**FISCAL ANALYSIS**

**ASSUMPTION**

Officials from the **Missouri Department of Agriculture (MDA)** assume the proposal will have no fiscal impact on their organization.

MDA further notes the soybean checkoff is a national program. Each state merchandising council is responsible for collection from the first soybean purchaser within the state. These funds are then distributed to other states of origin (state in which the soybean was grown), the United Soybean Board and the Missouri Soybean Merchandising Council.

The current collection level is ½ of 1 percent of the net purchase price which is collected by the first buyer of the soybeans. This bill is intended to establish a procedure to maintain the collection of ½ of 1 percent by the first purchasers in Missouri even if there was no longer a national soybean checkoff. If the United Soybean Board would reduce or raise their portion of the collected amount, the Missouri Soybean Merchandising Council’s share would be adjusted accordingly to maintain the ½ of 1 percent collected by first purchasers currently in place.

The Missouri Soybean Merchandising Council has chosen the Missouri Department of Agriculture to administer the collection of these funds through an annual contractual agreement.

**Oversight** notes that the above mentioned agency has stated the proposal would not have a direct fiscal impact on their organization. Oversight does not have any information to the contrary. Therefore, Oversight will reflect a zero impact on the fiscal note.
