EXPLANATION – Matter in *bolded italics* is new; matter between brackets ~~omitted material~~ is material to be omitted.

AN ACT relating to educational facilities; making the provisions governing the payment of prevailing wages inapplicable to a school district, a charter school and the Nevada System of Higher Education; temporarily authorizing the boards of trustees of school districts with prior voter approval to issue general obligation bonds in certain circumstances; temporarily revising provisions governing the transfer of certain revenue to the fund for capital projects of such a school district; and providing other matters properly relating thereto.

Legislative Counsel’s Digest:

1 Existing law sets forth general requirements applicable to public works,
2 including provisions requiring the payment of prevailing wages to mechanics and
3 workers employed on public works projects. (NRS 338.020-338.090) **Section 1** of
4 this bill excludes from the prevailing wage requirement: (1) any contract for a
5 public work or any other construction, alteration, repair, remodeling or
6 reconstruction of an improvement or property to which a school district, a charter
7 school or the Nevada System of Higher Education is a party; and (2) a public work
8 of, or constructed by, a school district, a charter school or the Nevada System of
9 Higher Education or any other construction, alteration, repair, remodeling or
10 reconstruction of an improvement or property of or constructed by one of those
11 entities. **Section 6** of this bill eliminates the requirement that the Nevada System of
12 Higher Education pay prevailing wages on construction work for which the
13 estimated cost exceeds \$100,000 even if the construction work does not qualify as a
14 public work. (NRS 338.075) **Sections 3-5** of this bill eliminate the requirement that
15 the Nevada System of Higher Education pay prevailing wages on lease-purchase
16 and installment-purchase agreements that involve the construction, alteration, repair or
17 remodeling of an improvement. (NRS 353.545, 353.590)

18 Existing law authorizes the board of trustees of a school district to issue general
19 obligation bonds to raise money for certain specified purposes related to school
20 facilities, including: (1) the construction, design or purchase of new buildings for
21 schools; (2) enlarging, remodeling or repairing existing buildings or grounds for
22 schools; and (3) acquiring sites for building schools. (NRS 387.335)

23 Under existing law, if a municipality proposes to issue or incur general
24 obligation bonds, the proposal is required to be submitted to the qualified electors
25 at an election. Existing law provides an exception from this requirement for the
26 issuance of general obligation bonds of a school district if: (1) the issuance of the
27 bonds is not expected to result in an increase in the existing property tax levy for
28 the payment of the bonds of the school district; and (2) the voters have approved a
29 question that authorizes the issuance of such bonds by the board of trustees of the
30 school district for 10 years after the date of approval under two conditions. First,
31 the board of trustees is required to make a finding that the existing tax for debt
32 service will at least equal the amount required to pay the principal and interest on
33 the outstanding general obligations of the school district and the general obligations
34 proposed to be issued. Second, the board of trustees is required to obtain approval
35 of each such bond issuance from the debt management commission in the county in
36 which the school district is located and, in counties whose population is 100,000 or
37 more (currently Clark and Washoe Counties), from the oversight panel for
38 school facilities. Existing law also provides that such a question may authorize the
39 board of trustees to transfer any excess revenue generated by the school district's
40 property tax for debt service to the fund for capital projects of the school district to
41 pay for certain capital projects, commonly known as "pay as you go" funding.
42 (NRS 350.020)

43 If such a question for the issuance of bonds of a school district has been
44 approved by the voters, this bill authorizes the board of trustees of the school
45 district to issue general obligation bonds for one additional period of 10 years,
46 without any further approval of the voters and regardless of whether the question
47 was approved more than 10 years before the effective date of this bill. For each
48 issuance of bonds during that additional 10-year period, the board of trustees must
49 make the required finding regarding the sufficiency of the existing tax to pay debt
50 service on the bonds and obtain the approval of the debt management commission
51 in the county and, if applicable, the oversight panel for school facilities. During the
52 additional 10-year period, this bill also authorizes the board of trustees to use
53 excess revenue generated from the property tax for debt service of the school
54 district for "pay as you go" funding even though such authorization was not
55 specifically included in the question approved by the voters.

28 on the effective date of this act if the question was approved by the
