An Act relative to a behavioral health workforce commission.

Be it enacted by the Senate and House of Representatives in General Court assembled, and by the authority of the same, as follows:

1 SECTION 1. There shall be a behavioral health workforce commission to study the

4 and community-based settings.

5 The commission shall issue a report that shall include: (1) an assessment of the current

10 impact on addressing behavioral health workforce shortages. In preparing the report, the
11 commission shall look at the efficacy of: (i) expanding and funding mechanisms for loan

13 of whether they practice in a health professional shortage area; (ii) the inclusion of behavioral
14 health curriculum earlier in medical, nursing, and other educational programs; (iii) expanding
15 slots at associates and bachelors level registered nurse programs; (vi) creating programs to
16 encourage registered nurses to work in psychiatric settings, including internships and fellowships
17 in psychiatric nursing; (v) increasing the number of psychiatric clinical sites for nursing students;
18 (vi) increasing training for behavioral health providers to treat severe mental illness and
19 substance use disorders; (vii) expanding the scope of practice for psychiatric nurse mental health
20 clinical specialists and psychiatric nurse practitioners in inpatient settings by allowing all
21 providers to work at the top of their license; and (viii) any other recommendations relevant to
22 addressing behavioral health workforce shortages.

23 The commission shall consist of 23 members: the secretary of health and human services
24 or a designee, who shall serve as chair; the commissioner of mental health or a designee; the
