

CHAPTER.....

AN ACT relating to education; limiting the amount of reimbursement to which a hospital or other facility is entitled for educational services provided to certain pupils; authorizing certain hospitals or other facilities licensed in the District of Columbia or another state or territory of the United States to request reimbursement, under certain circumstances, for providing educational services to children in their care; revising the manner in which reimbursement is determined; authorizing the Department of Education, the county school districts, charter schools and the Division of Public and Behavioral Health of the Department of Health and Human Services to enter into a cooperative agreement for the provision of educational services to children with certain hospitals or other facilities licensed in another jurisdiction; making an appropriation; and providing other matters properly relating thereto.

**Legislative Counsel’s Digest:**

Under existing law, certain hospitals and other facilities that provide residential treatment to children and also operate a licensed private school are authorized to request reimbursement from the Department of Education for the cost of providing educational services to a child who is verified to be a patient of the hospital or facility and attends the private school for more than 7 school days. Upon receiving such a request, the Department is required to determine the amount of reimbursement as a percentage of the basic support guarantee per pupil and withhold that amount from the school district or charter school where the child would attend school if the child were not in the hospital or facility. (NRS 387.1225) Existing law also authorizes the Department of Education, the county school districts, charter schools and the Division of Public and Behavioral Health of the Department of Health and Human Services to enter into a cooperative agreement for the provision of educational services at certain hospitals or other facilities that are licensed by the Division. (NRS 277.0655)

**Section 1** of this bill limits the number of days of instruction per year for which a hospital or facility is entitled to reimbursement to the number of days of instruction in 1 school year. **Section 1** also authorizes certain hospitals and other facilities licensed in the District of Columbia or another state or territory of the United States that provide residential treatment to children who are residents of Nevada and operate an accredited educational program for those children to also seek reimbursement from the Department of Education for the cost of providing such educational services. **Section 1** removes the requirement that the amount of a reimbursement provided to a hospital or facility be withheld from the school district or charter school where the child would attend school if the child were not in the hospital or facility, except with respect to the additional amount for providing education to a pupil with a disability. **Section 1** additionally requires a hospital or facility that provides educational services to a pupil with disabilities to comply with applicable federal and state law concerning the education of pupils with disabilities to receive reimbursement. **Section 2** of this bill authorizes the Department of

Education, the county school districts, charter schools and the Division of Public and Behavioral Health of the Department of Health and Human Services to enter into a cooperative agreement for the provision of educational services at certain hospitals or other facilities that are licensed in another jurisdiction, provide residential treatment to children and operate an accredited educational program. **Section 2.5** of this bill makes an appropriation to pay for the cost of auditing hospitals and facilities that receive reimbursement from the Department of Education for educational services to ensure compliance with applicable law.
