

Assembly Bill No. 101–Assemblyman Ellison

CHAPTER.....

AN ACT relating to motor carriers; exempting the transportation of workers to and from certain work sites from the definition of “charter bus transportation” in certain counties; and providing other matters properly relating thereto.

Legislative Counsel’s Digest:

Existing law requires drivers of charter buses, who are employed in providing charter bus transportation services, to have a driver’s permit issued by the Nevada Transportation Authority. (NRS 706.462) Among other requirements, to obtain a driver’s permit, an applicant must submit an application which includes the applicant’s fingerprints for the purpose of conducting a Federal Bureau of Investigation criminal background check. In addition, the applicant must pay upon both initial issuance and upon renewal a fee not to exceed \$50, as well as the cost for processing the fingerprints. (NRS 706.462)

This bill exempts from the definition of “charter bus transportation” buses used to transport workers to and from certain work sites, including, without limitation, construction sites, mines and renewable energy facilities, in a county whose population is less than 100,000 (currently counties other than Clark and Washoe Counties). This exemption effectively removes drivers of such buses from the requirement to obtain and renew a driver’s permit and pay the requisite fees.
