 32.18 local ordinance. If a local unit of government notifies the office that a cannabis business  
 32.19 other than a cannabis retailer, cannabis microbusiness with a retail operations endorsement,  
 32.20 lower potency edible product retailer, or medical cannabis retailer poses an immediate threat

34.14 (d) Commitments made by an applicant in its application, including but not limited to  
34.15 the maintenance of a labor peace agreement, shall be an ongoing material condition of  
34.16 maintaining and renewing the license.

34.17 (e) An application on behalf of a corporation or association shall be signed by at least  
34.18 two officers or managing agents of that entity.

34.19 Subd. 2. **Application; process.** (a) An applicant must submit all required information  
34.20 to the office on the forms and in the manner prescribed by the office.

34.21 (b) If the office receives an application that fails to provide the required information,  
34.22 the office shall issue a deficiency notice to the applicant. The applicant shall have ten  
34.23 business days from the date of the deficiency notice to submit the required information.

34.24 (c) Failure by an applicant to submit all required information will result in the application  
34.25 being rejected.

34.26 (d) Upon receipt of a completed application and fee, the office shall forward a copy of  
34.27 the application to the local unit of government in which the business operates or intends to  
34.28 operate with a form for certification as to whether a proposed cannabis business complies  
34.29 with local zoning ordinances and, if applicable, whether the proposed business complies  
34.30 with the state fire code and building code.

35.1 (e) Within 90 days of receiving a completed application, the office shall issue the  
35.2 appropriate license or send the applicant a notice of rejection setting forth specific reasons  
35.3 that the office did not approve the application.

35.4 Subd. 3. **Criminal history check.** A license applicant or, in the case of a business entity,  
35.5 every cooperative member or director, manager, and general partner of the business entity,  
35.6 must submit a completed criminal history records check consent form, a full set of classifiable  
35.7 fingerprints, and the required fees to the office. Upon receipt of this information, the office  
35.8 must submit the completed criminal history records check consent form, full set of classifiable  
35.9 fingerprints, and required fees to the Bureau of Criminal Apprehension. After receiving this  
35.10 information, the bureau must conduct a Minnesota criminal history records check of the  
35.11 license applicant. The bureau may exchange a license applicant's fingerprints with the  
35.12 Federal Bureau of Investigation to obtain the applicant's national criminal history record  
35.13 information. The bureau must return the results of the Minnesota and federal criminal history  
35.14 records checks to the director to determine if the applicant is disqualified under section  
35.15 342.20.

35.16 Subd. 4. **Application; fees.** The office may charge a nonrefundable fee, not to exceed  
35.17 \$250, to cover the costs associated with reviewing and processing applications.

35.18 **Sec. 15. [342.16] SOCIAL EQUITY APPLICANTS.**

35.19 An individual qualifies as a social equity applicant if the individual is:

35.20 (1) a military veteran who lost honorable status due to a cannabis-related offense;

35.21 (2) a resident for the last five years of one or more subareas, such as census tracts or  
35.22 neighborhoods, that experienced a disproportionately large amount of cannabis enforcement  
35.23 as determined by the study conducted by the office pursuant to section 342.04, paragraph  
35.24 (b), and reported in the preliminary report, final report, or both; or

35.25 (3) a resident for the last five years of one or more census tracts where, as reported in  
35.26 the most recently completed decennial census published by the United States Bureau of the  
35.27 Census, either:

35.28 (i) the poverty rate was 20 percent or more; or

35.29 (ii) the median family income did not exceed 80 percent of statewide median family  
35.30 income or, if in a metropolitan area, did not exceed the greater of 80 percent of the statewide  
35.31 median family income or 80 percent of the median family income for that metropolitan  
35.32 area.

36.1 **Sec. 16. [342.17] LICENSE SELECTION CRITERIA.**

36.2 Subdivision 1. **Market stability.** The office shall issue the necessary number of licenses  
36.3 in order to ensure the sufficient supply of cannabis flower and cannabinoid products to meet  
36.4 demand, provide market stability, and limit the sale of unregulated cannabis flower and  
36.5 cannabinoid products.

36.6 Subd. 2. **Craft cultivation priority.** (a) The office shall prioritize issuance of  
36.7 microbusiness licenses with an endorsement to cultivate cannabis flower and craft cultivator  
36.8 licenses.

36.9 (b) Unless the office determines that the issuance of bulk cultivator licenses is necessary  
36.10 to ensure a sufficient supply of cannabis flower and cannabinoid products, the office shall  
36.11 not issue a bulk cultivator license before July 1, 2028.

36.12 Subd. 3. **Vertical integration prohibited; exceptions.** (a) Except as otherwise provided  
36.13 in this subdivision, the office shall not issue licenses to a single applicant that would result  
36.14 in the applicant being vertically integrated in violation of the provisions of this chapter.

36.15 (b) Nothing in this section prohibits or limits the issuance of microbusiness licenses.

36.16 (c) If the office determines that the issuance of multiple licenses resulting in a single  
36.17 applicant being vertically integrated is necessary to ensure a sufficient supply of cannabis  
36.18 flower and cannabinoid products during the first calendar year in which cannabis flower  
36.19 and cannabinoid products are lawfully sold to customers, the office may authorize one or  
36.20 more applicants to be fully vertically integrated. Regardless of when the licenses were  
36.21 issued, licenses issued under the terms of this paragraph expire one year after the first day  
36.22 on which cannabis flower and cannabinoid products are lawfully sold to customers and the  
36.23 office may not issue multiple licenses resulting in a single applicant being vertically  
36.24 integrated after that date.

36.25 Subd. 4. **Application score; license priority.** (a) The office shall award points to each  
36.26 completed application in the following categories:

36.27 (1) status as a social equity applicant or as an applicant who is substantially similar to  
36.28 a social equity applicant as described in paragraph (c);

36.29 (2) status as a veteran applicant;

36.30 (3) security and record keeping;

36.31 (4) employee training plan;

36.32 (5) business plan and financial situation;

37.1 (6) diversity plan;

37.2 (7) labor and employment practices;

37.3 (8) knowledge and experience; and

37.4 (9) environmental plan.

37.5 (b) The office may award additional points to an application if the license holder would  
37.6 expand service to an underrepresented market including but not limited to participation in  
37.7 the medical cannabis program.

37.8 (c) The office shall establish application materials permitting individual applicants to  
37.9 demonstrate the impact that cannabis prohibition has had on that applicant including but  
37.10 not limited to the arrest or imprisonment of the applicant or a member of the applicant's  
37.11 immediate family, and the office may award points to such applicants in the same manner  
37.12 as points are awarded to social equity applicants.

37.13 (d) The office shall establish policies and guidelines, which shall be made available to  
37.14 the public, regarding the number of points available in each category and the basis for  
37.15 awarding those points. Status as a social equity applicant must account for at least 20 percent  
37.16 of the total available points. In determining the number of points to award to a cooperative  
37.17 or business applying as a social equity applicant, the office shall consider the number or  
37.18 ownership percentage of cooperative members, officers, directors, managers, and general  
37.19 partners who qualify as social equity applicants.

37.20 (e) Consistent with the goals identified in subdivision 1, the office shall issue licenses  
37.21 in each license category, giving priority to applicants who receive the highest score under  
37.22 paragraphs (a) and (b). If there are insufficient licenses available for entities that receive  
37.23 identical scores, the office shall utilize a lottery to randomly select license recipients from  
37.24 among those entities.

37.25 **Sec. 17. [342.18] INSPECTION; LICENSE VIOLATIONS; PENALTIES.**

37.26 Subdivision 1. **Authority to inspect.** (a) In order to carry out the purposes of this chapter,  
37.27 the office, upon presenting appropriate credentials to the owner, operator, or agent in charge,  
37.28 is authorized to:

37.29 (1) enter any cannabis business without delay and at reasonable times;

37.30 (2) inspect and investigate during regular working hours and at other reasonable times,  
37.31 within reasonable limits and in a reasonable manner, any cannabis business and all relevant  
37.32 conditions, equipment, records, and materials therein; and

38.1 (3) question privately any employer, owner, operator, agent, or employee of a cannabis  
38.2 business.

38.3 (b) An employer, owner, operator, agent, or employee must not refuse the office entry  
38.4 or otherwise deter or prohibit the office from taking action under paragraph (a).

38.5 Subd. 2. Powers of office. (a) In making inspections and investigations under this chapter,  
38.6 the office shall have the power to administer oaths, certify as to official acts, take and cause  
38.7 to be taken depositions of witnesses, issue subpoenas, and compel the attendance of witnesses  
38.8 and production of papers, books, documents, records, and testimony. In case of failure of  
38.9 any person to comply with any subpoena lawfully issued, or on the refusal of any witness  
38.10 to produce evidence or to testify to any matter regarding which the person may be lawfully  
38.11 interrogated, the district court shall, upon application of the office, compel obedience  
38.12 proceedings for contempt, as in the case of disobedience of the requirements of a subpoena  
38.13 issued by the court or a refusal to testify therein.

38.14 (b) If the office finds probable cause to believe that any cannabis plant, cannabis flower,  
38.15 artificially derived cannabinoid, or cannabinoid product is being distributed in violation of  
38.16 this chapter or rules adopted under this chapter, the office shall affix to the cannabis plant,  
38.17 cannabis flower, artificially derived cannabinoid, or cannabinoid product a tag, withdrawal  
38.18 from distribution order, or other appropriate marking providing notice that the cannabis  
38.19 plant, cannabis flower, artificially derived cannabinoid, or cannabinoid product is, or is  
38.20 suspected of being, distributed in violation of this chapter, and has been detained or  
38.21 embargoed, and warning all persons not to remove or dispose of the cannabis plant, cannabis  
38.22 flower, artificially derived cannabinoid, or cannabinoid product by sale or otherwise until  
38.23 permission for removal or disposal is given by the office or the court. It is unlawful for a  
38.24 person to remove or dispose of detained or embargoed cannabis plant, cannabis flower,  
38.25 artificially derived cannabinoid, or cannabinoid product by sale or otherwise without the  
38.26 office's or a court's permission and each transaction is a separate violation of this section.

38.27 (c) If any cannabis plant, cannabis flower, artificially derived cannabinoid, or cannabinoid  
38.28 product has been found by the office to be in violation of this chapter, the office shall petition  
38.29 the district court in the county in which the cannabis plant, cannabis flower, artificially  
38.30 derived cannabinoid, or cannabinoid product is detained or embargoed for an order and  
38.31 decree for the condemnation of the cannabis plant, cannabis flower, artificially derived  
38.32 cannabinoid, or cannabinoid product. The office shall release the cannabis plant, cannabis  
38.33 flower, artificially derived cannabinoid, or cannabinoid product when this chapter and rules  
38.34 adopted under this chapter have been complied with or the cannabis plant, cannabis flower,

39.1 artificially derived cannabinoid, or cannabinoid product is found not to be in violation of  
39.2 this chapter or rules adopted under this chapter.

39.3 (d) If the court finds that detained or embargoed cannabis plant, cannabis flower,  
39.4 artificially derived cannabinoid, or cannabinoid product is in violation of this chapter or  
39.5 rules adopted under this chapter, the following remedies are available:

39.6 (1) after entering a decree, the cannabis plant, cannabis flower, artificially derived  
39.7 cannabinoid, or cannabinoid product may be destroyed at the expense of the claimant under  
39.8 the supervision of the office, and all court costs, fees, storage, and other proper expenses  
39.9 must be assessed against the claimant of the cannabis plant, cannabis flower, artificially  
39.10 derived cannabinoid, or cannabinoid product or the claimant's agent; and

39.11 (2) if the violation can be corrected by proper labeling or processing of the cannabis  
39.12 plant, cannabis flower, artificially derived cannabinoid, or cannabinoid product, the court,  
39.13 after entry of the decree and after costs, fees, and expenses have been paid, and a good and  
39.14 sufficient bond conditioned that the cannabis plant, cannabis flower, artificially derived  
39.15 cannabinoid, or cannabinoid product must be properly labeled or processed has been  
39.16 executed, may by order direct that the cannabis plant, cannabis flower, artificially derived  
39.17 cannabinoid, or cannabinoid product be delivered to the claimant for proper labeling or  
39.18 processing under the supervision of the office. The office's supervision expenses must be  
39.19 paid by the claimant. The cannabis plant, cannabis flower, artificially derived cannabinoid,  
39.20 or cannabinoid product must be returned to the claimant and the bond must be discharged  
39.21 on representation to the court by the office that the cannabis plant, cannabis flower, artificially  
39.22 derived cannabinoid, or cannabinoid product is no longer in violation and that the office's  
39.23 supervision expenses have been paid.

39.24 (e) If the office finds in any room, building, piece of equipment, vehicle of transportation,  
39.25 or other structure any cannabis plant, cannabis flower, artificially derived cannabinoid, or  
39.26 cannabinoid product that is unsound or contains any filthy, decomposed, or putrid substance,  
39.27 or that may be poisonous or deleterious to health or otherwise unsafe, the office shall  
39.28 condemn or destroy the item or in any other manner render the item as unsalable, and no  
39.29 one has any cause of action against the office on account of the office's action.

39.30 (f) The office may enter into an agreement with the commissioner of agriculture to  
39.31 analyze and examine samples or other articles furnished by the office for the purpose of  
39.32 determining whether the sample or article violates this chapter or rules adopted under this  
39.33 chapter. A copy of the examination or analysis report for any such article, duly authenticated

40.1 under oath by the laboratory analyst making the determination or examination, shall be  
40.2 prima facie evidence in all courts of the matters and facts contained in the report.

40.3 Subd. 3. **Aiding of inspection.** Subject to rules issued by the office, a representative of  
40.4 a cannabis business shall be given an opportunity to accompany the office during the physical  
40.5 inspection of any cannabis business for the purpose of aiding such inspection.

40.6 Subd. 4. **Complaints and reports; priority of inspection.** (a) The office may conduct  
40.7 inspections of any licensed cannabis business at any time to ensure compliance with the  
40.8 ownership and operation requirements of this chapter.

40.9 (b) Any person may report a suspected violation of a safety or health standard. If upon  
40.10 receipt of such notification the office determines that there are reasonable grounds to believe  
40.11 that such violation or danger exists, the office shall make a special inspection as soon as  
40.12 practicable to determine if such danger or violation exists.

40.13 (c) The office shall prioritize inspections of cannabis businesses where there are  
40.14 reasonable grounds to believe that a violation poses imminent danger to the public or  
40.15 customers. Inspections must take place within 24 hours of the receipt of a credible report.

40.16 (d) The office shall promptly inspect cannabis businesses that are the subject of complaint  
40.17 by a local unit of government.

40.18 Subd. 5. **Violations; administrative orders and penalties.** (a) The office may issue an  
40.19 administrative order to any licensed cannabis business that the office determines has  
40.20 committed a violation of this chapter or rules adopted pursuant to this chapter. The  
40.21 administrative order may require the business to correct the violation or to cease and desist  
40.22 from committing the violation. The order must state the deficiencies that constitute the  
40.23 violation and the time by which the violation must be corrected. If the business believes  
40.24 that the information in the administrative order is in error, the person may ask the office to  
40.25 consider the parts of the order that are alleged to be in error. The request must be in writing,  
40.26 delivered to the office by certified mail within seven days after receipt of the order, and  
40.27 provide documentation to support the allegation of error. The office must respond to a  
40.28 request for reconsideration within 15 days after receiving the request. A request for  
40.29 reconsideration does not stay the correction order unless the office issues a supplemental  
40.30 order granting additional time. The office's disposition of a request for reconsideration is  
40.31 final.

