

Sixty-fourth  
Legislative Assembly  
of North Dakota

## ENGROSSED HOUSE BILL NO. 1382

Introduced by

Representatives Laning, Boe, Kempenich

Senators Burckhard, Campbell, O'Connell

1 A BILL for an Act to create and enact a new section to chapters 10-13 and 40-32 of the North  
2 Dakota Century Code, relating to the construction of electric transmission lines by cooperatives  
3 and municipal power agencies; and to provide for application.

4 **BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:**

5 **SECTION 1.** A new section to chapter 10-13 of the North Dakota Century Code is created  
6 and enacted as follows:

7 **Right of rural electric cooperative to construct, own, and maintain electric**  
8 **transmission lines.**

- 9 1. For purposes of this section, the terms electric transmission provider, electric  
10 transmission line, electric public utility, and rural electric cooperative have the same  
11 meanings as in section 49-03-01.5.
- 12 2. Except as provided in subsection 3, an electric transmission provider or designee may  
13 not construct an electric transmission line interconnecting with an existing electric  
14 transmission line owned, leased, or operated by a rural electric cooperative, unless the  
15 electric transmission provider or designee has provided written notice to the rural  
16 electric cooperative of its intention to do so. If the rural electric cooperative provides  
17 written notification to the electric transmission provider or designee within one hundred  
18 eighty days from receipt of the written notice under this subsection, that the rural  
19 electric cooperative is willing and able to construct and operate a similar electric  
20 transmission line, the rural electric cooperative shall have the right to construct the  
21 line.
- 22 3. If an electric transmission line would interconnect facilities owned, leased, or operated  
23 by a municipal utility or municipal power agency and by a rural electric cooperative or  
24 by an electric public utility doing business in this state the following conditions apply:

1           a. The municipal utility or municipal power agency and the rural electric cooperative  
2           or the electric public utility shall attempt to agree on all terms and conditions,  
3           including design, construction, ownership, and operation of the electric  
4           transmission line.

5           b. If parties are unable to agree, this subsection does not compel a party to  
6           participate in the project or be construed as a waiver by any party of its right to  
7           establish and enforce any requirements for interconnection of transmission  
8           facilities to its transmission system.

9           4. This section must be construed and applied to the maximum extent possible in a  
10          manner consistent with subsection 2 of section 49-03-02.

11          **SECTION 2.** A new section to chapter 40-33 of the North Dakota Century Code is created  
12 and enacted as follows:

13          **Right of municipal electric utilities and municipal power agencies to construct, own,**  
14 **and maintain electric transmission lines.**

15          1. For purposes of this section, the terms electric transmission provider, electric  
16          transmission line, and electric public utility, have the same meanings as in section  
17          49-03-01.5. Municipal power agency has the meaning provided in section 40-33.2-02  
18          and also includes a municipal power agency of which any municipality in this state is a  
19          member.

20          2. Except as provided in subsection 3, an electric transmission provider or designee may  
21          not construct an electric transmission line interconnecting with an existing electric  
22          transmission line owned, leased, or operated by a municipal utility or municipal power  
23          agency, unless the electric transmission provider or designee has provided written  
24          notice to the municipal utility or municipal power agency of its intention to do so. If the  
25          municipal utility or municipal power agency provides written notification to the electric  
26          transmission provider or designee within one hundred eighty days from receipt of the  
27          written notice under this subsection, that the municipal utility or municipal power  
28          agency is willing and able to construct and operate a similar electric transmission line,  
29          the municipal utility or municipal power agency shall have the right to construct said  
30          line.

- 1        3. If an electric transmission line would interconnect facilities owned, leased, or operated  
2        by a municipal utility or municipal power agency and by a rural electric cooperative or  
3        by an electric public utility doing business in this state the following conditions apply:  
4        a. The municipal utility or municipal power agency and the rural electric cooperative  
5        or the electric public utility shall attempt to agree on all terms and conditions,  
6        including design, construction, ownership, and operation of the electric  
7        transmission line.  
8        b. If parties are unable to agree, this subsection does not compel a party to  
9        participate in the project or be construed as a waiver by any party of its right to  
10       establish and enforce any requirements for interconnection of transmission  
11       facilities to its transmission system.

12       **SECTION 3. APPLICATION.** This Act applies to any electric transmission line that is  
13       scheduled to begin being constructed after December 31, 2015.
