

CHAPTER.....

AN ACT relating to public works; revising provisions relating to the periodic inspections of state buildings and facilities by the State Public Works Division of the Department of Administration; and providing other matters properly relating thereto.

Legislative Counsel’s Digest:

Under existing law, the State Public Works Division of the Department of Administration is required to periodically inspect all state buildings and physical plant facilities at state institutions, including all buildings at the University of Nevada, Reno, and the University of Nevada, Las Vegas. (NRS 341.128) This bill clarifies that the Division is only required to perform periodic inspections of buildings and physical plant facilities owned by the State. This bill also eliminates the requirement that the Division periodically inspect all buildings at the state universities and specifically exempts all buildings and physical plant facilities owned by any part of the Nevada System of Higher Education from the requirement of periodic inspections by the Division.