40.32 (b) For each violation of this chapter or rules adopted pursuant to this chapter, the office  
40.33 may issue to each business a monetary penalty of up to \$10,000, an amount that deprives  
40.34 the business of any economic advantage gained by the violation, or both.

41.1 (c) An administrative penalty may be recovered in a civil action in the name of the state  
41.2 brought in the district court of the county where the violation is alleged to have occurred  
41.3 or the district court where the office is housed.

41.4 (d) In addition to penalties listed in this subdivision, a person or business who violates  
41.5 the provisions of this chapter is subject to any applicable criminal penalty.

41.6 Subd. 6. **Nonpublic data.** (a) The following data collected, created, or maintained by  
41.7 the office is classified as nonpublic data, as defined in section 13.02, subdivision 9, or as  
41.8 private data on individuals, as defined in section 13.02, subdivision 12:

41.9 (1) data submitted by an applicant for a cannabis business license, other than the  
41.10 applicant's name and designated address;

41.11 (2) the identity of a complainant who has made a report concerning a license holder or  
41.12 applicant that appears in inactive complaint data unless the complainant consents to the  
41.13 disclosure;

41.14 (3) the nature or content of unsubstantiated complaints when the information is not  
41.15 maintained in anticipation of legal action;

41.16 (4) the record of any disciplinary proceeding except as limited by paragraph (b);

41.17 (5) data identifying retail or wholesale customers of a cannabis business; and

41.18 (6) data identifying cannabis workers.

41.19 (b) Minutes, application data on license holders except nondesignated addresses, orders  
41.20 for hearing, findings of fact, conclusions of law, and specification of the final disciplinary  
41.21 action contained in the record of the disciplinary action are classified as public, pursuant to  
41.22 section 13.02, subdivision 15. If there is a public hearing concerning the disciplinary action,  
41.23 the entire record concerning the disciplinary proceeding is public data pursuant to section  
41.24 13.02, subdivision 15. If the license holder and the office agree to resolve a complaint  
41.25 without a hearing, the agreement and the specific reasons for the agreement are public data.

41.26 (c) The office must establish written procedures to ensure that only individuals authorized  
41.27 by law may enter, update, or access the data classified as nonpublic or private data on  
41.28 individuals in this subdivision. An authorized individual's ability to enter, update, or access  
41.29 data in the system must correspond to the official duties or training level of the individual  
41.30 and to the statutory authorization granting access for that purpose. All queries and responses,  
41.31 and all actions in which not public data are entered, updated, accessed, shared, or  
41.32 disseminated, must be recorded in a data audit trail. Data contained in the audit trail have  
41.33 the same classification as the underlying data tracked by the audit trail.

42.1 (d) The office must not share data classified as private under this subdivision or other  
42.2 data identifying an individual applicant or license holder with any federal agency, federal  
42.3 department, or federal entity unless specifically ordered to do so by a state or federal court.

42.4 **Sec. 18. [342.19] LICENSE SUSPENSION OR REVOCATION; HEARING.**

42.5 Subdivision 1. **License revocation and nonrenewal.** The office may revoke or not  
42.6 renew a license when the office has cause to believe that a cannabis business has violated  
42.7 an ownership or operational requirement in this chapter or rules adopted pursuant to this  
42.8 chapter. The office must notify the license holder in writing, specifying the grounds for  
42.9 revocation or nonrenewal and fixing a time of at least 20 days thereafter for a hearing on  
42.10 the matter.

42.11 Subd. 2. **Hearing; written findings.** (a) Before the office revokes or does not renew a  
42.12 license, the office must provide the license holder with a statement of the complaints made  
42.13 against the license holder, and the office must hold a hearing to determine whether the office  
42.14 should revoke the license or deny renewal of the license. The license holder shall receive  
42.15 notice at least 20 days before the date of the hearing and notice may be served either by  
42.16 certified mail addressed to the address of the license holder as shown in the license  
42.17 application or in the manner provided by law for the service of a summons. At the time and  
42.18 place fixed for the hearing, the office, or any office employee or agent authorized by the  
42.19 office to conduct the hearing, shall receive evidence, administer oaths, and examine witnesses.

42.20 (b) After the hearing held pursuant to paragraph (a), or upon the failure of the license  
42.21 holder to appear at the hearing, the office must take action as is deemed advisable and issue  
42.22 written findings that the office must mail to the license holder. An action of the office under  
42.23 this paragraph is subject to judicial review pursuant to chapter 14.

42.24 Subd. 3. **Temporary suspension.** The office may temporarily, without hearing, suspend  
42.25 the license and operating privilege of any business licensed under this chapter for up to 90  
42.26 days if continuing the operation of the business would threaten the health or safety of any  
42.27 person. The office may extend the period for an additional 90 days if the office notified the  
42.28 business that the office intends to revoke or not renew a license and the hearing required  
42.29 under subdivision 2 has not taken place.

42.30 **Sec. 19. [342.20] ADULT-USE CANNABIS BUSINESS; GENERAL OWNERSHIP**  
42.31 **DISQUALIFICATIONS AND REQUIREMENTS.**

42.32 Subdivision 1. **Criminal history check.** Every license applicant and prospective cannabis  
42.33 worker must submit a completed criminal history records check consent form, a full set of

48.18 to allow customers to smell the cannabis flower or cannabinoid product before purchase.  
48.19 A sample jar may not contain more than eight grams of useable cannabis flower, eight grams  
48.20 of a cannabis concentrate, or an edible cannabinoid product infused with 100 milligrams of

49.3 a cannabis retailer, cannabis microbusiness with a retail operations endorsement, lower  
49.4 potency edible product retailer, or medical cannabis retailer must register with the local unit  
49.5 of government in which the retail establishment is located.

49.6 Subd. 2. **Registration fee.** A local unit of government may charge an initial retail  
49.7 registration fee of up to \$200. The local unit of government may also charge a renewal fee  
49.8 of up to \$200. A cannabis business with a cannabis retailer license and a medical cannabis  
49.9 retailer license for the same location may only be charged a single registration fee. The  
49.10 registration fee is nonrefundable.

49.11 Subd. 3. **Issuance of registration.** (a) A local unit of government shall issue a retail  
49.12 registration to a cannabis retailer, cannabis microbusiness with a retail operations  
49.13 endorsement, lower potency edible product retailer, or medical cannabis retailer that:

49.14 (1) has a valid license issued by the office;

49.17 compliance check that the local unit of government performs; and

49.18 (4) if applicable, is current on all property taxes and assessments at the location where  
49.19 the retail establishment is located.

49.20 (b) Before issuing a retail registration, the local unit of government may conduct a  
49.21 preliminary compliance check to ensure that the cannabis business is in compliance with  
49.22 the applicable operation requirements and the limits on the types of cannabis flower,  
49.23 cannabinoid products, and hemp-derived consumer products that may be sold.

49.24 (c) A local unit of government shall renew the retail registration of a cannabis business  
49.25 when the office renews the license of the cannabis business.

49.26 (d) A retail registration issued under this section may not be transferred.

49.27 Subd. 4. **Compliance checks.** (a) A local unit of government shall conduct compliance  
49.28 checks of every cannabis business with a retail registration issued by the local unit of  
49.29 government. The checks shall assess compliance with age verification requirements; the  
49.30 applicable operation requirements; and the applicable limits on the types of cannabis flower,  
49.31 cannabinoid products, and hemp-derived consumer products being sold.

50.1 (b) The local unit of government must conduct unannounced age verification compliance  
50.2 checks at least once each calendar year. Age verification compliance checks must involve  
50.3 persons at least 17 years of age, but under the age of 21, who, with the prior written consent  
50.4 of a parent or guardian if the person is under the age of 18, attempt to purchase cannabis  
50.5 flower, cannabinoid products, or hemp-derived consumer products under the direct  
50.6 supervision of a law enforcement officer or an employee of the local unit of government.

50.7 (c) Checks to ensure compliance with the applicable operation requirements and the  
50.8 limits on the types of cannabis flower, cannabinoid products, and hemp-derived consumer  
50.9 products that may be sold must be performed at least once each calendar year and may be  
50.10 performed by a law enforcement officer or an employee of the local unit of government.

50.11 **Subd. 5. Registration suspension and cancellation; notice to office; penalties.** (a) If  
50.12 a local unit of government determines that a cannabis business with a retail registration  
50.13 issued by the local unit of government is not operating in compliance with the requirements  
50.14 of this chapter or that the operation of the business poses an immediate threat to the health  
50.15 or safety of the public, the local unit of government may suspend the retail registration of  
50.16 the cannabis business. The local unit of government must immediately notify the office of  
50.17 the suspension and shall include a description of the grounds for the suspension.

50.18 (b) The office shall review the retail registration suspension and may order reinstatement  
50.19 of the retail registration or take any action described in section 342.18 or 342.19.

50.20 (c) The retail registration suspension must be for up to 30 days unless the office suspends  
50.21 the license and operating privilege of the cannabis business for a longer period or revokes  
50.22 the license.

50.23 (d) The local unit of government may reinstate the retail registration if the local unit of  
50.24 government determines that any violation has been cured. The local unit of government  
50.25 must reinstate the retail registration if the office orders reinstatement.

50.26 (e) No cannabis retailer, cannabis microbusiness with a retail operations endorsement,  
50.27 lower potency edible product retailer, or medical cannabis retailer may make any sale to a  
50.28 customer or patient without a valid retail registration. A local unit of government may  
50.29 impose a civil penalty of up to \$2,000 for each violation of this paragraph.

50.33 plant to mature plant, harvest cannabis flower from a mature plant, package and label

51.1 cannabis flower for sale to other cannabis businesses, transport cannabis flower to a cannabis  
51.2 manufacturer located on the same premises, and perform other actions approved by the  
51.3 office.

51.4 (b) The office may issue an applicant either of the following types of cultivator licenses:

51.5 (1) a craft cultivator license, which allows cultivation by a license holder of not more  
51.6 than 10,000 feet of plant canopy unless the office, by rule, increases that limit; or

51.7 (2) a bulk cultivator license, which allows cultivation by a license holder of not more  
51.8 than 30,000 feet of plant canopy.

51.9 (c) The office may, by rule, increase the limit on craft cultivator plant canopy to no more

51.11 identified in section 342.02, subdivision 1.

51.12 Subd. 2. **Additional information required.** In addition to the information required to  
51.13 be submitted under section 342.15, subdivision 1, and rules adopted pursuant to that section,

51.30 (b) Except as provided in paragraph (a), no person, cooperative, or business holding a  
51.31 cannabis cultivator license may own or operate any other cannabis business. This prohibition  
51.32 does not prevent the transportation of cannabis flower from a cannabis cultivator to a cannabis

52.1 manufacturer licensed to the same person, cooperative, or business and located on the same  
52.2 premises.

52.3 (c) The office by rule may limit the number of cannabis cultivator licenses a person,  
52.4 cooperative, or business may hold.

52.5 (d) For purposes of this subdivision, a restriction on the number or type of license a  
52.6 business may hold applies to every cooperative member or every director, manager, and

52.20 Subdivision 1. **Cultivation records.** A cannabis cultivator must prepare a cultivation  
52.21 record for each batch of cannabis plants and cannabis flower in the form required by the

57.25 product as a component or as part of a recipe and where the cannabis manufacturer does  
57.26 not state or advertise to the customer that the final retail cannabinoid product or hemp-derived

91.7 registry program pursuant to this paragraph, the division must provide notice to the patient  
91.8 and to the patient's health care practitioner.

91.9 Subd. 3. **Application procedure for veterans.** (a) The Division of Medical Cannabis  
91.10 shall establish an alternative certification procedure for veterans who receive care from the

91.12 with a qualifying medical condition.

91.13 (b) A patient who is also a veteran and is seeking to enroll in the registry program must  
91.14 submit to the Division of Medical Cannabis an application established by the Division of

91.21 patient's enrollment in the registry program. If the Division of Medical Cannabis approves  
91.22 a patient's enrollment in the registry program, the office must provide notice to the patient  
91.23 and to the patient's health care practitioner.

91.24 (b) A patient's enrollment in the registry program must only be denied if the patient:

91.25 (1) does not submit a certification from a health care practitioner or, if the patient is a

93.28 registration as a designated caregiver. A designated caregiver must have the criminal  
93.29 background check renewed every two years.

97.19 Subd. 3. **Participation not required.** Nothing in this section requires a health care  
97.20 practitioner to participate in the registry program.

97.21 Subd. 4. **Data.** Data on patients collected by a health care practitioner and reported to  
97.22 the registry program, including data on patients who are veterans who receive care from  
97.23 the United States Department of Veterans Affairs, are health records under section 144.291  
97.24 and are private data on individuals under section 13.02 but may be used or reported in an  
97.25 aggregated nonidentifiable form as part of a scientific peer-reviewed publication of research  
97.26 conducted under section 342.49 or in the creation of summary data, as defined in section  
97.27 13.02, subdivision 19.

97.28 Subd. 5. **Exception.** The requirements of this section do not apply to a patient who is a  
97.29 veteran who receives care from the United States Department of Veterans Affairs or a health  
97.30 care practitioner employed by the United States Department of Veterans Affairs. Such a  
97.31 patient must meet the certification requirements developed pursuant to section 342.47,  
97.32 subdivision 3, before the patient's enrollment in the registry program. The Division of  
97.33 Medical Cannabis may establish policies and procedures to obtain medical records and other

98.1 relevant data from a health care practitioner employed by the United States Department of  
98.2 Veterans Affairs, provided that those policies and procedures are consistent with this section.

98.3 **EFFECTIVE DATE.** This section is effective January 1, 2024.

98.4 Sec. 51. **[342.51] LIMITATIONS.**

98.5 Subdivision 1. **Limitations on consumption; locations of consumption.** Nothing in  
98.6 sections 342.42 to 342.56 permits any person to engage in, and does not prevent the  
98.7 imposition of any civil, criminal, or other penalties for:

98.8 (1) undertaking a task under the influence of medical cannabis flower or medical  
98.9 cannabinoid products that would constitute negligence or professional malpractice;

98.10 (2) possessing or consuming medical cannabis:

98.11 (i) on a school bus or van;

98.12 (ii) in a correctional facility; or

98.13 (iii) on the grounds of a child care facility or family or group family day care program;

98.14 (3) vaporizing or smoking medical cannabis:

98.15 (i) on any form of public transportation;

98.16 (ii) where the vapor would be inhaled by a nonpatient minor or where the smoke would  
98.17 be inhaled by a minor; or

98.18 (iii) in any public place, including any indoor or outdoor area used by or open to the  
98.19 general public or a place of employment, as defined in section 144.413, subdivision 1b; and

98.20 (4) operating, navigating, or being in actual physical control of a motor vehicle, aircraft,  
98.21 train, or motorboat or working on transportation property, equipment, or facilities while  
98.22 under the influence of medical cannabis flower or a medical cannabinoid product.

98.23 Subd. 2. **Health care facilities.** (a) Health care facilities licensed under chapter 144A;  
98.24 hospice providers licensed under chapter 144A; boarding care homes or supervised living  
98.25 facilities licensed under section 144.50; assisted living facilities under chapter 144G; facilities  
98.26 owned, controlled, managed, or under common control with hospitals licensed under chapter  
98.27 144; and other health care facilities licensed by the commissioner of health may adopt  
98.28 reasonable restrictions on the use of medical cannabis flower or medical cannabinoid products  
98.29 by a patient enrolled in the registry program who resides at or is actively receiving treatment  
98.30 or care at the facility. The restrictions may include a provision that the facility must not  
98.31 store or maintain a patient's supply of medical cannabis flower or medical cannabinoid

99.1 products, that the facility is not responsible for providing medical cannabis flower or medical  
99.2 cannabinoid products for patients, and that medical cannabis flower or medical cannabinoid  
99.3 products are used only in a location specified by the facility or provider.

99.4 (b) An employee or agent of a facility or provider listed in this subdivision or a person  
99.5 licensed under chapter 144E is not violating this chapter or chapter 152 for the possession  
99.6 of medical cannabis flower or medical cannabinoid products while carrying out employment  
99.7 duties, including providing or supervising care to a patient enrolled in the registry program,  
99.8 or distribution of medical cannabis flower or medical cannabinoid products to a patient  
99.9 enrolled in the registry program who resides at or is actively receiving treatment or care at  
99.10 the facility or from the provider with which the employee or agent is affiliated. Nothing in  
99.11 this subdivision requires facilities and providers listed in this subdivision to adopt such  
99.12 restrictions. No facility or provider listed in this subdivision may unreasonably limit a  
99.13 patient's access to or use of medical cannabis flower or medical cannabinoid products to  
99.14 the extent that such use is authorized under sections 342.42 to 342.56.

99.15 **EFFECTIVE DATE.** This section is effective January 1, 2024.

99.16 Sec. 52. **[342.52] PROTECTIONS FOR REGISTRY PROGRAM PARTICIPANTS.**

99.17 Subdivision 1. **Presumption.** There is a presumption that a patient enrolled in the registry  
99.18 program is engaged in the authorized use of medical cannabis flower and medical cannabinoid  
99.19 products. This presumption may be rebutted by evidence that the patient's use of medical  
99.20 cannabis flower or medical cannabinoid products was not for the purpose of treating or  
99.21 alleviating the patient's qualifying medical condition or symptoms associated with the  
99.22 patient's qualifying medical condition.

99.23 Subd. 2. **Criminal and civil protections.** (a) Subject to section 342.51, the following  
99.24 are not violations of this chapter or chapter 152:

99.25 (1) use or possession of medical cannabis flower, medical cannabinoid products, or  
99.26 medical cannabis paraphernalia by a patient enrolled in the registry program or by a visiting  
99.27 patient to whom medical cannabis flower or medical cannabinoid products are distributed  
99.28 under section 342.46, subdivision 5;

99.29 (2) possession of medical cannabis flower, medical cannabinoid products, or medical  
99.30 cannabis paraphernalia by a registered designated caregiver or a parent, legal guardian, or  
99.31 spouse of a patient enrolled in the registry program; or

100.1 (3) possession of medical cannabis flower, medical cannabinoid products, or medical  
100.2 cannabis paraphernalia by any person while carrying out duties required under sections  
100.3 342.42 to 342.56.

100.4 (b) The Office of Cannabis Management, members of the Cannabis Advisory Council,  
100.5 Office of Cannabis Management employees, agents or contractors of the Office of Cannabis  
100.6 Management, and health care practitioners participating in the registry program are not  
100.7 subject to any civil penalties or disciplinary action by the Board of Medical Practice, the  
100.8 Board of Nursing, or any business, occupational, or professional licensing board or entity  
100.9 solely for participating in the registry program either in a professional capacity or as a  
100.10 patient. A pharmacist licensed under chapter 151 is not subject to any civil penalties or  
100.11 disciplinary action by the Board of Pharmacy when acting in accordance with sections  
100.12 342.42 to 342.56 either in a professional capacity or as a patient. Nothing in this section  
100.13 prohibits a professional licensing board from taking action in response to a violation of law.

100.14 (c) Notwithstanding any law to the contrary, a Cannabis Advisory Council member, the  
100.15 governor, or an employee of a state agency must not be held civilly or criminally liable for  
100.16 any injury, loss of property, personal injury, or death caused by any act or omission while  
100.17 acting within the scope of office or employment under sections 342.42 to 342.56.

100.18 (d) Federal, state, and local law enforcement authorities are prohibited from accessing  
100.19 the registry except when acting pursuant to a valid search warrant. Notwithstanding section  
100.20 13.09, a violation of this paragraph is a gross misdemeanor.

100.21 (e) Notwithstanding any law to the contrary, the office and employees of the office must  
100.22 not release data or information about an individual contained in any report or document or  
100.23 in the registry and must not release data or information obtained about a patient enrolled in  
100.24 the registry program, except as provided in sections 342.42 to 342.56. Notwithstanding  
100.25 section 13.09, a violation of this paragraph is a gross misdemeanor.

100.26 (f) No information contained in a report or document, contained in the registry, or  
100.27 obtained from a patient under sections 342.42 to 342.56 may be admitted as evidence in a  
100.28 criminal proceeding, unless:

100.29 (1) the information is independently obtained; or

100.30 (2) admission of the information is sought in a criminal proceeding involving a criminal  
100.31 violation of sections 342.42 to 342.56.

100.32 (g) Possession of a registry verification or an application for enrollment in the registry  
100.33 program:

101.1 (1) does not constitute probable cause or reasonable suspicion;

101.2 (2) must not be used to support a search of the person or property of the person with a  
101.3 registry verification or application to enroll in the registry program; and

101.4 (3) must not subject the person or the property of the person to inspection by any  
101.5 government agency.

101.6 Subd. 3. **School enrollment; rental property.** (a) No school may refuse to enroll a  
101.7 patient as a pupil or otherwise penalize a patient solely because the patient is enrolled in  
101.8 the registry program, unless failing to do so would violate federal law or regulations or  
101.9 cause the school to lose a monetary or licensing-related benefit under federal law or  
101.10 regulations.

101.11 (b) No landlord may refuse to lease to a patient or otherwise penalize a patient solely  
101.12 because the patient is enrolled in the registry program, unless failing to do so would violate  
101.13 federal law or regulations or cause the landlord to lose a monetary or licensing-related  
101.14 benefit under federal law or regulations.

101.15 Subd. 4. **Medical care.** For purposes of medical care, including organ transplants, a  
101.16 patient's use of medical cannabis flower or medical cannabinoid products according to  
101.17 sections 342.42 to 342.56 is considered the equivalent of the authorized use of a medication  
101.18 used at the discretion of a health care practitioner and does not disqualify a patient from  
101.19 needed medical care.

101.20 Subd. 5. **Employment.** (a) Unless a failure to do so would violate federal or state law  
101.21 or regulations or cause an employer to lose a monetary or licensing-related benefit under  
101.22 federal law or regulations, an employer may not discriminate against a person in hiring,  
101.23 termination, or any term or condition of employment, or otherwise penalize a person, if the  
101.24 discrimination is based on:

101.25 (1) the person's status as a patient enrolled in the registry program; or

101.26 (2) a patient's positive drug test for cannabis components or metabolites, unless the  
101.27 patient used, possessed, sold, transported, or was impaired by medical cannabis flower or  
101.28 a medical cannabinoid product on work premises, during working hours, or while operating  
101.29 an employer's machinery, vehicle, or equipment.

101.30 (b) An employee who is a patient and whose employer requires the employee to undergo  
101.31 drug testing according to section 181.953 may present the employee's registry verification  
101.32 as part of the employee's explanation under section 181.953, subdivision 6.

102.1 Subd. 6. Custody; visitation; parenting time. A person must not be denied custody of  
102.2 a minor child or visitation rights or parenting time with a minor child based solely on the  
102.3 person's status as a patient enrolled in the registry program. There must be no presumption  
102.4 of neglect or child endangerment for conduct allowed under sections 342.42 to 342.56,  
102.5 unless the person's behavior creates an unreasonable danger to the safety of the minor as  
102.6 established by clear and convincing evidence.

102.7 Subd. 7. Action for damages. In addition to any other remedy provided by law, a patient  
102.8 may bring an action for damages against any person who violates subdivision 3, 4, or 5. A  
102.9 person who violates subdivision 3, 4, or 5 is liable to a patient injured by the violation for  
102.10 the greater of the person's actual damages or a civil penalty of \$100 and reasonable attorney  
102.11 fees.

102.12 EFFECTIVE DATE. This section is effective January 1, 2024.

102.13 Sec. 53. [342.54] VIOLATION BY HEALTH CARE PRACTITIONER; CRIMINAL  
102.14 PENALTY.

102.15 A health care practitioner who knowingly refers patients to a medical cannabis business  
102.16 or to a designated caregiver, who advertises as a retailer or producer of medical cannabis  
102.17 flower or medical cannabinoid products, or who issues certifications while holding a financial  
102.18 interest in a cannabis retailer or medical cannabis business is guilty of a misdemeanor and  
102.19 may be sentenced to imprisonment for not more than 90 days or to payment of not more  
102.20 than \$1,000, or both.

102.21 EFFECTIVE DATE. This section is effective January 1, 2024.

102.22 Sec. 54. [342.55] DATA PRACTICES.

102.23 Subdivision 1. Data classification. Patient health records maintained by the Office of  
102.24 Cannabis Management or the Division of Medical Cannabis and government data in patient  
102.25 health records maintained by a health care practitioner are classified as private data on  
102.26 individuals, as defined in section 13.02, subdivision 12, or nonpublic data, as defined in  
102.27 section 13.02, subdivision 9.

102.28 Subd. 2. Allowable use; prohibited use. Data specified in subdivision 1 may be used  
102.29 to comply with chapter 13, to comply with a request from the legislative auditor or the state  
102.30 auditor in the performance of official duties, and for purposes specified in sections 342.42  
102.31 to 342.56. Data specified in subdivision 1 and maintained by the Office of Cannabis  
102.32 Management or Division of Medical Cannabis must not be used for any purpose not specified

103.1 in sections 342.42 to 342.56 and must not be combined or linked in any manner with any  
103.2 other list, dataset, or database. Data specified in subdivision 1 must not be shared with any  
103.3 federal agency, federal department, or federal entity unless specifically ordered to do so by  
103.4 a state or federal court.

103.5 **EFFECTIVE DATE.** This section is effective January 1, 2024.

103.6 **Sec. 55. [342.56] CLINICAL TRIALS.**

103.7 The Division of Medical Cannabis may conduct, or award grants to health care providers  
103.8 or research organizations to conduct, clinical trials on the safety and efficacy of using  
103.9 medical cannabis flower or medical cannabinoid products to treat a specific health condition.  
103.10 A health care provider or research organization receiving a grant under this section must  
103.11 provide the office with access to all data collected in a clinical trial funded under this section.  
103.12 The office may use data from clinical trials conducted or funded under this section as  
103.13 evidence to approve additional qualifying medical conditions or additional allowable forms  
103.14 of medical cannabis.

103.15 **EFFECTIVE DATE.** This section is effective January 1, 2024.

103.16 **Sec. 56. [342.60] TESTING.**

103.17 Subdivision 1. **Testing required.** A cannabis business shall not sell or offer for sale  
103.18 cannabis flower, cannabinoid products, artificially derived cannabinoids, or hemp-derived  
103.19 consumer products to another cannabis business or to a customer or patient, or otherwise  
103.20 transfer cannabis flower, cannabinoid products, artificially derived cannabinoids, or  
103.21 hemp-derived consumer products to another cannabis business, unless:

103.22 (1) a representative sample of the batch of cannabis flower, cannabinoid product,  
103.23 artificially derived cannabinoid, or hemp-derived consumer product has been tested according  
103.24 to this section and rules adopted under this chapter;

103.25 (2) the testing was completed by a cannabis testing facility licensed under this chapter;  
103.26 and

103.27 (3) the tested sample of cannabis flower, cannabinoid product, artificially derived  
103.28 cannabinoid, or hemp-derived consumer product was found to meet testing standards  
103.29 established by the office.

103.30 Subd. 2. **Procedures and standards established by office.** (a) The office shall by rule  
103.31 establish procedures governing the sampling, handling, testing, storage, and transportation  
103.32 of cannabis flower, cannabinoid products, artificially derived cannabinoids, and hemp-derived

104.1 consumer products tested under this section; the contaminants for which cannabis flower,  
104.2 cannabinoid products, artificially derived cannabinoids, and hemp-derived consumer products  
104.3 must be tested; standards for potency and homogeneity testing; and procedures applicable  
104.4 to cannabis businesses and cannabis testing facilities regarding cannabis flower, cannabinoid  
104.5 products, artificially derived cannabinoids, and hemp-derived consumer products that fail  
104.6 to meet the standards for allowable levels of contaminants established by the office, that  
104.7 fail to meet the potency limits in this chapter or that do not conform with the content of the  
104.8 cannabinoid profile listed on the label.

104.9 (b) All testing required under this section must be performed in a manner that is consistent  
104.10 with general requirements for testing and calibration activities.

104.11 Subd. 3. **Standards established by Office of Cannabis Management.** The office shall  
104.12 by rule establish standards for allowable levels of contaminants in cannabis flower,  
104.13 cannabinoid products, artificially derived cannabinoids, hemp-derived consumer products,  
104.14 and growing media. Contaminants for which the office must establish allowable levels must  
104.15 include but are not limited to residual solvents, foreign material, microbiological  
104.16 contaminants, heavy metals, pesticide residue, and mycotoxins.

104.17 Subd. 4. **Testing of samples; disclosures.** (a) On a schedule determined by the office,  
104.18 every cannabis cultivator, cannabis manufacturer, cannabis wholesaler with an endorsement  
104.19 to import products, cannabis microbusiness, or medical cannabis business shall make each  
104.20 batch of cannabis flower, cannabinoid products, artificially derived cannabinoids, or  
104.21 hemp-derived consumer products grown, manufactured, or imported by the cannabis  
104.22 cultivator, cannabis manufacturer, cannabis wholesaler with an endorsement to import  
104.23 products, cannabis microbusiness, or medical cannabis business available to a cannabis  
104.24 testing facility.

104.25 (b) A cannabis cultivator, cannabis manufacturer, cannabis wholesaler with an  
104.26 endorsement to import products, cannabis microbusiness, or medical cannabis business  
104.27 must disclose all known information regarding pesticides, fertilizers, solvents, or other  
104.28 foreign materials, including but not limited to catalysts used in creating artificially derived  
104.29 cannabinoids, applied or added to the batch of cannabis flower, cannabinoid products,  
104.30 artificially derived cannabinoids, or hemp-derived consumer products subject to testing.  
104.31 Disclosure must be made to the cannabis testing facility and must include information about  
104.32 all applications by any person, whether intentional or accidental.

104.33 (c) The cannabis testing facility shall select one or more representative samples from  
104.34 each batch, test the samples for the presence of contaminants, and test the samples for

105.1 potency and homogeneity and to allow the cannabis flower, cannabinoid product, artificially  
105.2 derived cannabinoid, or hemp-derived consumer product to be accurately labeled with its  
105.3 cannabinoid profile. Testing for contaminants must include testing for residual solvents,  
105.4 foreign material, microbiological contaminants, heavy metals, pesticide residue, mycotoxins,  
105.5 and any items identified pursuant to paragraph (b), and may include testing for other  
105.6 contaminants. A cannabis testing facility must destroy or return to the cannabis cultivator,  
105.7 cannabis manufacturer, cannabis wholesaler with an endorsement to import products,  
105.8 cannabis microbusiness, or medical cannabis business any part of the sample that remains  
105.9 after testing.

105.10 Subd. 5. Test results. (a) If a sample meets the applicable testing standards, a cannabis  
105.11 testing facility shall issue a certification to a cannabis cultivator, cannabis manufacturer,  
105.12 cannabis wholesaler with an endorsement to import products, cannabis microbusiness, or  
105.13 medical cannabis business, and the cannabis cultivator, cannabis manufacturer, cannabis  
105.14 wholesaler with an endorsement to import products, cannabis microbusiness, or medical  
105.15 cannabis business may then sell or transfer the batch of cannabis flower, cannabinoid  
105.16 products, artificially derived cannabinoids, or hemp-derived consumer products from which  
105.17 the sample was taken to another cannabis business or offer the cannabis flower, cannabinoid  
105.18 products, or hemp-derived consumer products for sale to customers or patients. If a sample  
105.19 does not meet the applicable testing standards or if the testing facility is unable to test for  
105.20 a substance identified pursuant to subdivision 4, paragraph (b), the batch from which the  
105.21 sample was taken shall be subject to procedures established by the office for such batches,  
105.22 including destruction, remediation, or retesting. A cannabis cultivator, cannabis manufacturer,  
105.23 cannabis wholesaler with an endorsement to import products, cannabis microbusiness, or  
105.24 medical cannabis business must maintain the test results for cannabis flower, cannabinoid  
105.25 products, artificially derived cannabinoids, or hemp-derived consumer products grown,  
105.26 manufactured, or imported by that cannabis cultivator, cannabis manufacturer, cannabis  
105.27 wholesaler with an endorsement to import products, cannabis microbusiness, or medical  
105.28 cannabis business for at least five years after the date of testing.

105.29 (b) A cannabis cultivator, cannabis manufacturer, cannabis wholesaler with an  
105.30 endorsement to import products, cannabis microbusiness, or medical cannabis business  
105.31 shall make test results maintained by that cannabis cultivator, cannabis manufacturer,  
105.32 cannabis wholesaler with an endorsement to import products, cannabis microbusiness, or  
105.33 medical cannabis business available for review by any member of the public, upon request.  
105.34 Test results made available to the public must be in plain language.

106.1 Sec. 57. [342.62] PACKAGING.

106.2 Subdivision 1. General. All cannabis flower, cannabinoid products, and hemp-derived  
106.3 consumer products sold to customers or patients must be packaged as required by this section  
106.4 and rules adopted under this chapter.

106.5 Subd. 2. Packaging requirements. (a) Except as provided in paragraph (b), all cannabis  
106.6 flower, cannabinoid products, and hemp-derived consumer products sold to customers or  
106.7 patients must be:

106.8 (1) prepackaged in packaging or a container that is plain, child-resistant, tamper-evident,  
106.9 and opaque; or

106.10 (2) placed in packaging or a container that is plain, child-resistant, tamper-evident, and  
106.11 opaque at the final point of sale to a customer.

106.12 (b) The requirement that packaging be child-resistant does not apply to:

106.13 (1) a hemp-derived topical product; or

106.14 (2) a lower potency edible product that:

106.15 (i) is intended to be consumed as a beverage;

106.16 (ii) contains nonintoxicating cannabinoids;

106.17 (iii) does not contain more than a combined total of 0.25 milligrams of intoxicating  
106.18 cannabinoids; and

106.19 (iv) does not contain an artificially derived cannabinoid.

106.20 (c) If a cannabinoid product or a hemp-derived consumer product is packaged in a manner  
106.21 that includes more than a single serving, each serving must be indicated by scoring, wrapping,  
106.22 or other indicators designating the individual serving size. If the item is a lower potency  
106.23 edible product, any indicator other than individual wrapping that designates the individual  
106.24 serving size must appear on the edible cannabinoid product.

106.25 (d) An edible cannabinoid product containing more than a single serving must be  
106.26 prepackaged or placed at the final point of sale in packaging or a container that is resealable.

106.27 Subd. 3. Packaging prohibitions. (a) Cannabis flower, cannabinoid products, or  
106.28 hemp-derived consumer products sold to customers or patients must not be packaged in a  
106.29 manner that:

107.1 (1) bears a reasonable resemblance to any commercially available product that does not  
107.2 contain cannabinoids, whether the manufacturer of the product holds a registered trademark  
107.3 or has registered the trade dress; or

107.4 (2) is designed to appeal to persons under 21 years of age.

107.5 (b) Packaging for cannabis flower, cannabinoid products, and hemp-derived consumer  
107.6 products must not contain or be coated with any perfluoroalkyl substance.

107.7 (c) Edible cannabinoid products must not be packaged in a material that is not approved  
107.8 by the United States Food and Drug Administration for use in packaging food.

107.9 Sec. 58. [342.64] LABELING.

107.10 Subdivision 1. General. All cannabis flower, cannabinoid products, and hemp-derived  
107.11 consumer products sold to customers or patients must be labeled as required by this section  
107.12 and rules adopted under this chapter.

107.13 Subd. 2. Content of label; cannabis. All cannabis flower and hemp-derived consumer  
107.14 products that consist of hemp plant parts sold to customers or patients must have affixed  
107.15 on the packaging or container of the cannabis flower or hemp-derived consumer product a  
107.16 label that contains at least the following information:

107.17 (1) the name and license number of the cannabis cultivator, cannabis microbusiness,  
107.18 medical cannabis cultivator, or industrial hemp grower where the cannabis flower or hemp  
107.19 plant part was cultivated;

125.21 notify the assessor by July 1, for treatment beginning in the following taxes payable year.

125.28 rate.

125.29 (3) The entire market value of personal property that is: (i) tools, implements, and

125.30 machinery of an electric generation, transmission, or distribution system; (ii) tools,

125.33 steam or hot or chilled water for heating or cooling buildings, has a classification rate as

125.34 provided under clause (1) for the remaining market value in excess of the first tier.

126.1 (4) Property used for raising, cultivating, processing, or storing cannabis plants, cannabis  
126.2 flower, or cannabinoid products for sale has a classification rate as provided under clause

126.16 ~~and~~, (2), and (4);

126.17 (2) electric generation attached machinery under class 3; and

126.18 (3) property described in section 473.625.

179.7 forfeited to the state. The appropriate agency or its authorized agent may seize the plants if  
179.8 the person in occupancy or in control of land or premises where the plants are growing or

179.10 of appropriate registration.

179.14 **AUTHORIZED.**

179.15 (a) The commissioner of public safety is authorized to design, plan, and implement a  
179.16 pilot project intended to determine the efficacy of oral fluid roadside testing to determine  
179.17 the presence of a controlled substance or intoxicating substance by trained law enforcement  
179.18 personnel. The project is further intended to gain a better assessment of the prevalence of  
179.19 drug-impaired drivers on Minnesota roads and to evaluate and validate the appropriate  
179.20 device that could be authorized for use.

179.21 (b) The results of this preliminary oral fluid test must not be used in any court action.

179.22 (c) Following the screening test, additional tests may be required of the driver pursuant  
179.23 to Minnesota Statutes, section 169A.51 (chemical tests for intoxication).

179.25 2025.

179.26 **ARTICLE 5**  
179.27 **EXPUNGEMENT**

179.28 Section 1. Minnesota Statutes 2022, section 609A.01, is amended to read:

179.29 **609A.01 EXPUNGEMENT OF CRIMINAL RECORDS.**

179.30 This chapter provides the grounds and procedures for expungement of criminal records  
179.31 under section 13.82; 152.18, subdivision 1; 299C.11, where a petition is authorized under

180.1 section 609A.02, subdivision 3; expungement is automatic under section 609A.05;  
180.2 expungement is considered by a panel under section 609A.06; or other applicable law. The  
180.3 remedy available is limited to a court order sealing the records and prohibiting the disclosure  
180.4 of their existence or their opening except under court order or statutory authority. Nothing  
180.5 in this chapter authorizes the destruction of records or their return to the subject of the  
180.6 records.

180.7 **EFFECTIVE DATE.** This section is effective August 1, 2023.

180.8 Sec. 2. Minnesota Statutes 2022, section 609A.03, subdivision 5, is amended to read:

180.9 Subd. 5. **Nature of remedy; standard.** (a) Except as otherwise provided by paragraph  
180.10 (b), expungement of a criminal record under this section is an extraordinary remedy to be  
180.11 granted only upon clear and convincing evidence that it would yield a benefit to the petitioner  
180.12 commensurate with the disadvantages to the public and public safety of:

180.13 (1) sealing the record; and

180.14 (2) burdening the court and public authorities to issue, enforce, and monitor an  
180.15 expungement order.

180.16 (b) Except as otherwise provided by this paragraph, if the petitioner is petitioning for  
180.17 the sealing of a criminal record under section 609A.02, subdivision 3, paragraph (a), clause  
180.18 (1) or (2), the court shall grant the petition to seal the record unless the agency or jurisdiction  
180.19 whose records would be affected establishes by clear and convincing evidence that the  
180.20 interests of the public and public safety outweigh the disadvantages to the petitioner of not  
180.21 sealing the record.

180.22 (c) In making a determination under this subdivision, the court shall consider:

180.23 (1) the nature and severity of the underlying crime, the record of which would be sealed;

180.24 (2) the risk, if any, the petitioner poses to individuals or society;

180.25 (3) the length of time since the crime occurred;

180.26 (4) the steps taken by the petitioner toward rehabilitation following the crime;

180.27 (5) aggravating or mitigating factors relating to the underlying crime, including the  
180.28 petitioner's level of participation and context and circumstances of the underlying crime;

180.29 (6) the reasons for the expungement, including the petitioner's attempts to obtain  
180.30 employment, housing, or other necessities;

180.31 (7) the petitioner's criminal record;

- 181.1 (8) the petitioner's record of employment and community involvement;
- 181.2 (9) the recommendations of interested law enforcement, prosecutorial, and corrections  
181.3 officials;
- 181.4 (10) the recommendations of victims or whether victims of the underlying crime were  
181.5 minors;
- 181.6 (11) the amount, if any, of restitution outstanding, past efforts made by the petitioner  
181.7 toward payment, and the measures in place to help ensure completion of restitution payment  
181.8 after expungement of the record if granted; and
- 181.9 (12) other factors deemed relevant by the court.
- 181.10 (d) Notwithstanding section 13.82, 13.87, or any other law to the contrary, if the court  
181.11 issues an expungement order it may require that the criminal record be sealed, the existence  
181.12 of the record not be revealed, and the record not be opened except as required under  
181.13 subdivision 7. Records must not be destroyed or returned to the subject of the record.
- 181.14 (e) Information relating to a criminal history record of an employee, former employee,  
181.15 or tenant that has been expunged before the occurrence of the act giving rise to the civil  
181.16 action may not be introduced as evidence in a civil action against a private employer or  
181.17 landlord or its employees or agents that is based on the conduct of the employee, former  
181.18 employee, or tenant.
- 181.19 **EFFECTIVE DATE.** This section is effective August 1, 2023, and applies to crimes  
181.20 committed on or after that date.
- 181.21 Sec. 3. Minnesota Statutes 2022, section 609A.03, subdivision 9, is amended to read:
- 181.22 Subd. 9. **Stay of order; appeal.** An expungement order issued under this section shall  
181.23 be stayed automatically for 60 days after the order is filed and, if the order is appealed,  
181.24 during the appeal period. A person or an agency or jurisdiction whose records would be  
181.25 affected by the order may appeal the order within 60 days of service of notice of filing of  
181.26 the order. An agency or jurisdiction or its officials or employees need not file a cost bond  
181.27 or supersedeas bond in order to further stay the proceedings or file an appeal.
- 181.28 **EFFECTIVE DATE.** This section is effective August 1, 2023.

182.1 Sec. 4. **[609A.05] AUTOMATIC EXPUNGEMENT OF CERTAIN CANNABIS**

182.13 **tetrahydrocannabinols were resolved in favor of the person.**

182.14 **(b) For purposes of this section:**

182.15 **(1) a verdict of not guilty by reason of mental illness is not a resolution in favor of the**  
182.16 **person; and**

182.20 **Subd. 2. Bureau of Criminal Apprehension to identify eligible individuals. (a) The**  
182.21 **Bureau of Criminal Apprehension shall identify records that qualify for an order of**  
182.22 **expungement pursuant to subdivision 1.**

182.26 **(2) the case number of the eligible record.**

182.27 **(c) The Bureau of Criminal Apprehension shall grant an expungement to each qualifying**  
182.28 **person whose records the bureau possesses and shall seal the bureau's records without**  
182.29 **requiring an application, petition, or motion. The bureau shall seal records related to an**  
182.30 **expungement within 60 days after the bureau sent notice of the expungement to the judicial**  
182.31 **branch pursuant to paragraph (b) unless an order of the judicial branch prohibits sealing the**  
182.32 **records or additional information establishes that the records are not eligible for expungement.**

183.1 (d) Nonpublic criminal records maintained by the bureau and subject to a grant of  
183.2 expungement relief must display a notation stating "expungement relief granted pursuant  
183.3 to section 609A.05."

183.4 (e) The bureau shall inform each arresting or citing law enforcement agency with records  
183.5 affected by the grant of expungement relief issued pursuant to paragraph (c) that expungement  
183.6 has been granted. The bureau shall notify each arresting or citing law enforcement agency  
183.7 of an expungement within 60 days after the bureau sent notice of the expungement to the  
183.8 judicial branch. The bureau may notify each law enforcement agency using electronic means.  
183.9 Upon receiving notification of an expungement, a law enforcement agency shall seal all

183.12 (f) The Bureau of Criminal Apprehension shall make a reasonable and good faith effort  
183.13 to notify any person whose record qualifies for an order of expungement or a grant of  
183.14 expungement that the offense qualifies and notice is being sent to the judicial branch. Notice  
183.15 sent pursuant to this paragraph shall inform the person that, following the order of  
183.16 expungement, any records of an arrest, conviction, or incarceration should not appear on  
183.17 any background check or study performed in Minnesota. Notice must also clearly state that  
183.18 an order of expungement or a grant of expungement may not change a person's immigration  
183.19 status and any person with questions about the effect on the person's immigration status  
183.20 should consult with an immigration attorney.

183.21 (g) On a schedule and in a manner established by the commissioner of human services,  
183.22 the bureau shall send the commissioner of human services a list identifying the name and  
183.23 case number or, if no case number is available, the citation number of each person who  
183.24 received a grant of expungement.

