An Act to promote team based health care.

PETITION OF:

SENATE No. 1170

By Mr. Kennedy, a petition (accompanied by bill, Senate, No. 1170) of Thomas P. Kennedy and Louis L. Kafka for legislation to promote team based health care. Public Health.

The Commonwealth of Massachusetts

In the One Hundred and Eighty-Ninth General Court
(2015-2016)

An Act to promote team based health care.

Be it enacted by the Senate and House of Representatives in General Court assembled, and by the authority of the same, as follows:

1 SECTION 1. Purpose:

2 The Legislature hereby finds and declares that:

3 A. Accountable Care Organizations (ACOs), the Patient Centered Medical Home, and
4 other innovative models of health care delivery, all which require teamwork and integration to
5 achieve improved health outcomes and reduced costs, work best with leadership by physicians
6 who lead these teams with the highest level of training and preparation.

7 B. Increased use of physician-led health care teams has the potential to offset the increase
8 in demand for physician services while improving access to care, thereby averting a primary care
9 physician shortage.

10 C. According to survey data, a vast majority of patients believe that patients with one or
11 more chronic conditions benefit when a physician leads the primary health care team; and four

12 out of five patients prefer a physician to have primary responsibility for leading and coordinating
13 their health care.

14 SECTION 2. Definitions

15 Chapter 112 of the Massachusetts General Laws is hereby amended at the end thereof by
16 inserting after section 5M the following new section:
