FISCAL ANALYSIS

ASSUMPTION

Officials from the **Office of Administration**, the **Department of Commerce and Insurance**, the **Attorney General's Office**, the **Department of Natural Resources**, the **Missouri Department of Conservation**, the **Missouri Department of Transportation** and the **Hancock Street Light District** each assume the proposal would have no fiscal impact on their respective organizations. **Oversight** does not have any information to the contrary. Therefore, Oversight will reflect a zero impact in the fiscal note for these agencies.

In response to a similar proposal from last year (HB 527), officials from the **Cass County Pwsd**, the **Corder Water/Wastewater District**, the **Festus Water Department**, the **Glasgow Village Sld**, the **High Point Elementary School District**, the **Hughesville Water/Wastewater District**, the **Lexington Water/Wastewater District**, the **Little Blue Valley Sewer District**, the **Schell City Water Department**, the **South River Drainage District** and the **Tri County Water Authority** each assumed the proposal will have no fiscal impact on their respective organizations. **Oversight** does not have any information to the contrary. Therefore, Oversight will reflect a zero impact in the fiscal note for these agencies.

Oversight only reflects the responses received from state agencies and political subdivisions; however, other utilities were requested to respond to this proposed legislation but did not. A general listing of political subdivisions included in Oversight's database is available upon request.

Oversight assumes this proposal could impact the Grain Belt Express project in northern Missouri. According to a report by the Public Service Commission (File No. EM-2019-0150), the Grain Belt Express Project line is "sited to traverse Buchanan, Clinton Caldwell, Carroll, Chariton, Randolph, Monroe and Ralls Counties, Missouri. The Grain Belt Express Project covers approximately 780 miles, and the project will primarily use a pole design which has a smaller footprint than traditional alternating current transmission lines. The structures will occupy ten acres for the entire state of Missouri." The Joint Application of Invenergy Transmission LLC, Invenergy Investment Company LLC, Grain Belt Express Clean Line LLC and Grain Belt Express Holding LLC for an Order Approving the Acquisition by Invenergy Transmission LLC of Grain Belt Express Clean Line LLC was approved by the PSC effective June 30, 2019.

Oversight notes that while there may be no direct impact to the state or local governments as a result of this proposal, modifying provisions relating to the power of eminent domain for utility purposes could have a large indirect impact on current and future utility projects.

<u>FISCAL IMPACT – State Government</u>	FY 2023 (10 Mo.)	FY 2024	FY 2025
	<u>\$0</u>	<u>\$0</u>	<u>\$0</u>

<u>FISCAL IMPACT – Local Government</u>	FY 2023 (10 Mo.)	FY 2024	FY 2025
	<u>\$0</u>	<u>\$0</u>	<u>\$0</u>

FISCAL IMPACT – Small Business

Small utility businesses and/or small businesses that are impacted by eminent domain could be impacted by this proposal.

FISCAL DESCRIPTION

The proposed legislation appears to have no direct fiscal impact.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
