FISCAL ANALYSIS

ASSUMPTION

§§630.015; 630.055 and 630.1150 - Modifies provisions relating to the state Mental Health Commission

Officials from the **Department of Mental Health (DMH)** state this proposal modifies §§630.015 and 630.055 and adds §630.1150, pertaining to the state Mental Health Commission.

Section 630.015.2(5) contains new language and now reads “accessibility of services to promote timely treatment in the most efficient and efficacious setting of patients with mental illnesses, mental disorders, intellectual disabilities, and developmental disabilities”.

Section 630.055 is modified to reflect the addition of the new section 630.1150. Section 630.1150.1 states that the commission shall oversee a project assessing hospitalization of foster children and “clients of the Division of Developmental Disabilities” that occurs because of the lack of post-discharge placement options or screening for residential services. It also tasks the commission with developing recommendations to ensure treatment in the most cost-effective and efficacious settings.

Section 630.1150.2 states the commission shall engage with the Missouri Institute of Mental Health for analysis and policy recommendations. It also provides the commission will collaborate with other state agencies.

Section 630.1150.3 states the commission shall solicit and consider recommendations for social workers, health insurers, psychiatrists and psychologists, hospitals, skilled nursing facilities, and others.

Section 630.1150.4 states the commission shall issue reports to director of DMH and copies of the report to the directors of MO HealthNet, the Children’s Division, the Department of Social Services and the General Assembly. Section 630.1150.5 provides an expiration date of September 1, 2024.

DMH would require contracting with an outside vendor to perform the duties included in the proposed language. DMH estimates the cost for a vendor to provide these services would be greater than or equal to \$750,000 for FY 2023 and FY 2024.

Oversight does not have information to the contrary and therefore, Oversight will reflect the estimates as provided by DMH.

Officials from the **Department of Commerce and Insurance**, the **Department of Elementary and Secondary Education**, the **Department of Health and Senior Services**, the **Department of Social Services**, the **Missouri House of Representatives**, the **Missouri Senate**, the **Office of Administration** and the **Hermann Area Hospital District** each assume the proposal will have no fiscal impact on their respective organizations. **Oversight** does not have any information to the contrary. Therefore, Oversight will reflect a zero impact in the fiscal note for these agencies.

Oversight only reflects the responses received from state agencies and political subdivisions; however, other nursing homes, schools and hospitals were requested to respond to this proposed legislation but did not. A listing of political subdivisions included in the Missouri Legislative Information System (MOLIS) database is available upon request.

FISCAL IMPACT – Small Business

No direct fiscal impact to small businesses would be expected as a result of this proposal.

FISCAL DESCRIPTION

This act modifies the duties of the State Mental Health Commission to include a focus on accessibility of services to promote timely treatment in the most efficient and efficacious setting of patients with mental illness, mental disorders, intellectual disabilities, and developmental disabilities. The Commission shall oversee and implement a collaborative project to:

- (1) Assess the incidence and implications of foster children and clients of the Division of Developmental Disabilities who remain hospitalized without medical justification because appropriate post-discharge placement options are unavailable;
- (2) Assess the incidence and implications of foster children with mental illness, mental disorders, intellectual disabilities, or developmental disabilities who remain hospitalized without medical justification awaiting screening for appropriateness of residential services; and
- (3) Develop recommendations for the Director of the Department of Mental Health for ensuring treatment of such patients in the most cost effective and efficacious settings in the least restrictive environment.

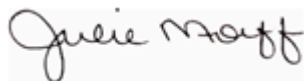

The project shall be conducted as described in the act and in accordance with the timelines for reporting as set forth in the act, culminating in a final report submitted by December 1, 2023.

Provisions of this act shall expire on September 1, 2024 (§§630.015; 630.055 and 630.1150).

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