183.25 (h) Data on a person whose offense has been expunged under this subdivision, including  
183.26 any notice sent pursuant to paragraph (e), (f), or (g), are private data on individuals as defined  
183.27 in section 13.02, subdivision 12.

183.28 **Subd. 3. Order of expungement.** (a) Upon receiving notice that an offense qualifies  
183.29 for expungement, or upon entering an order dismissing charges prior to a determination of  
183.30 probable cause, the court shall issue an order vacating the conviction, if any, discharging  
183.31 the person from any form of supervision, dismissing the proceedings against that person,  
183.32 and sealing all records relating to an arrest, indictment or information, trial, verdict, or  
183.33 dismissal and discharge for an offense described in subdivision 1.

184.1 (b) Section 609A.03, subdivision 6, applies to an order issued under this section sealing  
184.2 the record of proceedings under section 152.18.

184.3 (c) The limitations under section 609A.03, subdivision 7a, paragraph (b), do not apply  
184.4 to an order issued under this section.

184.5 (d) The court administrator shall send a copy of an expungement order issued under this  
184.6 section to each agency and jurisdiction whose records are affected by the terms of the order  
184.7 and send a letter to the last known address of the person whose offense has been expunged  
184.8 identifying each agency to which the order was sent.

184.9 (e) In consultation with the commissioner of human services, the court shall establish a

184.18 legislative committees and divisions with jurisdiction over public safety policy and finance  
184.19 upon completion of the work required under subdivision 2. The report shall contain summary  
184.20 data and must include the total number of expungements granted by the Bureau of Criminal  
184.21 Apprehension.

184.22 **EFFECTIVE DATE.** This section is effective August 1, 2023.

184.23 Sec. 5. **[609A.06] EXPUNGEMENT AND RESENTENCING OF FELONY**  
184.24 **CANNABIS OFFENSES.**

184.25 Subdivision 1. **Cannabis Expungement Board.** (a) The Cannabis Expungement Board  
184.26 is created with the powers and duties established by law.

184.27 (b) The Cannabis Expungement Board is composed of the following members:

184.28 (1) the chief justice of the supreme court or a designee;

184.29 (2) the attorney general or a designee;

184.30 (3) one public defender, appointed by the governor upon recommendation of the state  
184.31 public defender;

185.7 documents, and papers incident to the arrest, indictment, information, trial, appeal, or  
185.8 dismissal and discharge, which relate to a charge for possession of a controlled substance;

185.9 (2) to determine whether a person committed an act involving the possession of cannabis  
185.10 flower or cannabinoid products that would either be a lesser offense or no longer be a crime  
185.11 after August 1, 2023;

185.12 (3) to determine whether a person's conviction should be vacated, charges should be  
185.13 dismissed, and records should be expunged, or whether the person should be resentenced  
185.14 to a lesser offense; and

185.15 (4) to notify the judicial branch of individuals eligible for an expungement or resentencing  
185.16 to a lesser offense.

185.17 (d) The Cannabis Expungement Board shall complete the board's work by June 30, 2028.

185.18 Subd. 2. **Eligibility; possession of cannabis.** (a) A person is eligible for an expungement  
185.19 or resentencing to a lesser offense if:

185.20 (1) the person was convicted of, or adjudication was stayed for, a violation of any of the  
185.21 following involving the possession of marijuana or tetrahydrocannabinols:

185.22 (i) section 152.021, subdivision 2, clause (6);

185.23 (ii) section 152.022, subdivision 2, clause (6);

185.24 (iii) section 152.023, subdivision 2, clause (5); or

185.25 (iv) section 152.025, subdivision 2, clause (1).

185.26 (2) the offense did not involve a dangerous weapon, the intentional infliction of bodily  
185.27 harm on another, an attempt to inflict bodily harm on another, or an act committed with the  
185.28 intent to cause fear in another of immediate bodily harm or death;

185.29 (3) the act on which the charge was based would either be a lesser offense or no longer  
185.30 be a crime after August 1, 2023; and

186.1 (4) the person did not appeal the sentence, any appeal was denied, or the deadline to file  
186.2 an appeal has expired.

186.3 (b) For purposes of this subdivision, a "lesser offense" means a nonfelony offense if the  
186.4 person was charged with a felony.

186.5 Subd. 3. **Bureau of Criminal Apprehension to identify eligible records.** (a) The  
186.6 Bureau of Criminal Apprehension shall identify convictions and sentences where adjudication  
186.7 was stayed that qualify for review under subdivision 2, paragraph (a), clause (1).

186.8 (b) The Bureau of Criminal Apprehension shall notify the Cannabis Expungement Board  
186.9 of:

186.10 (1) the name and date of birth of a person whose record is eligible for review; and

186.11 (2) the case number of the eligible conviction or stay of adjudication.

186.12 Subd. 4. **Access to records.** The Cannabis Expungement Board shall have free access  
186.13 to records, including but not limited to all matters, files, documents, and papers incident to  
186.14 the arrest, indictment, information, trial, appeal, or dismissal and discharge that relate to a  
186.15 charge and conviction or stay of adjudication for possession of a controlled substance held  
186.16 by law enforcement agencies, prosecuting authorities, and court administrators. The Cannabis  
186.17 Expungement Board may issue subpoenas for and compel the production of books, records,  
186.18 accounts, documents, and papers. If any person fails or refuses to produce any books, records,  
186.19 accounts, documents, or papers material in the matter under consideration after having been  
186.20 lawfully required by order or subpoena, any judge of the district court in any county of the  
186.21 state where the order or subpoena was made returnable, on application of the commissioner  
186.22 of management and budget or commissioner of administration, as the case may be, shall  
186.23 compel obedience or punish disobedience as for contempt, as in the case of disobedience  
186.24 of a similar order or subpoena issued by such court.

186.25 Subd. 5. **Meetings; anonymous identifier.** (a) The Cannabis Expungement Board shall  
186.26 hold meetings at least monthly and shall hold a meeting whenever the board takes formal  
186.27 action on a review of a conviction or stay of adjudication for an offense involving the  
186.28 possession of marijuana or tetrahydrocannabinols. All board meetings shall be open to the  
186.29 public and subject to chapter 13D.

186.30 (b) Any victim of a crime being reviewed and any law enforcement agency may submit  
186.31 an oral or written statement at the meeting, giving a recommendation on whether a person's  
186.32 record should be expunged or the person should be resentenced to a lesser offense. The

187.1 board must consider the victim's and the law enforcement agency's statement when making  
187.2 the board's decision.

187.3 (c) Section 13D.05 governs the board's treatment of not public data, as defined by section  
187.4 13.02, subdivision 8a, discussed at open meetings of the board. Notwithstanding section  
187.5 13.03, subdivision 11, the board shall assign an anonymous, unique identifier to each victim  
187.6 of a crime and person whose conviction or stay of adjudication the board reviews. The  
187.7 identifier shall be used in any discussion in a meeting open to the public and on any records  
187.8 available to the public to protect the identity of the person whose records are being  
187.9 considered.

187.10 Subd. 6. **Review and determination.** (a) The Cannabis Expungement Board shall review  
187.11 all available records to determine whether the conviction or stay of adjudication is eligible  
187.12 for an expungement or resentencing to a lesser offense. An expungement under this section  
187.13 is presumed to be in the public interest unless there is clear and convincing evidence that  
187.14 an expungement or resentencing to a lesser offense would create a risk to public safety.

187.15 (b) If the Cannabis Expungement Board determines that an expungement is in the public  
187.16 interest, the board shall determine whether a person's conviction should be vacated and  
187.17 charges should be dismissed.

187.18 (c) If the Cannabis Expungement Board determines that an expungement is in the public  
187.19 interest, the board shall determine whether the limitations under section 609A.03, subdivision  
187.20 5a, apply.

187.21 (d) If the Cannabis Expungement Board determines that an expungement is in the public  
187.22 interest, the board shall determine whether the limitations under section 609A.03, subdivision  
187.23 7a, paragraph (b), clause (4) or (5), apply.

187.24 (e) If the Cannabis Expungement Board determines that an expungement is not in the  
187.25 public interest, the board shall determine whether the person is eligible for resentencing to  
187.26 a lesser offense.

187.27 (f) In making a determination under this subdivision, the Cannabis Expungement Board  
187.28 shall consider:

187.29 (1) the nature and severity of the underlying crime, including but not limited to the total  
187.30 amount of marijuana or tetrahydrocannabinols possessed by the person and whether the  
187.31 offense involved a dangerous weapon, the intentional infliction of bodily harm on another,  
187.32 an attempt to inflict bodily harm on another, or an act committed with the intent to cause  
187.33 fear in another of immediate bodily harm or death;

188.1 (2) whether an expungement or resentencing the person a lesser offense would increase  
188.2 the risk, if any, the person poses to other individuals or society;

188.3 (3) if the person is under sentence, whether an expungement or resentencing to a lesser  
188.4 offense would result in the release of the person and whether release earlier than the date  
188.5 that the person would be released under the sentence currently being served would present  
188.6 a danger to the public or would be compatible with the welfare of society;

188.7 (4) aggravating or mitigating factors relating to the underlying crime, including the  
188.8 person's level of participation and the context and circumstances of the underlying crime;

188.9 (5) statements from victims and law enforcement, if any;

188.10 (6) if an expungement or resentencing the person to a lesser offense is considered,  
188.11 whether there is good cause to restore the person's right to possess firearms and ammunition;

188.12 (7) if an expungement is considered, whether an expunged record of a conviction or stay  
188.13 of adjudication may be opened for purposes of a background study under section 245C.08;

188.14 (8) if an expungement is considered, whether an expunged record of a conviction or stay  
188.15 of adjudication may be opened for purposes of a background check required under section  
188.16 122A.18, subdivision 8; and

188.17 (9) other factors deemed relevant by the Cannabis Expungement Board.

188.18 (g) The affirmative vote of three members is required for action taken at any meeting.

188.19 Subd. 7. **Annual report.** Until the board completes its work, the board shall issue a  
188.20 report by January 15 of each year to the legislative committees and divisions with jurisdiction  
188.21 over public safety policy and finance upon completion of the work required under subdivision  
188.22 2. The report shall contain summary data and must include:

188.23 (1) the total number of cases reviewed in the previous year;

188.24 (2) the total number of cases in which the board determined that an expungement is in  
188.25 the public interest;

188.26 (3) the total number of cases in which the board determined that resentencing to a lesser  
188.27 offense is appropriate, the original sentence in those cases, and the lesser offense  
188.28 recommended by the board;

203.7 (1) is certified by the National Institute on Drug Abuse as meeting the mandatory  
203.8 guidelines published at 53 Federal Register 11970 to 11989, April 11, 1988;

203.24 employer a written test result report for each sample tested within three working days after  
203.25 a negative test result on an initial screening test or, when the initial screening test produced  
203.26 a positive test result, within three working days after a confirmatory test. A test report must  
203.27 indicate the drugs, alcohol, ~~or~~ drug or alcohol metabolites, or cannabis or cannabis  
203.28 metabolites tested for and whether the test produced negative or positive test results. A  
203.29 laboratory shall retain and properly store for at least six months all samples that produced  
203.30 a positive test result.

203.31 Subd. 4. **Prohibitions on employers.** An employer may not conduct drug or alcohol  
203.32 testing or cannabis testing of its own employees and job applicants using a testing laboratory  
203.33 owned and operated by the employer; except that, one agency of the state may test the

204.1 employees of another agency of the state. Except as provided in subdivision 9, an employer  
204.2 may not request or require an employee or job applicant to contribute to, or pay the cost of,  
204.3 drug or alcohol testing or cannabis testing under sections 181.950 to 181.954.

204.4 **Subd. 5. Employer chain-of-custody procedures.** An employer shall establish its own

204.8 collected, from the time the sample is collected through the time the sample is delivered to  
204.9 the laboratory;

204.10 (2) the sample must always be in the possession of, must always be in view of, or must  
204.11 be placed in a secured area by a person authorized to handle the sample;

204.12 (3) a sample must be accompanied by a written chain-of-custody record; and

204.13 (4) individuals relinquishing or accepting possession of the sample must record the time  
204.14 the possession of the sample was transferred and must sign and date the chain-of-custody  
204.15 record at the time of transfer.

204.16 **Subd. 6. Rights of employees and job applicants.** (a) Before requesting an employee  
204.17 or job applicant to undergo drug or alcohol testing or requesting cannabis testing, an employer  
204.18 shall provide the employee or job applicant with a form, developed by the employer, on  
204.19 which to acknowledge that the employee or job applicant has seen the employer's drug and  
204.20 alcohol testing or cannabis testing policy.

204.21 (b) If an employee or job applicant tests positive for drug use, the employee must be  
204.22 given written notice of the right to explain the positive test and the employer may request  
204.23 that the employee or job applicant indicate any over-the-counter or prescription medication  
204.24 that the individual is currently taking or has recently taken and any other information relevant  
204.25 to the reliability of, or explanation for, a positive test result.

204.26 (c) Within three working days after notice of a positive test result on a confirmatory test,  
204.27 the employee or job applicant may submit information to the employer, in addition to any  
204.28 information already submitted under paragraph (b), to explain that result, or may request a  
204.29 confirmatory retest of the original sample at the employee's or job applicant's own expense  
204.30 as provided under subdivision 9.

204.31 **Subd. 7. Notice of test results.** Within three working days after receipt of a test result  
204.32 report from the testing laboratory, an employer shall inform in writing an employee or job  
204.33 applicant who has undergone drug or alcohol testing or cannabis testing of (1) a negative

205.1 test result on an initial screening test or of a negative or positive test result on a confirmatory  
205.2 test and (2) the right provided in subdivision 8. In the case of a positive test result on a  
205.3 confirmatory test, the employer shall also, at the time of this notice, inform the employee  
205.4 or job applicant in writing of the rights provided in subdivisions 6, paragraph (b), 9, and  
205.5 either subdivision 10 or 11, whichever applies.

205.6 Subd. 8. **Right to test result report.** An employee or job applicant has the right to  
205.7 request and receive from the employer a copy of the test result report on any drug or alcohol  
205.8 test or cannabis test.

205.9 Subd. 9. **Confirmatory retests.** An employee or job applicant may request a confirmatory  
205.10 retest of the original sample at the employee's or job applicant's own expense after notice  
205.11 of a positive test result on a confirmatory test. Within five working days after notice of the  
205.12 confirmatory test result, the employee or job applicant shall notify the employer in writing  
205.13 of the employee's or job applicant's intention to obtain a confirmatory retest. Within three  
205.14 working days after receipt of the notice, the employer shall notify the original testing  
205.15 laboratory that the employee or job applicant has requested the laboratory to conduct the  
205.16 confirmatory retest or transfer the sample to another laboratory licensed under subdivision  
205.17 1 to conduct the confirmatory retest. The original testing laboratory shall ensure that the  
205.18 chain-of-custody procedures in subdivision 3 are followed during transfer of the sample to  
205.19 the other laboratory. The confirmatory retest must use the same drug ~~or~~, alcohol, or cannabis  
205.20 threshold detection levels as used in the original confirmatory test. If the confirmatory retest  
205.21 does not confirm the original positive test result, no adverse personnel action based on the  
205.22 original confirmatory test may be taken against the employee or job applicant.

