FISCAL ANALYSIS

ASSUMPTION

Officials from the **Department of Revenue (DOR)** assume this proposal requires that neighborhood improvement districts, community improvement districts, redevelopment districts and transportation authority districts send certain specified documents to the DOR. The required information includes:

Updated boundary information
Description of the boundaries and the average assessment
Copies of the establishment of the district paperwork
Copies of dissolution paperwork should a district be dissolved
Copies of all meeting notices, hearing and ordinances.

Information received by the DOR is to be posted on the website. DOR notes collecting this information is outside the scope of DOR's work. DOR notes this would require the creation of a webpage that citizens could use to view these documents. DOR staff would create and maintain the webpage. DOR would establish an email address for the acceptance of the documents. The creation of the webpage and setting up of the email will be done with existing DOR resources.

From working with numerous special districts around the state DOR knows that many of these required notices will be sent via paper instead of email. Based on the number of documents filed, DOR will need 1 FTE Public Relations Specialist FTE to handle these duties. Should additional paperwork be sent justifying additional FTE, DOR will seek those FTE through the appropriation process.

Oversight does not have information to the contrary and therefore, Oversight will reflect the estimates as provided by the DOR.

Oversight notes the following number of taxing authorities for the last 5 years from the State Auditor Property Tax Rate Report.
