AN ACT relating to public works; revising provisions concerning contracts for public works; revising provisions pertaining to the payment of prevailing wages on public works projects; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

Existing law imposes various requirements on certain public bodies seeking to solicit bids on a public work and awarding and entering a contract for a public work. (NRS 338.1373-338.155) **Section 2** of this bill provides that a public body shall not, as a condition of bidding, negotiating or being awarded a contract for performing work on a public work, require a contractor or subcontractor to employ certain workers on the public work, or to require workers employed by the contractor or subcontractor to become a member of or make any payment to a labor organization. **Section 2** also provides that the public body shall not prohibit a contractor or subcontractor from employing on the public work certain apprentices or certain workers who currently work for or have previously worked for the contractor or subcontractor at the time of the award of a contract. **Section 3** of this bill states that a contract entered into for a public work must provide that all parties to the contract have an equal right to raise a dispute as to the provisions of the contract or the performance of work under the contract, as well as equal access to any procedures provided for dispute resolution and an equal right to representation in any such procedures.

Existing law provides that certain public works contracts must provide for the payment of the prevailing wage to certain workers. (NRS 338.020) Existing law

19 also allows a contractor or subcontractor on such a public work, in part, to
20 discharge the obligation to pay the prevailing wage to a worker by making
21 contributions to a third person pursuant to a fund, plan or program in the name of
22 the worker. (NRS 338.035) **Section 5** of this bill places certain requirements on
23 such contributions and on the fund, plan or program to which the contributions are
24 made, and those requirements must be met for the contribution to discharge part of
25 the obligation to pay prevailing wages.
