products and services purchased to the department, including but not limited to vendor,  
67 manufacturer name, and product name.

68 (3) An individual who attends or works in a public school who experiences adverse  
69 health effects from allergic or hypersensitivity reaction from exposure to the environmentally  
70 preferable products and services in use pursuant to this section may request, and the facility may  
71 utilize, other suitable materials as determined by the individual and provided by the facility. The  
72 request shall be placed in writing and a copy shall be sent to the commissioner.

73 (4) The department shall recommend a public school with a pediatric asthma prevalence  
74 of 20 per cent or higher, or the highest quartile of pediatric asthma prevalence, to purchase

75 environmentally preferable cleaning products and services that are approved by the United States  
76 Environmental Protection Agency.

77 (d) The superintendent or designee, facilities/custodial director or designee, indoor  
78 integrated pest management coordinator or designee, and janitorial staff shall be trained in the  
79 use of environmentally preferable products and services prior to implementation of this section  
80 in a public school. Vendors of environmentally preferable products and services that are not  
81 contracted with the state but are purchased by a public school shall have trained staff and  
82 necessary tools for such training.
