The Commonwealth of Massachusetts

In the Year Two Thousand Eleven

An Act providing consumer choice and environmental protection by authorizing pay by the mile auto insurance.

Be it enacted by the Senate and House of Representatives in General Court assembled, and by the authority of the same, as follows:

1 SECTION 1.

2 Whereas accident costs are primarily produced by driving cars and not by owning them, and;

3 Whereas charging insurance as an ownership cost under the current time period insurance

4 method results in such serious problems as unaffordable insurance, likely unreliable risk-cost

5 data, and insufficient incentives to reduce vehicle miles traveled, and;

6 Whereas vehicle miles driven directly correlates with global warming emissions and other

7 pollutants,

8 Therefore,

9 SECTION 2. Section 113B of chapter 175 of the General Laws is hereby amended by adding at
10 the end thereof the following:-

11 The Executive Office of Energy and Environmental Affairs shall complete a study to assess the
12 benefits of allowing drivers to purchase automobile insurance on a “pay as you drive” or “cost
13 per mile” basis in coordination with the Division of Insurance. This study shall analyze the
14 correlation between miles driven, accident frequency, and the cost of claims and shall utilize the
15 Commonwealth’s existing mileage and claims data, which is maintained by the Registry of
16 Motor Vehicles and the Automobile Insurers Bureau, respectively. Said study shall be
17 completed and shall be submitted to the Joint Committee on Financial Services and the Joint
18 Committee on Environment, Natural Resources and Agriculture no later than January 1, 2012.
19 The mileage and claims data and the results of this study shall be available to the public by
20 request and shall be posted on the websites of the Division of Insurance and Executive Office of
21 Energy and Environmental Affairs.

22 In order to advance the goals of reducing pollution, traffic congestion and accident rates through
23 the creation of incentives for car owners to reduce vehicle miles traveled, if the study of “pay as
24 you drive” insurance required under this chapter demonstrates that “pay as you drive” insurance
25 is feasible, the Commissioner of Insurance shall require insurance companies to offer “pay as
26 you drive” insurance to all drivers in the state beginning July 1, 2012.
