L.R. No.: 4744H.011
 Bill No.: HB 1975
 Subject: Energy; Utilities
 Type: Original
 Date: January 6, 2022

Bill Summary: This proposal modifies provisions for renewable energy resources.

FISCAL SUMMARY

ESTIMATED NET EFFECT ON GENERAL REVENUE FUND			
FUND AFFECTED	FY 2023	FY 2024	FY 2025
General Revenue*	\$0 to (Unknown)	\$0 to (Unknown)	\$0 to (Unknown)
Total Estimated Net Effect on General Revenue	\$0 to (Unknown)	\$0 to (Unknown)	\$0 to (Unknown)

*This bill could increase utility costs to all state departments and local governments if rate changes are made as a result of these new standards, however, **Oversight** assumes the potential increase would be less than \$250,000 each year.

FISCAL ANALYSIS

ASSUMPTION

Sections 393.1025 & 393.1030 – Renewable Energy Resources

Officials from the **Office of Administration - Facilities Management, Design and Construction (FMDC)** state this bill modifies the definition of "renewable energy resources" and increases the required percentages of each electric utility's sales that must come from renewable energy resources. FMDC assumes that this bill could increase utility costs to all state departments and local governments if rate changes are made as a result of these new standards. Without additional information, FMDC is unable to accurately calculate the impact of this bill; therefore, the impact is \$0 to unknown.

Officials from the **Missouri Department of Conservation** state this proposal will have an unknown fiscal impact but will likely accumulate to greater than \$250,000 as all provisions of the proposed legislation are enacted.

Oversight assumes this proposal increases the required percentages of each electric utility's sales that must come from renewable energy resources. Oversight assumes rate changes could be made as a result of this proposal that will be passed onto various customer classes.

Oversight assumes this proposal could increase utility cost for the Office of Administration as well as other state agencies and local governments. Since it is unknown how much of a rate increase will be authorized (if any), Oversight will reflect a range from \$0 (no utility will increase rates) to an unknown cost to the state and local political subdivisions for higher utility costs, however, Oversight assumes the potential increase in utility cost will be under \$250,000.

Officials from the **Department of Commerce and Insurance**, the **Department of Economic Development**, the **Department of Natural Resources** and the **Missouri Department of Transportation** each assume the proposal will have no fiscal impact on their respective organizations. **Oversight** does not have any information to the contrary. Therefore, Oversight will reflect a zero impact in the fiscal note for these agencies.

Rule Promulgation

Officials from the **Joint Committee on Administrative Rules** assume this proposal is not anticipated to cause a fiscal impact beyond its current appropriation.

Officials from the **Office of the Secretary of State (SOS)** note many bills considered by the General Assembly include provisions allowing or requiring agencies to submit rules and regulations to implement the act. The SOS is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. The fiscal impact for

this fiscal note to the SOS for Administrative Rules is less than \$5,000. The SOS recognizes that this is a small amount and does not expect that additional funding would be required to meet these costs. However, the SOS also recognizes that many such bills may be passed by the General Assembly in a given year and that collectively the costs may be in excess of what the office can sustain with its core budget. Therefore, the SOS reserves the right to request funding for the cost of supporting administrative rules requirements should the need arise based on a review of the finally approved bills signed by the governor.

FISCAL IMPACT – Small Business

Small businesses could have an increase in utility cost as a result of this proposal.

FISCAL DESCRIPTION

This bill modifies the definition of "renewable energy resources" for the purposes of the Renewable Energy Standard and increases the required percentages of each electric utility's sales that must come from renewable energy resources. The percentage required begins with no less than 15% by December 31, 2022 and increases incrementally to no less than 100% by December 31, 2057.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
