

SENATE No. 1414

The Commonwealth of Massachusetts

PRESENTED BY:

Liz Miranda

To the Honorable Senate and House of Representatives of the Commonwealth of Massachusetts in General Court assembled:

The undersigned legislators and/or citizens respectfully petition for the adoption of the accompanying bill:

An Act relative to conducting fetal and infant mortality review.

PETITION OF:

NAME:	DISTRICT/ADDRESS:	
<i>Liz Miranda</i>	<i>Second Suffolk</i>	
<i>Lydia Edwards</i>	<i>Third Suffolk</i>	<i>2/7/2023</i>
<i>Jason M. Lewis</i>	<i>Fifth Middlesex</i>	<i>2/7/2023</i>

SENATE No. 1414

By Ms. Miranda, a petition (accompanied by bill, Senate, No. 1414) of Liz Miranda, Lydia Edwards and Jason M. Lewis for legislation relative to conducting fetal and infant mortality review. Public Health.

The Commonwealth of Massachusetts

**In the One Hundred and Ninety-Third General Court
(2023-2024)**

An Act relative to conducting fetal and infant mortality review.

Be it enacted by the Senate and House of Representatives in General Court assembled, and by the authority of the same, as follows:

1 SECTION 1. Chapter 38 of the general laws is hereby amended by inserting after section
2 2A the following section: --

3 Section 2B. As used in this section, the term below shall have the following meaning: -

4 “Authorized local health agency”, shall mean a health board, department, or other
5 governmental entity that is authorized by the department of public health to receive timely data
6 relative to fetal and infant deaths for assessing, planning, improving and monitoring the service
7 systems and community resources that support child and maternal health.

8 The department of public health shall establish a process for designating authorized local
9 health agencies. This process may include reasonable criteria regarding the level of expertise,
10 workforce capacity, or organizational capacity. Authorized local health agencies shall be
11 authorized to conduct in-depth fetal infant mortality review of each individual infant and fetal

12 death occurring within their jurisdiction, in order to identify local factors associated with fetal
13 and infant deaths and inform public health policy programs.

14 For each case of fetal or infant death to be reviewed, authorized local health agencies are
15 hereby authorized to collect relevant data from a variety of sources, which may include physician
16 and hospital records in addition to relevant community program records. Authorized local health
17 agencies are authorized to collect, and the department is authorized to provide, timely access to
18 vital records and other data reasonably necessary for fetal and infant mortality review.

19 The department may issue additional guidance through policy or regulation, consistent
20 with this section, regarding the process for conducting fetal infant mortality reviews by
21 authorized local health agencies, which may include guidance from the National Fetal and Infant
22 Mortality Review Program.
