10. Description and Purpose of Grantee Organization (Limit Length to Visible area)				
<p>For over 75 years, Easter Seals has developed a wide range of programs to serve Maryland. Easter Seals has built a strong reputation of effective collaborations with local neighborhood leaders to design & offer the best possible supportive services for individuals with disabilities & their caregivers. Operating from nineteen sites spread across Maryland, Northern Virginia, & the D.C., Easter Seals provides best practice programs across the life span continuum to all of our clients, including veterans & their families. Easter Seals provides community-based services in the following core program areas: 1) support for wounded warriors, veterans & their families 2) senior medical day services for adults with disabilities 3) inclusive early intervention/education for children with disabilities & typically developing children (many of whom have another special need such as risk of delays due to low family income) 4) family caregiver respite services & 5) employment programs through specialized evaluation, training, support & job placement . Additional services include home/community-base assistive technology; rehabilitative services; community education; & advocacy for adults & children with disabilities & their families.</p>				

11. Description and Purpose of Project (Limit Length to Visible area)

With over 14 years of serving the aging and disabled population at our Center located in Woodlawn, Easter Seals is purposefully ready to purchase a building in Baltimore County that will: Allows us to remain in the county and maintain our current customer base, while significantly growing and serving more people. Our capacity will be increased by 50%. Provides space to include a caregivers resource center enabling us to develop community outreach, education, research, and advocacy programs. Will support specialized care and therapy while preventing unnecessary nursing home placement. Diversify programing through the use of separate programing space to include early onset dementia and mental illnesses care. Expands our short-term hospital readmissions reduction program. (People with Alzheimer's disease and other dementias typically have higher readmission rates. Easter Seals program mitigates this risk with optimum outpatient management). Provides capacity for future partnerships and research activities centered on community needs and innovative solutions.

28. Comments: (Limit Length to Visible area)

The state of Maryland is focused on switching people from institutional care to community and home-based services. Easter Seals Adult Day Services offers community-based services for individuals with Alzheimers disease and other dementias as well as other disorders such as heart disease, kidney disease, diabetes, stroke, and neuro-degenerative diseases. Our purpose is to improve each participants quality of life through the effective management of chronic conditions, cognitive and physical stimulation, and clinical oversight while ensuring support and training critical to family caregivers. To date, our center has served over 1000 individuals with dementia or age-related disorders, most of whom are African American (68%). The new center is located in a community which is 65% African-American, and over the next twenty years, this population will grow to 72%. The Alzheimers Association finds that African Americans are twice as likely to develop dementia yet the Maryland Department of Health & Mental Hygiene finds this population is underserved. The Alzheimers Association forecasts by 2025, in Maryland, citizens with Alzheimers will increase by 28 %.
