

HB 2330 -- DRIVING OFFENSES

SPONSOR: Patterson

This bill prohibits a violation for which points are assessed on a temporary instruction permit or on an intermediate driver's license from being reduced or amended to a violation for which fewer or no points are assessed. A holder of an intermediate driver's license will have his or her license converted to a temporary learner's permit if the license holder accumulates four or more points on his or her license in a 12-month period. The intermediate driver's license can be reinstated once the license holder demonstrates that he or she has completed a driver's education program that is approved by the State Highways and Transportation Commission and includes at least 40 hours of supervised driving experience.
