19 (2019 Replacement Volume and 2020 Supplement)

20 ~~Preamble~~

21 ~~WHEREAS, Race is a social construct with no biological basis that artificially divides~~
22 ~~people into distinct groups based on characteristics such as physical appearance, ancestral~~
23 ~~heritage, cultural affiliation, and the social, economic, and political needs of a society at a~~
24 ~~given period; and~~

25 ~~WHEREAS, Racism is a social system with multiple dimensions that include~~
26 ~~individual racism that is internalized or interpersonal, systemic racism that is institutional~~
27 ~~or structural, and a system of structuring opportunity and assigning value based on the~~
28 ~~social interpretation of how one looks; and~~

29 ~~WHEREAS, Racism unfairly disadvantages specific individuals and communities~~
30 ~~while unfairly giving advantages to other individuals and communities and undermines~~
31 ~~society as a whole through the waste of human resources necessary to promote prosperity~~
32 ~~and development in Maryland and elsewhere; and~~

33 ~~WHEREAS, Racism is rooted in the foundation of America, from the time chattel~~
34 ~~slavery began in the 1600s, to the Jim Crow era, to the declaration of the war on drugs that~~
35 ~~eventually led to the mass incarceration of Black people, and it has remained a presence in~~
36 ~~American society while subjecting Black, Indigenous, and People of Color to hardships and~~
37 ~~disadvantages in every aspect of life; and~~

~~1 WHEREAS, The American Public Health Association, National Association of
2 County and City Health Officials, and the American Academy of Pediatrics have declared
3 racism as a public health crisis; and~~

~~4 WHEREAS, Communities of color, working class residents, and individuals with
5 disabilities are more likely to experience poor health outcomes as a consequence of their
6 social determinants of health; and~~

~~7 WHEREAS, Racism causes persistent discrimination and disparate outcomes in
8 many areas of life, including housing, education, employment, criminal justice and
9 incarceration, family stability, economic opportunity, access to health care, public safety,
10 environmental safety, inadequate nutrition, voters' rights, and under-resourced
11 recreational and health care facilities; and~~

~~12 WHEREAS, More than 100 studies have linked racism to worse health outcomes;
13 and~~

~~14 WHEREAS, Racism exacerbates health disparities among Black, Hispanic, and
15 Native American residents, including a greater risk of heart disease, stroke, infant
16 mortality, maternal mortality, lower birth weight, obesity, hypertension, type 2 diabetes,
17 cancers, respiratory diseases, and autoimmune diseases; and~~

~~18 WHEREAS, Specific physical and behavioral health conditions stemming from
19 racism include depression, anxiety, anger, fear, trauma, terror, and long term physical and
20 mental health impairments; and~~

~~21 WHEREAS, The COVID-19 crisis and ongoing protests against police brutality have
22 helped to highlight now, more than ever, that racism, not race, causes disparities for black
23 and brown Americans; now, therefore,~~
