

HB 1584 -- ELECTRIC VEHICLE CHARGING STATIONS (Murphy)

COMMITTEE OF ORIGIN: Standing Committee on Transportation

This bill provides that, notwithstanding any other provision of law, any political subdivision that adopts an ordinance, resolution, regulation, code, or policy that requires the installation of electric vehicle charging stations or infrastructure for future installation at any business must pay all costs associated with the installation, maintenance, and operation of the electric vehicle charging stations.

This condition will not apply to any grant agreement between a business and political subdivision that includes requirements for charging stations, and the business enters into the agreement voluntarily.

Nothing in this provision will prohibit private business or property owners from paying for the installation, maintenance, and operation of electric vehicle charging stations.
