"Development", division of a parcel of land into 2 or more parcels, the construction, reconstruction, conversion, structural alteration, relocation or enlargement of a building or other structure or facility or any grading, soil removal or relocation, excavation or landfill or any use or change in the use of any building or other structure or land or extension of the use of land.

"Tolling period", the period from March 10, 2020 to March 10, 2021, inclusive.

- (b) (1) Notwithstanding any general or special law to the contrary, an approval in effect or existence during the tolling period shall be extended for a period of 2 years in addition to the lawful term of the approval.
- (2) Nothing in this section shall extend or purport to extend: (i) a permit or approval issued by the federal government or an agency or instrumentality thereof or a permit or approval of which the duration of effect or the date or terms of its expiration are specified or determined under a law or regulation of the federal government or an agency or instrumentality thereof; (ii) a permit, license, privilege or approval issued by the division of fisheries and wildlife under chapter 131 of the General Laws; (iii) an approval, determination, exemption, certification, statement of qualification or any other administrative action by the department of energy resources under 225 CMR 20.00, subsection (c) of section 17 of chapter 25A of the General Laws or corresponding regulations at 225 CMR 21.00; or (iv) any agreement entered into by the Massachusetts Department of Transportation or the Massachusetts Bay Transportation Authority or any permit, license or approval issued by the department or authority relating to the sale,

- (3) Nothing in this section shall affect the ability of a municipal, regional or state governmental entity, including an agency, department, commission or other instrumentality thereof, to revoke or modify a specific permit or approval, or extension of a specific permit or approval under this section, when that specific permit or approval or the law or regulation under which the permit or approval was issued contains language authorizing the modification or revocation of the permit or approval.
- (4) If an approval tolled under this section is based upon the connection to a sanitary sewer system, the approval's extension shall be contingent upon the availability of sufficient capacity, on the part of the treatment facility, to accommodate the development whose approval has been extended. If sufficient capacity is not available, those permit holders whose approvals have been extended shall have priority with regard to the further allocation of gallonage over those permit holders who have not received approval of a hookup prior to the effective date of this section. Priority regarding the distribution of further gallonage to a permit holder who has received the extension of an approval under this section shall be allocated in order of the granting of the original approval of the connection.
- (5) If an owner or petitioner sells or otherwise transfers a property or project in order for an approval to receive an extension all commitments made by the original owner or petitioner under the terms of the permit must be assigned to and assumed by the new owner or petitioner. If

- the new owner or petitioner does not meet or abide by such commitments, then the approval shall
 not be extended under this section.
- (6) Nothing in this section shall be construed or implemented in such a way as to modify
 a requirement of law that is necessary to retain federal delegation to or assumption by the
 commonwealth of the authority to implement a federal law or program.
