FISCAL ANALYSIS

ASSUMPTION

Officials from the **Department of Commerce and Insurance** assume no fiscal impact to the department. However, should the extent of the work be more than anticipated, the department would request additional appropriation and/or FTE through the budget process.

Officials from the **Missouri Department of Conservation**, the **Missouri Department of Transportation**, the **Office of Administration**, the cities: **Kansas City, O’Fallon, Springfield** and the utilities: **Metropolitan St. Louis Sewer District, South River Drainage District, St. Louis-Jefferson Swmd, Hancock Street Light District** each assume the proposal will have no fiscal impact on their respective organizations.

Oversight notes that the above mentioned agencies have stated the proposal would not have a direct fiscal impact on their organization. Oversight does not have any information to the contrary. Therefore, Oversight will reflect a zero impact on the fiscal note.

Officials from the **Joint Committee on Administrative Rules** assume this proposal is not anticipated to cause a fiscal impact beyond its current appropriation.

Officials from the **Office of the Secretary of State (SOS)** note many bills considered by the General Assembly include provisions allowing or requiring agencies to submit rules and regulations to implement the act. The SOS is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. The fiscal impact for this fiscal note to the SOS for Administrative Rules is less than \$5,000. The SOS recognizes that this is a small amount and does not expect that additional funding would be required to meet these costs. However, the SOS also recognizes that many such bills may be passed by the General Assembly in a given year and that collectively the costs may be in excess of what the office can sustain with its core budget. Therefore, the SOS reserves the right to request funding for the cost of supporting administrative rules requirements should the need arise based on a review of the finally approved bills signed by the governor.

Oversight only reflects the responses that we have received from state agencies and political subdivisions; however, other cities and utilities were requested to respond to this proposed legislation but did not. A general listing of political subdivisions included in our database is available upon request.