205.23 Subd. 10. **Limitations on employee discharge, discipline, or discrimination.** (a) An  
205.24 employer may not discharge, discipline, discriminate against, or request or require  
205.25 rehabilitation of an employee on the basis of a positive test result from an initial screening  
205.26 test that has not been verified by a confirmatory test.

205.27 (b) In addition to the limitation under paragraph (a), an employer may not discharge an  
205.28 employee for whom a positive test result on a confirmatory test was the first such result for  
205.29 the employee on a drug or alcohol test or cannabis test requested by the employer unless  
205.30 the following conditions have been met:

205.31 (1) the employer has first given the employee an opportunity to participate in, at the  
205.32 employee's own expense or pursuant to coverage under an employee benefit plan, either a  
205.33 drug ~~or~~, alcohol, or cannabis counseling or rehabilitation program, whichever is more  
205.34 appropriate, as determined by the employer after consultation with a certified chemical use

206.1 counselor or a physician trained in the diagnosis and treatment of substance use disorder;  
206.2 and

206.3 (2) the employee has either refused to participate in the counseling or rehabilitation  
206.4 program or has failed to successfully complete the program, as evidenced by withdrawal  
206.5 from the program before its completion or by a positive test result on a confirmatory test  
206.6 after completion of the program.

206.7 (c) Notwithstanding paragraph (a), an employer may temporarily suspend the tested  
206.8 employee or transfer that employee to another position at the same rate of pay pending the  
206.9 outcome of the confirmatory test and, if requested, the confirmatory retest, provided the  
206.10 employer believes that it is reasonably necessary to protect the health or safety of the  
206.11 employee, coemployees, or the public. An employee who has been suspended without pay  
206.12 must be reinstated with back pay if the outcome of the confirmatory test or requested  
206.13 confirmatory retest is negative.

206.14 (d) An employer may not discharge, discipline, discriminate against, or request or require  
206.15 rehabilitation of an employee on the basis of medical history information revealed to the  
206.16 employer pursuant to subdivision 6 unless the employee was under an affirmative duty to  
206.17 provide the information before, upon, or after hire.

206.18 (e) An employee must be given access to information in the employee's personnel file  
206.19 relating to positive test result reports and other information acquired in the drug and alcohol  
206.20 testing process or cannabis testing process and conclusions drawn from and actions taken  
206.21 based on the reports or other acquired information.

206.22 Subd. 10a. **Additional limitations for cannabis.** An employer may discipline, discharge,  
206.23 or take other adverse personnel action against an employee for cannabis flower or  
206.24 cannabinoid product use, possession, impairment, sale, or transfer while an employee is  
206.25 working, on the employer's premises, or operating the employer's vehicle, machinery, or  
206.26 equipment as follows:

206.27 (1) if, as the result of consuming cannabis flower or a cannabinoid product, the employee  
206.28 does not possess that clearness of intellect and control of self that the employee otherwise  
206.29 would have;

206.30 (2) if cannabis testing that the employer requested or required pursuant to section 181.951,  
206.31 subdivision 8, paragraphs (d) and (e), verifies the presence of cannabis following a  
206.32 confirmatory test;

207.1 (3) as provided in the employer's written work rules for cannabis and cannabis testing,  
207.2 provided that the rules are in writing and in a written policy that contains the minimum  
207.3 information required by section 181.952; or

207.4 (4) as otherwise authorized under state or federal law.

207.5 Subd. 11. **Limitation on withdrawal of job offer.** If a job applicant has received a job  
207.6 offer made contingent on the applicant passing drug and alcohol testing, the employer may  
207.7 not withdraw the offer based on a positive test result from an initial screening test that has  
207.8 not been verified by a confirmatory test.

207.9 Sec. 23. Minnesota Statutes 2022, section 181.954, is amended to read:

207.12 result data regarding the presence or absence of drugs, alcohol, or their metabolites in a  
207.13 sample tested.

207.14 Subd. 2. **Confidentiality limitations.** Test result reports and other information acquired  
207.15 in the drug or alcohol testing or cannabis testing process are, with respect to private sector  
207.16 employees and job applicants, private and confidential information, and, with respect to  
207.17 public sector employees and job applicants, private data on individuals as that phrase is  
207.18 defined in chapter 13, and may not be disclosed by an employer or laboratory to another  
207.19 employer or to a third-party individual, governmental agency, or private organization without  
207.20 the written consent of the employee or job applicant tested.

207.21 Subd. 3. **Exceptions to privacy and confidentiality disclosure**  
207.22 **limitations.** Notwithstanding subdivisions 1 and 2, evidence of a positive test result on a  
207.23 confirmatory test may be: (1) used in an arbitration proceeding pursuant to a collective  
207.24 bargaining agreement, an administrative hearing under chapter 43A or other applicable state  
207.25 or local law, or a judicial proceeding, provided that information is relevant to the hearing

210.22 the court order for expungement is directed specifically to the commissioner. The  
210.23 commissioner may not consider information obtained under paragraph (a), clauses (3) and

213.7 offense also means a conviction in another jurisdiction of the possession, use, or distribution  
213.8 of a controlled substance, or conspiracy to commit any of these offenses, if the offense  
213.9 occurred after July 1, 1997, and the conviction is ~~a felony offense in that jurisdiction, or in~~  
213.10 ~~the case of New Jersey, a high misdemeanor~~ for a crime that would be a felony if committed  
213.11 in Minnesota.

213.24 (2) The convicted applicant or participant shall be subject to random drug testing as a  
213.25 condition of continued eligibility and following any positive test for an illegal controlled  
213.26 substance under chapter 152 is subject to the following sanctions:

213.27 (i) for failing a drug test the first time, the residual amount of the participant's grant after  
213.28 making vendor payments for shelter and utility costs, if any, must be reduced by an amount  
213.29 equal to 30 percent of the MFIP standard of need for an assistance unit of the same size.  
213.30 When a sanction under this subdivision is in effect, the job counselor must attempt to meet  
213.31 with the person face-to-face. During the face-to-face meeting, the job counselor must explain  
213.32 the consequences of a subsequent drug test failure and inform the participant of the right to

214.11 with the participant face-to-face. During the face-to-face meeting, the job counselor must  
214.12 identify other resources that may be available to the participant to meet the needs of the

214.15 a notice of adverse action as provided in section 256J.31, subdivisions 4 and 5, and must  
214.16 include the information required in the face-to-face meeting.

214.17 (3) A participant who fails a drug test the first time and is under a sanction due to other  
214.18 MFIP program requirements is considered to have more than one occurrence of  
214.19 noncompliance and is subject to the applicable level of sanction as specified under section  
214.20 256J.46, subdivision 1, paragraph (d).

214.24 eligible, receive SNAP benefits if the convicted applicant or participant is subject to random  
214.25 drug testing as a condition of continued eligibility. Following a positive test for an illegal  
214.26 controlled substance under chapter 152, the applicant is subject to the following sanctions:

214.27 (1) for failing a drug test the first time, SNAP benefits shall be reduced by an amount  
214.28 equal to 30 percent of the applicable SNAP benefit allotment. When a sanction under this  
214.29 clause is in effect, a job counselor must attempt to meet with the person face-to-face. During  
214.30 the face-to-face meeting, a job counselor must explain the consequences of a subsequent  
214.31 drug test failure and inform the participant of the right to appeal the sanction under section  
214.32 256J.40. If a face-to-face meeting is not possible, a county agency must send the participant  
214.33 a notice of adverse action as provided in section 256J.31, subdivisions 4 and 5, and must  
214.34 include the information required in the face-to-face meeting; and

215.1 (2) for failing a drug test two times, the participant is permanently disqualified from  
215.2 receiving SNAP benefits. Before a disqualification under this provision is imposed, a job  
215.3 counselor must attempt to meet with the participant face-to-face. During the face-to-face  
215.4 meeting, the job counselor must identify other resources that may be available to the  
215.5 participant to meet the needs of the family and inform the participant of the right to appeal  
215.6 the disqualification under section 256J.40. If a face-to-face meeting is not possible, a county  
215.7 agency must send the participant a notice of adverse action as provided in section 256J.31,  
215.8 subdivisions 4 and 5, and must include the information required in the face-to-face meeting.

224.25 revoked, the sheriff must submit information to the commissioner regarding the suspension  
224.26 or revocation for inclusion solely in the databases required or permitted under subdivision  
224.27 15.

224.28 (e) Notwithstanding paragraphs (a) and (b), the sheriff may suspend the application  
224.29 process if a charge is pending against the applicant that, if resulting in conviction, will  
224.30 prohibit the applicant from possessing a firearm.

228.4 intended to meet specifications for identity, strength, purity, and composition, and that is  
228.5 manufactured, packaged, and labeled according to a single batch production record executed

229.15 edible cannabinoid product, may be sold for human or animal consumption only if all of  
229.16 the requirements of this section are met, provided that a product sold for human or animal  
229.17 consumption does not contain more than 0.3 percent of any tetrahydrocannabinol and an  
229.18 edible cannabinoid product does not contain an amount of any tetrahydrocannabinol that  
229.19 exceeds the limits established in subdivision 5a, paragraph (f).

229.20 (b) No other substance extracted or otherwise derived from hemp may be sold for human

229.32 by the board on or before July 1, 2023, or the standards adopted by the commissioner.

230.1 Testing must be consistent with generally accepted industry standards for herbal and botanical  
230.2 substances, and, at a minimum, the testing must confirm that the product:

230.3 (1) contains the amount or percentage of cannabinoids that is stated on the label of the  
230.4 product;

230.5 (2) does not contain more than trace amounts of any mold, residual solvents or other  
230.6 catalysts, pesticides, fertilizers, or heavy metals; and

230.7 (3) does not contain more than 0.3 percent of any tetrahydrocannabinol.

230.8 (b) A manufacturer of a product regulated under this section must disclose all known  
230.9 information regarding pesticides, fertilizers, solvents, or other foreign materials applied to  
230.10 industrial hemp or added to industrial hemp during any production or processing stages of  
230.11 any batch from which a representative sample has been sent for testing, including any  
230.12 catalysts used to create artificially derived cannabinoids. Disclosure must be made to the  
230.13 laboratory performing testing or sampling and, upon request, to the commissioner. Disclosure  
230.14 must include all information known to the licensee regardless of whether the application or  
230.15 addition was made intentionally or accidentally, or by the manufacturer or any other person.

230.16 ~~(b)~~ (c) Upon the request of the ~~board~~ commissioner, the manufacturer of the product  
230.17 must provide the ~~board~~ commissioner with the results of the testing required in this section.

230.18 (d) The commissioner may determine that any testing laboratory that does not operate  
230.19 formal management systems under the International Organization for Standardization is not  
230.20 an accredited laboratory and require that a representative sample of a batch of the product  
230.21 be retested by a testing laboratory that meets this requirement.

230.22 ~~(e)~~ (e) Testing of the hemp from which the nonintoxicating cannabinoid was derived,  
230.23 or possession of a certificate of analysis for such hemp, does not meet the testing requirements  
230.24 of this section.

230.25 Subd. 5. **Labeling requirements.** (a) A product regulated under this section must bear  
230.26 a label that contains, at a minimum:

231.2 unit of the product meant to be consumed.

231.3 (b) The information in paragraph (a) may be provided on an outer package if the  
231.4 immediate container that holds the product is too small to contain all of the information.

231.5 (c) The information required in paragraph (a) may be provided through the use of a  
231.6 scannable barcode or matrix barcode that links to a page on the manufacturer's website if  
231.7 that page contains all of the information required by this subdivision.

231.8 (d) The label must also include a statement stating that the product does not claim to  
231.9 diagnose, treat, cure, or prevent any disease and has not been evaluated or approved by the  
231.10 United States Food and Drug Administration (FDA) unless the product has been so approved.

231.11 (e) The information required by this subdivision must be prominently and conspicuously  
231.12 placed on the label or displayed on the website in terms that can be easily read and understood  
231.13 by the consumer.

231.14 (f) The labeling must not contain any claim that the product may be used or is effective  
231.15 for the prevention, treatment, or cure of a disease or that it may be used to alter the structure  
231.16 or function of human or animal bodies, unless the claim has been approved by the FDA.

231.17 Subd. 5a. **Additional requirements for edible cannabinoid products.** (a) In addition

231.27 by the United States Food and Drug Administration for use in food;

231.28 (5) be packaged in a way that resembles the trademarked, characteristic, or  
231.29 product-specialized packaging of any commercially available food product; or

231.30 (6) be packaged in a container that includes a statement, artwork, or design that could  
231.31 reasonably mislead any person to believe that the package contains anything other than an  
231.32 edible cannabinoid product.

232.1 (c) An edible cannabinoid product must be prepackaged in packaging or a container that  
232.2 is child-resistant, tamper-evident, and opaque or placed in packaging or a container that is  
232.3 child-resistant, tamper-evident, and opaque at the final point of sale to a customer. The  
232.4 requirement that packaging be child-resistant does not apply to an edible cannabinoid product

232.17 (f) An edible cannabinoid product must not contain more than five milligrams of any  
232.18 tetrahydrocannabinol in a single serving, or more than a total of 50 milligrams of any  
232.19 tetrahydrocannabinol per package.

232.21 tetrahydrocannabinol that is extracted from hemp plants or hemp plant parts or is an  
232.22 artificially derived cannabinoid. Edible cannabinoid products are prohibited from containing  
232.23 any other artificially derived cannabinoid, including but not limited to THC-P, THC-O, and  
232.24 HHC, unless the commissioner authorizes use of the artificially derived cannabinoid in  
232.25 edible cannabinoid products. Edible cannabinoid products are prohibited from containing  
232.26 synthetic cannabinoids.

1 every two years, using the factors described in this subdivision. The commissioner shall accept applications after December 1, 2014, if one of the manufacturers registered before December 1, 2014, ceases to be registered as a manufacturer. The commissioner's determination that no manufacturer exists to fulfill the duties under sections 152.22 to 152.37 is subject to judicial review in Ramsey County District Court. Data submitted during the application process are private data on individuals or nonpublic data as defined in section 13.02 until the manufacturer is registered under this section. Data on a manufacturer that is registered are public data, unless the data are trade secret or security information under section 13.37.

(e) The commissioner shall require each medical cannabis manufacturer to contract with an independent laboratory to test medical cannabis produced by the manufacturer. The commissioner shall approve the laboratory chosen by each manufacturer and require that the laboratory report testing results to the manufacturer in a manner determined by the commissioner.

**Subd. 1a. Revocation or nonrenewal of a medical cannabis manufacturer registration.** If the commissioner intends to revoke or not renew a registration issued under this section, the commissioner must first notify in writing the manufacturer against whom the action is to be taken and provide the manufacturer with an opportunity to request a hearing under the contested case provisions of chapter 14. clinical outcomes, and quality-of-life outcomes for the purpose of reporting on the benefits, risks, and outcomes regarding patients with a qualifying medical condition engaged in the therapeutic use of medical cannabis.

(b) The establishment of the registry program shall not be construed or interpreted to condone or promote the illicit recreational use of marijuana.

