Health Care Financing.

The Commonwealth of Massachusetts

**In the One Hundred and Ninetieth General Court
(2017-2018)**

An Act to promote the accessibility, quality and continuity of care for consumers of behavioral health, substance use disorder and mental health services.

Be it enacted by the Senate and House of Representatives in General Court assembled, and by the authority of the same, as follows:

1 WHEREAS, A substantial amount of behavioral health, substance use disorder and
2 mental health services provided in the Commonwealth of Massachusetts is purchased for the
3 benefit of patients by carriers and behavioral health managers engaged in the provision of health
4 care financing services, or is otherwise delivered subject to the terms of agreements between
5 carriers, behavioral health managers and health care professionals and providers;

6 WHEREAS, Carriers and behavioral health managers are able to control patient access to
7 health care professionals and providers by restricting patient utilization of services of health care
8 professionals or providers to those with whom the carriers have contracted and through
9 utilization review programs and other managed care tools and associated coverage and payment
10 policies;

11 WHEREAS, The asymmetrical power of carriers and behavioral health managers in
12 markets for behavioral health, substance use disorder and mental health services in the
13 Commonwealth of Massachusetts has led to a market failure that threatens the availability of
14 high quality, cost effective behavioral health, substance use disorder and mental health services;

15 WHEREAS, The power of carriers and behavioral health managers to unilaterally impose
16 contract terms that providers must either accept or reject without negotiation jeopardizes the
17 ability of providers to deliver the superior quality behavioral health, substance use disorder and
18 mental health services that have been traditionally available in this commonwealth;

19 WHEREAS, Providers do not have sufficient market power to reject unfair provider
20 contract terms that impede their ability to deliver appropriate care;

21 WHEREAS, When providers of behavioral health, substance use disorder or mental
22 health services do reject unfair contract terms and terminate their contracts with certain carriers,
23 the patients whose services are covered by those carriers are often unable to continue treatment
24 with such providers, to the detriment of patients in need of these services;

25 WHEREAS, Inequitable reimbursement, unduly time-consuming administrative
26 requirements, and other unfair payment terms adversely affect access to and the quality of patient
27 care by reducing the number of behavioral health, substance use disorder and mental health
28 providers willing to accept insurance carrier reimbursement for their services;

29 WHEREAS, Empowering providers of behavioral health, substance use disorder and
30 mental health services to jointly negotiate with carriers and behavioral health managers as
31 provided in this act will help restore the competitive balance and increase access to behavioral

32 health, substance use disorder and mental health services in this commonwealth, thereby
33 providing benefits for patients and consumers;

34 WHEREAS, Empowering providers of behavioral health, substance use disorder and
35 mental health services to jointly negotiate with carriers and behavioral health managers is
36 necessary to provide access to quality behavioral health, substance use disorder and mental
37 health services for the citizens of this commonwealth;

38 NOW, THEREFORE, This bill is necessary, proper and constitutes an appropriate
39 exercise of the authority to regulate the business of insurance and the delivery of behavioral
40 health substance use disorder and mental health services in the Commonwealth of

155 considered confidential, not a public record under section 7 of chapter 4 and not subject to
156 disclosure under section 10 of chapter 66.

159 sanctioned under federal or state laws; (b) to prohibit or require governmental approval of or
160 otherwise restrict activity by providers that is not prohibited under federal antitrust laws; (c) to

188 parties to an action for retaliation brought or which may be brought pursuant to this section
189 specifically agree to submit the action to arbitration or other dispute resolution forum; provided
190 that, all remedies available in a civil action are available in the arbitration or other dispute
191 resolution forum.
