

Senate Bill No. 500—Committee on Education

CHAPTER.....

AN ACT relating to education; creating the Task Force on K-12 Public Education Funding to recommend a plan for funding public schools based upon a weighted formula that takes into account the individual educational needs and demographic characteristics of pupils; prescribing the membership and duties of the Task Force; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

Under existing law, the Nevada Plan for School Finance provides for the financial support of the school districts, charter schools and university schools for profoundly gifted pupils. The formula in the Nevada Plan is expressed as: State financial aid to school districts equals the difference between school district basic support guarantee and local available funds produced by mandatory taxes minus all the local funds attributable to pupils who reside in the county but attend a charter school or a university school for profoundly gifted pupils. (NRS 387.121) The basic support guarantee for each school district is computed by multiplying the basic support guarantee per pupil that is established by law for the school district for each school year by pupil enrollment and adding funding for special education program units. (NRS 387.1221-387.1233; *see, e.g.*, chapter 370, Statutes of Nevada 2011, p. 2139) This bill creates the Task Force on K-12 Public Education Funding to recommend a plan for implementing a funding formula that takes into account the needs of, and the costs to educate, pupils based upon the individual educational needs and demographic characteristics of pupils, including, without limitation, pupils from low-income families, pupils with disabilities and pupils who have limited proficiency in the English language.