Subd. 2. **Commissioner duties.** (a) The commissioner shall:

(1) give notice of the program to health care practitioners in the state who are eligible to serve as health care practitioners and explain the purposes and requirements of the program;

(2) allow each health care practitioner who meets or agrees to meet the program's requirements and who requests to participate, to be included in the registry program to collect data for the patient registry;

(3) provide explanatory information and assistance to each health care practitioner in understanding the nature of therapeutic use of medical cannabis within program requirements;

(4) create and provide a certification to be used by a health care practitioner for the practitioner to certify whether a patient has been diagnosed with a qualifying medical condition and include in the certification an option for the practitioner to certify whether the patient, in the health care practitioner's medical opinion, is developmentally or physically disabled and, as a result of that disability, the patient requires assistance in administering medical cannabis or obtaining medical cannabis from a distribution facility;

(5) supervise the participation of the health care practitioner in conducting patient treatment and health records reporting in a manner that ensures stringent security and record-keeping requirements and that prevents the unauthorized release of private data on individuals as defined by section 13.02;

The commissioner may contract with a third party to complete the requirements of this clause. Any reports submitted must comply with section 152.28, subdivision 2.

(b) The commissioner may add a delivery method under section 152.22, subdivision 6, or add, remove, or modify a qualifying medical condition under section 152.22, subdivision 14, upon a petition from a member of the public or the task force on medical cannabis therapeutic research or as directed by law. The commissioner shall evaluate all petitions to add a qualifying medical condition or to remove or modify an existing qualifying medical condition submitted by the task force on medical cannabis therapeutic research or as directed by law and may make the addition, removal, or modification if the commissioner determines the addition, removal, or modification is warranted based on the best available evidence and research. If the commissioner wishes to add a delivery method under section 152.22, subdivision 6, or add or remove a qualifying medical condition under section 152.22, subdivision 14, the commissioner must notify the chairs and ranking minority members of the legislative policy committees having jurisdiction over health and public safety of the addition or removal and the reasons for its addition or removal, including any written comments received by the commissioner from the public and any guidance received from the task force on medical cannabis research, by January 15 of the year in which the commissioner wishes to make the change. The change shall be effective on August 1 of that year, unless the legislature by law provides otherwise.

Subd. 3. **Patient application.** (a) The commissioner shall develop a patient application for enrollment into the registry program. The application shall be available to the patient and given to health care practitioners in the state who are eligible to serve as health care practitioners. The application must include:

(1) the name, mailing address, and date of birth of the patient;

(2) the name, mailing address, and telephone number of the patient's health care practitioner;

APPENDIX  
Repealed Minnesota Statutes: H0100-6

(3) the name, mailing address, and date of birth of the patient's designated caregiver, if any, or the patient's parent, legal guardian, or spouse if the parent, legal guardian, or spouse will be acting as a caregiver;

(4) a copy of the certification from the patient's health care practitioner that is dated within 90 days prior to submitting the application that certifies that the patient has been diagnosed with a qualifying medical condition; and

(5) all other signed affidavits and enrollment forms required by the commissioner under sections 152.22 to 152.37, including, but not limited to, the disclosure form required under paragraph (c).

(b) The commissioner shall require a patient to resubmit a copy of the certification from the patient's health care practitioner on a yearly basis and shall require that the recertification be dated within 90 days of submission.

(c) The commissioner shall develop a disclosure form and require, as a condition of enrollment, all patients to sign a copy of the disclosure. The disclosure must include:

(1) a statement that, notwithstanding any law to the contrary, the commissioner, or an employee of any state agency, may not be held civilly or criminally liable for any injury, loss of property, personal injury, or death caused by any act or omission while acting within the scope of office or employment under sections 152.22 to 152.37; and

(2) the patient's acknowledgment that enrollment in the patient registry program is conditional on the patient's agreement to meet all of the requirements of sections 152.22 to 152.37.

**Subd. 4. Registered designated caregiver.** (a) The commissioner shall register a designated caregiver for a patient if the patient requires assistance in administering medical cannabis or obtaining medical cannabis from a distribution facility and the caregiver has agreed, in writing, to be the patient's designated caregiver. As a condition of registration as a designated caregiver, the commissioner shall require the person to:

(1) be at least 18 years of age;

(2) agree to only possess the patient's medical cannabis for purposes of assisting the patient; and

(3) agree that if the application is approved, the person will not be a registered designated caregiver for more than six registered patients at one time. Patients who reside in the same residence shall count as one patient.

(b) The commissioner shall conduct a criminal background check on the designated caregiver prior to registration to ensure that the person does not have a conviction for a disqualifying felony offense. Any cost of the background check shall be paid by the person seeking registration as a designated caregiver. A designated caregiver must have the criminal background check renewed every two years.

(c) Nothing in sections 152.22 to 152.37 shall be construed to prevent a person registered as a designated caregiver from also being enrolled in the registry program as a patient and possessing and using medical cannabis as a patient.

**Subd. 5. Parents, legal guardians, and spouses.** A parent, legal guardian, or spouse of a patient may act as the caregiver to the patient without having to register as a designated caregiver. The parent, legal guardian, or spouse shall follow all of the requirements of parents, legal guardians, and spouses listed in sections 152.22 to 152.37. Nothing in sections 152.22 to 152.37 limits any legal authority a parent, legal guardian, or spouse may have for the patient under any other law.

**Subd. 6. Patient enrollment.** (a) After receipt of a patient's application, application fees, and signed disclosure, the commissioner shall enroll the patient in the registry program and issue the patient and patient's registered designated caregiver or parent, legal guardian, or spouse, if applicable, a registry verification. The commissioner shall approve or deny a patient's application for participation in the registry program within 30 days after the commissioner receives the patient's application and application fee. The commissioner may approve applications up to 60 days after the receipt of a patient's application and application fees until January 1, 2016. A patient's enrollment in the registry program shall only be denied if the patient:

(1) does not have certification from a health care practitioner that the patient has been diagnosed with a qualifying medical condition;

APPENDIX  
Repealed Minnesota Statutes: H0100-6

(2) has not signed and returned the disclosure form required under subdivision 3, paragraph (c), to the commissioner;

(3) does not provide the information required;

(4) has previously been removed from the registry program for violations of section 152.30 or 152.33; or

(5) provides false information.

(b) The commissioner shall give written notice to a patient of the reason for denying enrollment in the registry program.

(c) Denial of enrollment into the registry program is considered a final decision of the commissioner and is subject to judicial review under the Administrative Procedure Act pursuant to chapter 14.

(d) A patient's enrollment in the registry program may only be revoked upon the death of the patient or if a patient violates a requirement under section 152.30 or 152.33.

(e) The commissioner shall develop a registry verification to provide to the patient, the health care practitioner identified in the patient's application, and to the manufacturer. The registry verification shall include:

(1) the patient's name and date of birth;

(2) the patient registry number assigned to the patient; and

(3) the name and date of birth of the patient's registered designated caregiver, if any, or the name of the patient's parent, legal guardian, or spouse if the parent, legal guardian, or spouse will be acting as a caregiver.

Subd. 7. **Notice requirements.** Patients and registered designated caregivers shall notify the commissioner of any address or name change within 30 days of the change having occurred. A patient or registered designated caregiver is subject to a \$100 fine for failure to notify the commissioner of the change.

**152.28 HEALTH CARE PRACTITIONER DUTIES.**

Subdivision 1. **Health care practitioner duties.** (a) Prior to a patient's enrollment in the registry program, a health care practitioner shall:

(1) determine, in the health care practitioner's medical judgment, whether a patient suffers from a qualifying medical condition, and, if so determined, provide the patient with a certification of that diagnosis;

(2) advise patients, registered designated caregivers, and parents, legal guardians, or spouses who are acting as caregivers of the existence of any nonprofit patient support groups or organizations;

(3) provide explanatory information from the commissioner to patients with qualifying medical conditions, including disclosure to all patients about the experimental nature of therapeutic use of medical cannabis; the possible risks, benefits, and side effects of the proposed treatment; the application and other materials from the commissioner; and provide patients with the Tennessee warning as required by section 13.04, subdivision 2; and

(4) agree to continue treatment of the patient's qualifying medical condition and report medical findings to the commissioner.

(b) Upon notification from the commissioner of the patient's enrollment in the registry program, the health care practitioner shall:

(1) participate in the patient registry reporting system under the guidance and supervision of the commissioner;

(2) report health records of the patient throughout the ongoing treatment of the patient to the commissioner in a manner determined by the commissioner and in accordance with subdivision 2;

(3) determine, on a yearly basis, if the patient continues to suffer from a qualifying medical condition and, if so, issue the patient a new certification of that diagnosis; and

(4) otherwise comply with all requirements developed by the commissioner.

APPENDIX  
Repealed Minnesota Statutes: H0100-6

(c) A health care practitioner may conduct a patient assessment to issue a recertification as required under paragraph (b), clause (3), via telehealth, as defined in section 62A.673, subdivision 2.

(d) Nothing in this section requires a health care practitioner to participate in the registry program.

Subd. 2. **Data.** Data collected on patients by a health care practitioner and reported to the patient registry are health records under section 144.291, and are private data on individuals under section 13.02, but may be used or reported in an aggregated, nonidentifiable form as part of a scientific, peer-reviewed publication of research conducted under section 152.25 or in the creation of summary data, as defined in section 13.02, subdivision 19.

Subd. 3. **Advertising restrictions.** (a) A health care practitioner shall not publish or cause to be published any advertisement that:

(1) contains false or misleading statements about medical cannabis or about the medical cannabis registry program;

(2) uses colloquial terms to refer to medical cannabis, such as pot, weed, or grass;

(3) states or implies the health care practitioner is endorsed by the Department of Health or by the medical cannabis registry program;

(4) includes images of cannabis in its plant or leaf form or of cannabis-smoking paraphernalia; or

(5) contains medical symbols that could reasonably be confused with symbols of established medical associations or groups.

(b) A health care practitioner found by the commissioner to have violated this subdivision is prohibited from certifying that patients have a qualifying medical condition for purposes of patient participation in the registry program. The commissioner's decision that a health care practitioner has violated this subdivision is a final decision of the commissioner and is not subject to the contested case procedures in chapter 14.

**152.29 MANUFACTURER OF MEDICAL CANNABIS DUTIES.**

Subdivision 1. **Manufacturer; requirements.** (a) A manufacturer may operate eight distribution facilities, which may include the manufacturer's single location for cultivation, harvesting, manufacturing, packaging, and processing but is not required to include that location. The commissioner shall designate the geographical service areas to be served by each manufacturer based on geographical need throughout the state to improve patient access. A manufacturer shall not have more than two distribution facilities in each geographical service area assigned to the manufacturer by the commissioner. A manufacturer shall operate only one location where all cultivation, harvesting, manufacturing, packaging, and processing of medical cannabis shall be conducted. This location may be one of the manufacturer's distribution facility sites. The additional distribution facilities may dispense medical cannabis and medical cannabis products but may not contain any medical cannabis in a form other than those forms allowed under section 152.22, subdivision 6, and the manufacturer shall not conduct any cultivation, harvesting, manufacturing, packaging, or processing at the other distribution facility sites. Any distribution facility operated by the manufacturer is subject to all of the requirements applying to the manufacturer under sections 152.22 to 152.37, including, but not limited to, security and distribution requirements.

(b) A manufacturer may acquire hemp grown in this state from a hemp grower, and may acquire hemp products produced by a hemp processor. A manufacturer may manufacture or process hemp and hemp products into an allowable form of medical cannabis under section 152.22, subdivision 6. Hemp and hemp products acquired by a manufacturer under this paragraph are subject to the same quality control program, security and testing requirements, and other requirements that apply to medical cannabis under sections 152.22 to 152.37 and Minnesota Rules, chapter 4770.

(c) A medical cannabis manufacturer shall contract with a laboratory approved by the commissioner, subject to any additional requirements set by the commissioner, for purposes of testing medical cannabis manufactured or hemp or hemp products acquired by the medical cannabis manufacturer as to content, contamination, and consistency to verify the medical cannabis meets the requirements of section 152.22, subdivision 6. The cost of laboratory testing shall be paid by the manufacturer.

(d) The operating documents of a manufacturer must include:

APPENDIX  
Repealed Minnesota Statutes: H0100-6

(1) procedures for the oversight of the manufacturer and procedures to ensure accurate record keeping;

(2) procedures for the implementation of appropriate security measures to deter and prevent the theft of medical cannabis and unauthorized entrance into areas containing medical cannabis; and

(3) procedures for the delivery and transportation of hemp between hemp growers and manufacturers and for the delivery and transportation of hemp products between hemp processors and manufacturers.

(e) A manufacturer shall implement security requirements, including requirements for the delivery and transportation of hemp and hemp products, protection of each location by a fully operational security alarm system, facility access controls, perimeter intrusion detection systems, and a personnel identification system.

(f) A manufacturer shall not share office space with, refer patients to a health care practitioner, or have any financial relationship with a health care practitioner.

(g) A manufacturer shall not permit any person to consume medical cannabis on the property of the manufacturer.

(h) A manufacturer is subject to reasonable inspection by the commissioner.

(i) For purposes of sections 152.22 to 152.37, a medical cannabis manufacturer is not subject to the Board of Pharmacy licensure or regulatory requirements under chapter 151.

(j) A medical cannabis manufacturer may not employ any person who is under 21 years of age or who has been convicted of a disqualifying felony offense. An employee of a medical cannabis manufacturer must submit a completed criminal history records check consent form, a full set of classifiable fingerprints, and the required fees for submission to the Bureau of Criminal Apprehension before an employee may begin working with the manufacturer. The bureau must conduct a Minnesota criminal history records check and the superintendent is authorized to exchange the fingerprints with the Federal Bureau of Investigation to obtain the applicant's national criminal history record information. The bureau shall return the results of the Minnesota and federal criminal history records checks to the commissioner.

(k) A manufacturer may not operate in any location, whether for distribution or cultivation, harvesting, manufacturing, packaging, or processing, within 1,000 feet of a public or private school existing before the date of the manufacturer's registration with the commissioner.

(l) A manufacturer shall comply with reasonable restrictions set by the commissioner relating to signage, marketing, display, and advertising of medical cannabis.

(m) Before a manufacturer acquires hemp from a hemp grower or hemp products from a hemp processor, the manufacturer must verify that the hemp grower or hemp processor has a valid license issued by the commissioner of agriculture under chapter 18K.

(n) Until a state-centralized, seed-to-sale system is implemented that can track a specific medical cannabis plant from cultivation through testing and point of sale, the commissioner shall conduct at least one unannounced inspection per year of each manufacturer that includes inspection of:

(1) business operations;

(2) physical locations of the manufacturer's manufacturing facility and distribution facilities;

(3) financial information and inventory documentation, including laboratory testing results; and

(4) physical and electronic security alarm systems.

**Subd. 2. Manufacturer; production.** (a) A manufacturer of medical cannabis shall provide a reliable and ongoing supply of all medical cannabis needed for the registry program through cultivation by the manufacturer and through the purchase of hemp from hemp growers.

(b) All cultivation, harvesting, manufacturing, packaging, and processing of medical cannabis must take place in an enclosed, locked facility at a physical address provided to the commissioner during the registration process.

(c) A manufacturer must process and prepare any medical cannabis plant material or hemp plant material into a form allowable under section 152.22, subdivision 6, prior to distribution of any medical cannabis.

