Committee Narrative

Report on Program Mix: The budget committees are concerned about the decline in enrollment at the Southern Maryland Higher Education Center (SMHEC) and if programs are being offered that meet the workforce demands of the region. Of particular concern is the decrease in the number of students enrolled in engineer programs since a justification for the construction of a third academic faculty at SMHEC is to increase the availability of undergraduate engineering programs. Therefore, the committees request the University System of Maryland Office (USMO) to submit a report reevaluating the project justification, including the size and scope. The report should also include an assessment of the program mix, including current and planned programs, enrollment by program, and how planned programs would meet the workforce demands of the region. The report should be submitted by October 15, 2018.
