Resolve establishing a special education funding reform commission.

1           **Resolved**, there shall be a Special Education Financing Commission to review the  
2 Commonwealth’s system for financing special education and make recommendations for a more  
3 equitable system that provides adequate funding to local school districts to meet the costs of  
4 providing high quality education to students with disabilities.

5           The commission’s review shall evaluate the commonwealth’s current special education  
6 financing structure and make recommendations to achieve the following goals:

7           (1) special education funds shall be sufficient to allow all schools to provide a high  
8 quality education in the least restrictive environment that meets the unique needs of each eligible  
9 student;

10 (2) special education funds provided to school districts shall recognize the variation in the  
11 resources that are required to provide students with different disabilities a high quality education;

12 (3) districts with more students receiving special education services shall equitably  
13 receive more state special education assistance funding than districts with fewer students  
14 receiving special education services;

15 (4) districts with less local resources shall equitably receive more state special education  
16 assistance funding than districts with more local resources;

17 (5) special education funds shall be relatively predictable and stable to enable school  
18 districts to budget effectively and implement multi-year plans;

19 (6) the special education funding system shall promote the efficient use of funds without  
20 incentivizing the under or misdiagnosis of students with disabilities;

21 (7) the special education funding system shall promote flexibility and innovation in  
22 providing high quality education;

23 (8) the special education funding system shall limit local financial responsibility for  
24 providing education to students with extraordinary needs; and

25 (9) the special education funding system shall provide sufficient funds to meet the costs  
26 of transportation of special education students.

27 In carrying out the review, the commissioner of elementary and secondary education  
28 shall provide to the commission any data and information relevant to the commission's charge.  
29 The commissioner of elementary and secondary education shall furnish reasonable staff and  
30 other support for the work of the commission.
