<u>REPORT OF THE JOINT SPECIAL COMMITTEE ON REDISTRICTING</u>

The Joint Special Committee on Redistricting reports the attached bill "House of Representative Districts."

The Committee held 20 hearings, the initial introductory hearing, 9 for residents within each congressional district, 8 with interpreters to allow Spanish, Cantonese, Mandarin, Cape Verdean, Portuguese, Haitian Creole, Khmer and Vietnamese speakers the ability to provide testimony in their primary language, 1 hearing to present the House and Senate Districts, and 1 to allow anyone to comment on the proposed districts. Over 600 individuals registered to offer testimony.

The Committee created a website with relevant redistricting information, a calendar of our hearings, links to free redistricting software for people to draw their own districts, and a contact page so they could submit their maps and comments to the Committee. We also included the ability to translate the site into 110 languages to aid access for all residents of the Commonwealth. The website has had nearly 35,000 views.

The Committee expresses its thanks to all residents, members of the General Court, and organizations which provided information and views to the Committee.

In preparing the House districts, the Committee took care to comply with all constitutional and legal requirements and endeavored to draw lines that balance numerous and often competing traditional redistricting principles, including population equality, political continuity, equal electoral opportunity, compactness and contiguity, and the preservation of county and municipal boundaries and other communities of interest. In addition to well-chronicled federal decisions, there are also a number of significant decisions by the Supreme Judicial Court interpreting Massachusetts Constitutional provisions which were reviewed and followed.

The 2020 Federal Census was delayed due to Covid-19, but its results were essential to the Committee's efforts. It counted 7,029,917 residents of Massachusetts and showed our changing demographics of Massachusetts. The White population is now 4,748,897, a decrease of 7.01% or 260,031 people. The Black population is now 457,055, an increase of 16.69% or 65,362 people. The Asian population is now 504,900, an increase of 45.30% or 157,405 people, and the Hispanic population is now 887,685, an increase of 41.43% or 260,031 people.

Given the overall growth in population, the ideal district size grew from 40,923 in 2011 to 43,937 in 2021. Given our changing demographics, it was incumbent upon the Committee to draw new House district lines that reflected the diversity and many faces of Massachusetts.

The Committee took that seriously. The proposed plan includes 33 majority-minority opportunity districts throughout the Commonwealth, an increase of 13 districts. Of these opportunity districts, 8 are majority Hispanic and 2 majority Black. This increase in majority opportunity districts is due to the demographic changes within the Commonwealth.

The Committee did not unduly, however, subordinate traditional redistricting principles for racial or ethnic considerations, but rather gave due weight to all of the competing state interests.

The new districts reflect neighborhoods and communities of interest. They preserve compactness and contiguity. And they advance equal electoral opportunity for all residents. These districts are a direct result of our extensive public outreach effort during the Covid-19 pandemic and the public response that overcame the handicap of late census data and strengthened the plan. The Committee is proud to offer for the consideration of the General Court.

For the Committee,

MICHAEL J. MORAN of Boston,

House Chair

Special Joint Committee on Redistricting
