#### Preamble

WHEREAS, Maryland envisions a 21st century Chesapeake Bay, where indigenous fish and wildlife flourish because of a healthy watershed realized through citizen support; and

WHEREAS, The public trust doctrine recognizes that government has an affirmative duty to protect, manage, and conserve fish and wildlife; and

WHEREAS, Prevailing budget constraints resulting from a lingering economic recession have compromised Maryland’s ability to, among other things, offset the costs of the enforcement of State conservation laws consistent with the State’s 21st century vision and the public trust doctrine; and

WHEREAS, The intent of this Act is to recognize Maryland’s commitment to the sustainability of its finite natural resources, with due regard to the dictates of fiscal practicality, by making conservation law enforcement more effective and efficient through the provision of additional investigative and funding tools, including strengthened deterrence of natural resources–related violations; now, therefore,
