SUMMARY:

House Bill 4515 would amend section 81116 of the Natural Resources and Environmental Protection Act to remove the sunset (expiration date) on license fees for the operation of off-road vehicles (ORVs).¹

Currently under the act, the owner of an ORV requiring licensure must file an application for a license with the Department of Natural Resources (DNR) or with an ORV dealer or DNR license agent. A license is not required to operate an ORV on private lands. Licenses are valid for one year beginning each April 1. The fee for a license is as follows:

- For a license that does *not* authorize operation of the ORV on state ORV trails, \$26.25. (This license authorizes operating the ORV on eligible county roads, the frozen surface of public waters, and eligible state and national forest roads.)
- For a license authorizing operation of the ORV on state ORV trails and scramble areas, \$36.25. (This additional \$10 purchase is described as a trail permit supplemental to the basic license described above.)
- Beginning April 1, 2024, no fee.

In 2013, section 81116 was amended to provide that no fee would be charged for an ORV license or trail permit beginning April 1, 2019. In 2017, that date was extended to April 1, 2024. The bill would remove the sunset language and retain ORV license fees beyond that date.

MCL 324.81116

FISCAL IMPACT:

A fiscal analysis is in progress.
