In developing or implementing an elk management plan, the commission shall consider landowner tolerance when deciding whether to restrict elk hunting on surrounding public land in a particular hunting district. As used in this subsection (1)(h), "landowner tolerance" means the written or documented verbal opinion of an affected landowner regarding the impact upon the landowner's property within the particular hunting district where a restriction on elk hunting on public property is proposed.

(2) The commission may adopt rules regarding the use and type of archery equipment that may be employed for hunting and fishing purposes, taking into account applicable standards as technical innovations in archery equipment change.

(3) The commission may adopt rules regarding the establishment of special licenses or permits, seasons, conditions, programs, or other provisions that the commission considers appropriate to promote or enhance hunting by Montana's youth and persons with disabilities.

(4) (a) The commission may adopt rules regarding nonresident big game combination licenses to:

(i) separate deer licenses from nonresident elk combination licenses;

(ii) set the fees for the separated deer combination licenses and the elk combination licenses without the deer tag;

(iii) condition the use of the deer licenses; and

(iv) limit the number of licenses sold.

(b) The commission may exercise the rulemaking authority in subsection (4)(a) when it is necessary and appropriate to regulate the harvest by nonresident big game combination license holders:

(ii) to control the impacts of those elk, deer, and antelope populations on uses of private property; and

(iii) to ensure that elk, deer, and antelope populations are at a sustainable level as provided in 87-1-321 through 87-1-325.

- (iv) historical outfitter use;
- (v) conflicts among hunter groups;
- (vi) availability of public and private lands; and
- (vii) whether restrictions on nonresident hunters are more appropriate than restrictions on all hunters."

**Section 2. Nonresident elk and deer license preference point system.** (1) The department shall establish a preference point system to distribute Class B-10 nonresident big game combination licenses and Class B-11 nonresident deer combination licenses.

(2) In addition to payment of any fees established in 87-2-113, 87-2-505, and 87-2-510, nonresidents applying to purchase a Class B-10 or Class B-11 license may purchase a preference point, upon payment of a nonrefundable \$50 fee, that gives an applicant who has more preference points priority to receive a Class B-10 or Class B-11 license over an applicant who has purchased fewer preference points.

(3) An applicant may:

- (a) purchase only one preference point per license year; and
- (b) purchase a preference point without applying for a Class B-10 or Class B-11 license. An applicant not applying for a Class B-10 or Class B-11 license may purchase a preference point only between July 1 and September 30 prior to the applicable license year. The department shall delete an applicant's accumulated preference points if the applicant does not apply for a Class B-10 or Class B-11 license for 2 consecutive years.

(4) Except as provided in subsection (3)(b), the department may not delete an applicant's accumulated preference points unless the applicant obtains the license applied for, in which case the department shall delete the applicant's accumulated preference points.

(5) The department shall issue 75% of the Class B-10 and Class B-11 licenses made available for purchase pursuant to 87-2-505 and 87-2-510 by drawings in which the licenses are awarded to applicants in the order of which applicants have purchased the greatest number of preference points. If the number of licenses to be issued under this subsection exceeds the number of applicants who have purchased preference points, the

remaining licenses must be added to the licenses issued pursuant to subsection (6).

(6) The department shall issue 25% of the Class B-10 and Class B-11 licenses made available for purchase pursuant to 87-2-505 and 87-2-510 by drawings in which the licenses are awarded to applicants who have not purchased any preference points. If the number of licenses to be issued under this subsection exceeds the number of applicants who have not purchased preference points, the remaining licenses must be added to the licenses issued pursuant to subsection (5).

(7) Up to five applicants may apply as a party under this section. The department shall use an average of the number of preference points accumulated by those applicants to determine their priority in receiving licenses issued pursuant to subsection (5). The department shall consider any fraction that results from the calculation of an average when determining that priority.

**Section 3. Codification instruction.** [Section 2] is intended to be codified as an integral part of Title 87, chapter 2, part 1, and the provisions of Title 87, chapter 2, part 1, apply to [section 2].
