House Bill 4125 as introduced
Sponsor: Rep. Gary Howell
Committee: Workforce, Trades, and Talent
Complete to 4-28-21

Analysis available at
<http://www.legislature.mi.gov>

SUMMARY:

House Bill 4125 would amend Article 7 (Electricians and Electrical Contractors) of the Skilled Trades Regulation Act to allow certain work done by or for an electrical energy supply agency to be completed without a license.

Generally under the act, a person may not engage in the business of electrical contracting or in any manner undertake to execute electrical wiring unless appropriately licensed and employed. However, the act specifies instances in which a license is not required. The bill would add to that list certain work by or for an *electrical energy supply agency*.

Electrical energy supply agency would mean any of the following, as defined in the specified acts:

- An electric utility.
- An independent transmission company.
- A municipal electric utility system.
- An electric cooperative headquartered in Michigan, organized as a cooperative corporation, and serving primarily members of the cooperative electric utility.

MCL 339.5701 and 339.5737

FISCAL IMPACT:

House Bill 4125 would not have an appreciable fiscal impact on any unit of state or local government.
