FISCAL ANALYSIS

ASSUMPTION

Section 167.225 BRITE Act

Officials from the **Department of Elementary and Secondary Education** state the Missouri School for the Blind already provides many of the services required in this legislation with the exception of orientation and mobility evaluations at the home and paying for eye exams. To implement this legislation, the Department estimates the following costs per year:

The orientation and mobility evaluations described in paragraph (b) of this subdivision shall occur in familiar and unfamiliar environments and around the home, school, and community as determined age appropriate by the blind students IEP.

40 students X 500 miles X .43 mileage rate = \$8,600

If an LEA requires an eye report, the LEA shall bear all costs associated with obtaining such report. LEAs shall not delay an evaluation for eligibility based on the absence or delay of such report.

40 students X \$300 eye exam = \$12,000

Total Cost = \$20,600

Officials from the **Department of Social Services** assume the proposal will have no fiscal impact on their organization. **Oversight** does not have any information to the contrary. Therefore, Oversight will reflect a zero impact in the fiscal note for this agency.

Oversight assumes this proposal could result in additional costs to school districts if it imposes duties beyond those that school districts are already performing. Oversight will show a range of impact to school districts of \$0 (no additional costs or can be absorbed) to an unknown cost.

Oversight did not receive any responses from school districts related to the fiscal impact of this proposal. Oversight has presented this fiscal note on the best current information available. Upon the receipt of additional responses, Oversight will review to determine if an updated fiscal note should be prepared and seek the necessary approval to publish a new fiscal note.

Oversight only reflects the responses received from state agencies and political subdivisions; however, other school districts were requested to respond to this proposed legislation but did not. A listing of political subdivisions included in the Missouri Legislative Information System (MOLIS) database is available upon request.

FISCAL IMPACT – Small Business

No direct fiscal impact to small businesses would be expected as a result of this proposal.

FISCAL DESCRIPTION

This bill establishes the "Blind Students' Rights to Independence, Training, and Education Act" or the "BRITE Act".

The bill provides definitions for "accessible assistive technology device", "adequate instruction", and "nonvisual access and skills" among other definitions.

The bill requires blind children to have an Individualized Education Plan, (IEP) that shall specify results obtained from evaluations on reading and writing skills, and should include the need for instruction in Braille or the use of Braille. All instruction in Braille reading and writing shall be sufficient to allow a student to effectively and efficiently communicate at an appropriate age level.

The bill includes additional guidance for the instruction of Braille and the use of nonvisual accessible assistive technology. The bill provides direction to school districts regarding accessible assistive technology and requires a school district to provide duplicative accessible assistive technology to be used in a blind student's home without requiring payment or family assumption of liability for loss or damage.

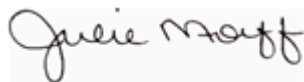

The bill requires districts to perform an orientation and mobility evaluation to be conducted by certified individuals and provides guidance on the instruction for orientation and mobility, and districts may not limit a student's instruction in the home, school, or community and provide transportation in the preferred mode of the instructor.

The bill requires educators hired to teach Braille, accessible assistive technology, and orientation and mobility, to hold a valid certificate as outlined in the bill. The bill requires school districts to comply with the Individuals with Disabilities Education Act (IDEA) even during declared emergencies, to bear the cost of any required eye report, and to develop nonvisual accessibility policies to reduce or eliminate common barriers for blind individuals

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
