An Act relative to water conservation.

*Be it enacted by the Senate and House of Representatives in General Court assembled, and by the authority of the same, as follows:*

1 SECTION 1. Section 2 of Chapter 21G of the General Laws is hereby amended by  
2 inserting after the definition of "Existing withdrawal" the following new definition:-  
3 "Irrigation system", any assemblage of components, materials or special equipment  
4 which is constructed and installed underground or on the surface for controlled dispersion of  
5 water from any safe and suitable source, for the purpose of irrigating landscape vegetation or the  
6 control of dust and erosion on landscaped areas, including integral pumping systems and  
7 including required wiring within that system and connection to a public or private water supply  
8 system. An irrigation system, when connected to a potable water supply, shall include a  
9 connection beginning at the downstream side of a properly installed backflow prevention device

10 as required under 248 CMR 10.00. An irrigation system shall not include plumbing or a  
11 plumbing system as defined in Chapter 142 of the General Laws.

12 SECTION 2. Section 3 of Chapter 21G of the General Laws is hereby amended in the  
13 sixth paragraph by inserting after the third sentence the following two new sentences:-

14 The department shall adopt, and thereafter from time to time may amend, regulations that  
15 require system interruption devices for newly installed or renovated irrigation systems to  
16 override and suspend the programmed operation of the irrigation system during periods of  
17 sufficient moisture and shall specify the criteria that devices must meet to be accepted under this  
18 chapter. Said regulations shall be in accordance with generally accepted standards of irrigation  
19 practice; shall include a requirement that all such devices be inspected at least every three years  
20 by a and EPA water-sense partner; shall also require each irrigation contractor to complete and  
21 submit a form, along with a reasonable fee, to the town or agent of the Board of Water  
22 Commissioners for each newly installed or renovated irrigation system. This section shall not  
23 apply to systems operating on golf courses or agricultural lands.