APPENDIX  
Repealed Minnesota Statutes: H0100-6

Subd. 3. **Manufacturer; distribution.** (a) A manufacturer shall require that employees licensed as pharmacists pursuant to chapter 151 be the only employees to give final approval for the distribution of medical cannabis to a patient. A manufacturer may transport medical cannabis or medical cannabis products that have been cultivated, harvested, manufactured, packaged, and processed by that manufacturer to another registered manufacturer for the other manufacturer to distribute.

(b) A manufacturer may distribute medical cannabis products, whether or not the products have been manufactured by that manufacturer.

(c) Prior to distribution of any medical cannabis, the manufacturer shall:

(1) verify that the manufacturer has received the registry verification from the commissioner for that individual patient;

(2) verify that the person requesting the distribution of medical cannabis is the patient, the patient's registered designated caregiver, or the patient's parent, legal guardian, or spouse listed in the registry verification using the procedures described in section 152.11, subdivision 2d;

(3) assign a tracking number to any medical cannabis distributed from the manufacturer;

(4) ensure that any employee of the manufacturer licensed as a pharmacist pursuant to chapter 151 has consulted with the patient to determine the proper dosage for the individual patient after reviewing the ranges of chemical compositions of the medical cannabis and the ranges of proper dosages reported by the commissioner. For purposes of this clause, a consultation may be conducted remotely by secure videoconference, telephone, or other remote means, so long as the employee providing the consultation is able to confirm the identity of the patient and the consultation adheres to patient privacy requirements that apply to health care services delivered through telehealth. A pharmacist consultation under this clause is not required when a manufacturer is distributing medical cannabis to a patient according to a patient-specific dosage plan established with that manufacturer and is not modifying the dosage or product being distributed under that plan and the medical cannabis is distributed by a pharmacy technician;

(5) properly package medical cannabis in compliance with the United States Poison Prevention Packing Act regarding child-resistant packaging and exemptions for packaging for elderly patients, and label distributed medical cannabis with a list of all active ingredients and individually identifying information, including:

(i) the patient's name and date of birth;

(ii) the name and date of birth of the patient's registered designated caregiver or, if listed on the registry verification, the name of the patient's parent or legal guardian, if applicable;

(iii) the patient's registry identification number;

(iv) the chemical composition of the medical cannabis; and

(v) the dosage; and

(6) ensure that the medical cannabis distributed contains a maximum of a 90-day supply of the dosage determined for that patient.

(d) A manufacturer shall require any employee of the manufacturer who is transporting medical cannabis or medical cannabis products to a distribution facility or to another registered manufacturer to carry identification showing that the person is an employee of the manufacturer.

(e) A manufacturer shall distribute medical cannabis in dried raw cannabis form only to a patient age 21 or older, or to the registered designated caregiver, parent, legal guardian, or spouse of a patient age 21 or older.

Subd. 3a. **Transportation of medical cannabis; staffing.** (a) A medical cannabis manufacturer may staff a transport motor vehicle with only one employee if the medical cannabis manufacturer is transporting medical cannabis to either a certified laboratory for the purpose of testing or a facility for the purpose of disposal. If the medical cannabis manufacturer is transporting medical cannabis for any other purpose or destination, the transport motor vehicle must be staffed with a minimum of two employees as required by rules adopted by the commissioner.

(b) Notwithstanding paragraph (a), a medical cannabis manufacturer that is only transporting hemp for any purpose may staff the transport motor vehicle with only one employee.

APPENDIX  
Repealed Minnesota Statutes: H0100-6

Subd. 4. **Report.** Each manufacturer shall report to the commissioner on a monthly basis the following information on each individual patient for the month prior to the report:

- (1) the amount and dosages of medical cannabis distributed;
- (2) the chemical composition of the medical cannabis; and
- (3) the tracking number assigned to any medical cannabis distributed.

**152.30 PATIENT DUTIES.**

(a) A patient shall apply to the commissioner for enrollment in the registry program by submitting an application as required in section 152.27 and an annual registration fee as determined under section 152.35.

(b) As a condition of continued enrollment, patients shall agree to:

(1) continue to receive regularly scheduled treatment for their qualifying medical condition from their health care practitioner; and

(2) report changes in their qualifying medical condition to their health care practitioner.

(c) A patient shall only receive medical cannabis from a registered manufacturer but is not required to receive medical cannabis products from only a registered manufacturer.

**152.31 DATA PRACTICES.**

(a) Government data in patient files maintained by the commissioner and the health care practitioner, and data submitted to or by a medical cannabis manufacturer, are private data on individuals, as defined in section 13.02, subdivision 12, or nonpublic data, as defined in section 13.02, subdivision 9, but may be used for purposes of complying with chapter 13 and complying with a request from the legislative auditor or the state auditor in the performance of official duties. The provisions of section 13.05, subdivision 11, apply to a registration agreement entered between the commissioner and a medical cannabis manufacturer under section 152.25.

(b) Not public data maintained by the commissioner may not be used for any purpose not provided for in sections 152.22 to 152.37, and may not be combined or linked in any manner with any other list, dataset, or database.

(c) The commissioner may execute data sharing arrangements with the commissioner of agriculture to verify licensing, inspection, and compliance information related to hemp growers and hemp processors under chapter 18K.

**152.32 PROTECTIONS FOR REGISTRY PROGRAM PARTICIPATION.**

Subdivision 1. **Presumption.** (a) There is a presumption that a patient enrolled in the registry program under sections 152.22 to 152.37 is engaged in the authorized use of medical cannabis.

(b) The presumption may be rebutted by evidence that conduct related to use of medical cannabis was not for the purpose of treating or alleviating the patient's qualifying medical condition or symptoms associated with the patient's qualifying medical condition.

Subd. 2. **Criminal and civil protections.** (a) Subject to section 152.23, the following are not violations under this chapter:

(1) use or possession of medical cannabis or medical cannabis products by a patient enrolled in the registry program, or possession by a registered designated caregiver or the parent, legal guardian, or spouse of a patient if the parent, legal guardian, or spouse is listed on the registry verification;

(2) possession, dosage determination, or sale of medical cannabis or medical cannabis products by a medical cannabis manufacturer, employees of a manufacturer, a laboratory conducting testing on medical cannabis, or employees of the laboratory; and

(3) possession of medical cannabis or medical cannabis products by any person while carrying out the duties required under sections 152.22 to 152.37.

(b) Medical cannabis obtained and distributed pursuant to sections 152.22 to 152.37 and associated property is not subject to forfeiture under sections 609.531 to 609.5316.

(c) The commissioner, the commissioner's staff, the commissioner's agents or contractors, and any health care practitioner are not subject to any civil or disciplinary penalties by the Board of

APPENDIX  
Repealed Minnesota Statutes: H0100-6

Medical Practice, the Board of Nursing, or by any business, occupational, or professional licensing board or entity, solely for the participation in the registry program under sections 152.22 to 152.37. A pharmacist licensed under chapter 151 is not subject to any civil or disciplinary penalties by the Board of Pharmacy when acting in accordance with the provisions of sections 152.22 to 152.37. Nothing in this section affects a professional licensing board from taking action in response to violations of any other section of law.

(d) Notwithstanding any law to the contrary, the commissioner, the governor of Minnesota, or an employee of any state agency may not be held civilly or criminally liable for any injury, loss of property, personal injury, or death caused by any act or omission while acting within the scope of office or employment under sections 152.22 to 152.37.

(e) Federal, state, and local law enforcement authorities are prohibited from accessing the patient registry under sections 152.22 to 152.37 except when acting pursuant to a valid search warrant.

(f) Notwithstanding any law to the contrary, neither the commissioner nor a public employee may release data or information about an individual contained in any report, document, or registry created under sections 152.22 to 152.37 or any information obtained about a patient participating in the program, except as provided in sections 152.22 to 152.37.

(g) No information contained in a report, document, or registry or obtained from a patient under sections 152.22 to 152.37 may be admitted as evidence in a criminal proceeding unless independently obtained or in connection with a proceeding involving a violation of sections 152.22 to 152.37.

(h) Notwithstanding section 13.09, any person who violates paragraph (e) or (f) is guilty of a gross misdemeanor.

(i) An attorney may not be subject to disciplinary action by the Minnesota Supreme Court or professional responsibility board for providing legal assistance to prospective or registered manufacturers or others related to activity that is no longer subject to criminal penalties under state law pursuant to sections 152.22 to 152.37.

(j) Possession of a registry verification or application for enrollment in the program by a person entitled to possess or apply for enrollment in the registry program does not constitute probable cause or reasonable suspicion, nor shall it be used to support a search of the person or property of the person possessing or applying for the registry verification, or otherwise subject the person or property of the person to inspection by any governmental agency.

**Subd. 3. Discrimination prohibited.** (a) No school or landlord may refuse to enroll or lease to and may not otherwise penalize a person solely for the person's status as a patient enrolled in the registry program under sections 152.22 to 152.37, unless failing to do so would violate federal law or regulations or cause the school or landlord to lose a monetary or licensing-related benefit under federal law or regulations.

(b) For the purposes of medical care, including organ transplants, a registry program enrollee's use of medical cannabis under sections 152.22 to 152.37 is considered the equivalent of the authorized use of any other medication used at the discretion of a physician, advanced practice registered nurse, or physician assistant and does not constitute the use of an illicit substance or otherwise disqualify a patient from needed medical care.

(c) Unless a failure to do so would violate federal law or regulations or cause an employer to lose a monetary or licensing-related benefit under federal law or regulations, an employer may not discriminate against a person in hiring, termination, or any term or condition of employment, or otherwise penalize a person, if the discrimination is based upon either of the following:

(1) the person's status as a patient enrolled in the registry program under sections 152.22 to 152.37; or

(2) a patient's positive drug test for cannabis components or metabolites, unless the patient used, possessed, or was impaired by medical cannabis on the premises of the place of employment or during the hours of employment.

(d) An employee who is required to undergo employer drug testing pursuant to section 181.953 may present verification of enrollment in the patient registry as part of the employee's explanation under section 181.953, subdivision 6.

(e) A person shall not be denied custody of a minor child or visitation rights or parenting time with a minor child solely based on the person's status as a patient enrolled in the registry program under sections 152.22 to 152.37. There shall be no presumption of neglect or child endangerment

APPENDIX  
Repealed Minnesota Statutes: H0100-6

for conduct allowed under sections 152.22 to 152.37, unless the person's behavior is such that it creates an unreasonable danger to the safety of the minor as established by clear and convincing evidence.

**152.33 VIOLATIONS.**

Subdivision 1. **Intentional diversion; criminal penalty.** In addition to any other applicable penalty in law, a manufacturer or an agent of a manufacturer who intentionally transfers medical cannabis to a person other than another registered manufacturer, a patient, a registered designated caregiver or, if listed on the registry verification, a parent, legal guardian, or spouse of a patient is guilty of a felony punishable by imprisonment for not more than two years or by payment of a fine of not more than \$3,000, or both. A person convicted under this subdivision may not continue to be affiliated with the manufacturer and is disqualified from further participation under sections 152.22 to 152.37.

Subd. 1a. **Intentional diversion outside the state; penalties.** (a) In addition to any other applicable penalty in law, the commissioner may levy a fine of \$250,000 against a manufacturer and may immediately initiate proceedings to revoke the manufacturer's registration, using the procedure in section 152.25, if:

(1) an officer, director, or controlling person of the manufacturer pleads or is found guilty under subdivision 1 of intentionally transferring medical cannabis, while the person was an officer, director, or controlling person of the manufacturer, to a person other than allowed by law; and

(2) in intentionally transferring medical cannabis to a person other than allowed by law, the officer, director, or controlling person transported or directed the transport of medical cannabis outside of Minnesota.

(b) All fines collected under this subdivision shall be deposited in the state government special revenue fund.

Subd. 2. **Diversion by patient, registered designated caregiver, parent, legal guardian, or patient's spouse; criminal penalty.** In addition to any other applicable penalty in law, a patient, registered designated caregiver or, if listed on the registry verification, a parent, legal guardian, or spouse of a patient who intentionally sells or otherwise transfers medical cannabis to a person other than a patient, designated registered caregiver or, if listed on the registry verification, a parent, legal guardian, or spouse of a patient is guilty of a felony punishable by imprisonment for not more than two years or by payment of a fine of not more than \$3,000, or both.

Subd. 3. **False statement; criminal penalty.** A person who intentionally makes a false statement to a law enforcement official about any fact or circumstance relating to the medical use of cannabis to avoid arrest or prosecution is guilty of a misdemeanor punishable by imprisonment for not more than 90 days or by payment of a fine of not more than \$1,000, or both. The penalty is in addition to any other penalties that may apply for making a false statement or for the possession, cultivation, or sale of cannabis not protected by sections 152.22 to 152.37. If a person convicted of violating this subdivision is a patient or a registered designated caregiver, the person is disqualified from further participation under sections 152.22 to 152.37.

Subd. 4. **Submission of false records; criminal penalty.** A person who knowingly submits false records or documentation required by the commissioner to register as a manufacturer of medical cannabis under sections 152.22 to 152.37 is guilty of a felony and may be sentenced to imprisonment for not more than two years or by payment of a fine of not more than \$3,000, or both.

Subd. 5. **Violation by health care practitioner; criminal penalty.** A health care practitioner who knowingly refers patients to a manufacturer or to a designated caregiver, who advertises as a manufacturer, or who issues certifications while holding a financial interest in a manufacturer is guilty of a misdemeanor and may be sentenced to imprisonment for not more than 90 days or by payment of a fine of not more than \$1,000, or both.

Subd. 6. **Other violations; civil penalty.** A manufacturer shall be fined up to \$1,000 for any violation of sections 152.22 to 152.37, or the regulations issued pursuant to them, where no penalty has been specified. This penalty is in addition to any other applicable penalties in law.

**152.34 HEALTH CARE FACILITIES.**

(a) Health care facilities licensed under chapter 144A, hospice providers licensed under chapter 144A, boarding care homes or supervised living facilities licensed under section 144.50, assisted living facilities, facilities owned, controlled, managed, or under common control with hospitals licensed under chapter 144, and other health facilities licensed by the commissioner of health, may

APPENDIX  
Repealed Minnesota Statutes: H0100-6

adopt reasonable restrictions on the use of medical cannabis by a patient enrolled in the registry program who resides at or is actively receiving treatment or care at the facility. The restrictions may include a provision that the facility will not store or maintain the patient's supply of medical cannabis, that the facility is not responsible for providing the medical cannabis for patients, and that medical cannabis be used only in a place specified by the facility.

(b) Any employee or agent of a facility listed in this section or a person licensed under chapter 144E is not subject to violations under this chapter for possession of medical cannabis while carrying out employment duties, including providing or supervising care to a registered patient, or distribution of medical cannabis to a registered patient who resides at or is actively receiving treatment or care at the facility with which the employee or agent is affiliated. Nothing in this section shall require the facilities to adopt such restrictions and no facility shall unreasonably limit a patient's access to or use of medical cannabis to the extent that use is authorized by the patient under sections 152.22 to 152.37.

**152.35 FEES; DEPOSIT OF REVENUE.**

(a) The commissioner shall collect an enrollment fee of \$200 from patients enrolled under this section.
