Any acquisition of land or water rights for purposes of this subsection, except that portion of acquisitions made with funds provided under 87-1-242(1), must include an additional 20% above the purchase price to be used for maintenance of land or water acquired by the department. The additional amount above the purchase price or \$300,000, whichever is less, must be deposited in the account established in 87-1-230. As used in this subsection, "maintenance" means that term as defined in and consistent with the good neighbor policy in 23-1-127(2). The department may develop, operate, and maintain acquired land or water rights:

(2) The department, with the consent of the commission, may acquire by condemnation, as provided in Title 70, chapter 30, land or structures for the preservation of historical or archaeological sites that are threatened with destruction or alteration.

(3) (a) Subject to section 2(3), Chapter 560, Laws of 2005, the department, with the consent of the commission, may dispose of land and water rights acquired by it on those terms after public notice as required by subsection (3)(b) of this section, without regard to other laws that provide for sale or disposal of state land and with or without reservation, as it considers necessary and advisable. The department, with the consent of the commission, may convey department land and water rights for full market value to other governmental entities or to adjacent landowners without regard to the requirements of subsection (3)(b) or (3)(c) if the land is less than 10 acres or if the full market value of the interest to be conveyed is less than \$20,000. The price accepted on any private sale must exceed the highest bid rejected in the bid process.

(e) When spending money from the sale or disposal of land or water rights pursuant to this subsection

(3), the department shall, as a first option, use the money for maintenance of other land or water in the department's possession before using the money to acquire additional land or water rights.

(4) When necessary and advisable for the management and use of department property, the director is authorized to grant or acquire from willing sellers right-of-way easements for purposes of utilities, roads, drainage facilities, ditches for water conveyance, and pipelines if the full market value of the interest to be acquired is less than \$20,000. Whenever possible, easements must include a weed management plan. Approval of the commission is not required for grants and acquisitions made pursuant to this subsection. In granting any right-of-way pursuant to this subsection, the department shall obtain a fair market value, but the department is not otherwise required to follow the disposal requirements of subsection (3). The director shall report any easement grant or acquisition made pursuant to this subsection to the commission at its next regular meeting.
