4 unacceptable number of urban youth are becoming involved in the criminal justice system,
5 experiencing high rates of homicide and suicide, engaged in violence and anti-social behaviors,
6 becoming abusers of drugs, alcohol and tobacco, experiencing a high rate of pregnancies and

12 present the model nor infrastructure needed to provide an appropriate model to ameliorate the
13 situation with urban youth; and Whereas, the current negative social, economic and health status
14 indicators for urban youth may be defined as predictors for negative future social and economic
15 outcomes; and Whereas, violent behaviors, both as victim and perpetrators, substance
16 abuse, teen pregnancy and infant mortality, sexual transmitted disease, delinquent behaviors, and
17 suicide are clearly identified as public health concerns, Therefore, Notwithstanding any act

19 Health and Human Services, a state-wide office of youth development within the Department of
20 Public Health which shall organize and implement pilot programs in Boston, Springfield, New

23 citizenship among youth, between the ages of seven and eighteen. All programs and activities
24 shall be coordinated with the Executive Office of Health and Human Services organizations in
25 each city, so as to optimize the allocation of resources.

30 research findings, with emphasis directed toward the development and enhancement of social

37 SECTION 4. Programs and activities shall be implemented through contracts with
38 federally qualified Section 330, Community Health Centers as defined by the U.S. Public Service
39 Act of 1965. Policy-makers and staff of contracting organizations shall reflect the participant
40 population of the program.

47 community youth worker certification program, in order to utilize “best practices” in the field of
48 youth development, this component will further enhance skill development and standards for
49 youth development as a discipline; (6) an enhanced management information system support
50 procedure to develop a common intake and referral system to increase the use of preventive
51 services, share resource information, avoid duplication and to allow participants to engage in,
