H.B. 106
134th General Assembly

Bill Analysis

Version: As Introduced

Primary Sponsor: Rep. Cross

Elizabeth Molnar, Attorney

DETAILED ANALYSIS

Designation	Radon Awareness Month
Date	January
Other Information	Radon is a colorless, tasteless, and odorless gas that forms naturally when uranium in soil or rock breaks down. Once formed, radon can enter a home through cracks and other holes in the home's foundation. As radon decays, it releases radioactive byproducts that are inhaled and can cause lung cancer. Homes can be tested for radon and radon mitigation measures can be installed. ¹

HISTORY

Action	Date
Introduced	02-16-21
