

CHAPTER.....

AN ACT relating to educational facilities; making the provisions governing the payment of prevailing wages inapplicable to a school district, a charter school and the Nevada System of Higher Education; temporarily authorizing the boards of trustees of school districts with prior voter approval to issue general obligation bonds in certain circumstances; temporarily revising provisions governing the transfer of certain revenue to the fund for capital projects of such a school district; and providing other matters properly relating thereto.

**Legislative Counsel's Digest:**

Existing law sets forth general requirements applicable to public works, including provisions requiring the payment of prevailing wages to mechanics and workers employed on public works projects. (NRS 338.020-338.090) **Section 1** of this bill excludes from the prevailing wage requirement: (1) any contract for a public work or any other construction, alteration, repair, remodeling or reconstruction of an improvement or property to which a school district, a charter school or the Nevada System of Higher Education is a party; and (2) a public work of, or constructed by, a school district, a charter school or the Nevada System of Higher Education or any other construction, alteration, repair, remodeling or reconstruction of an improvement or property of or constructed by one of those entities. **Section 6** of this bill eliminates the requirement that the Nevada System of Higher Education pay prevailing wages on construction work for which the estimated cost exceeds \$100,000 even if the construction work does not qualify as a public work. (NRS 338.075) **Sections 3-5** of this bill eliminate the requirement that the Nevada System of Higher Education pay prevailing wages on lease-purchase and installment-purchase agreements that involve the construction, alteration, repair or remodeling of an improvement. (NRS 353.545, 353.590)

Existing law authorizes the board of trustees of a school district to issue general obligation bonds to raise money for certain specified purposes related to school facilities, including: (1) the construction, design or purchase of new buildings for schools; (2) enlarging, remodeling or repairing existing buildings or grounds for schools; and (3) acquiring sites for building schools. (NRS 387.335)

Under existing law, if a municipality proposes to issue or incur general obligation bonds, the proposal is required to be submitted to the qualified electors at an election. Existing law provides an exception from this requirement for the issuance of general obligation bonds of a school district if: (1) the issuance of the bonds is not expected to result in an increase in the existing property tax levy for the payment of the bonds of the school district; and (2) the voters have approved a question that authorizes the issuance of such bonds by the board of trustees of the school district for 10 years after the date of approval under two conditions. First, the board of trustees is required to make a finding that the existing tax for debt service will at least equal the amount required to pay the principal and interest on the outstanding general obligations of the school district and the general obligations proposed to be issued. Second, the board of trustees is required to obtain approval of each such bond issuance from the debt management commission in the county in which the school district is located and, in counties whose population is 100,000 or

more (currently Clark and Washoe Counties), from the oversight panel for school facilities. Existing law also provides that such a question may authorize the board of trustees to transfer any excess revenue generated by the school district's property tax for debt service to the fund for capital projects of the school district to pay for certain capital projects, commonly known as "pay as you go" funding. (NRS 350.020)

If such a question for the issuance of bonds of a school district has been approved by the voters, this bill authorizes the board of trustees of the school district to issue general obligation bonds for one additional period of 10 years, without any further approval of the voters and regardless of whether the question was approved more than 10 years before the effective date of this bill. For each issuance of bonds during that additional 10-year period, the board of trustees must make the required finding regarding the sufficiency of the existing tax to pay debt service on the bonds and obtain the approval of the debt management commission in the county and, if applicable, the oversight panel for school facilities. During the additional 10-year period, this bill also authorizes the board of trustees to use excess revenue generated from the property tax for debt service of the school district for "pay as you go" funding even though such authorization was not specifically included in the question approved by the voters.
