

HB 1550 -- COMMERCIAL ICE

SPONSOR: Sassmann

This bill specifies that any water used to manufacture ice intended for human consumption must be from a source approved as a drinking water supply and that any packaged ice product imported into the state intended for human consumption must be from a source approved as a drinking water supply in the jurisdiction which it was manufactured. In addition, ice that is processed and packaged must meet certain requirements specified in the bill and the labeling on the packaging material must include at least the product name, net weight, and manufacturer's name and contact information.

This bill is the similar to HB 143 (2023).
