A BILL

To establish a pilot program for remote treatment 1
of opioid use disorder and to make an 2
appropriation. 3

BE IT ENACTED BY THE GENERAL ASSEMBLY OF THE STATE OF OHIO:

Section 1. (A) As used in this section, "opioid treatment 4
program" has the same meaning as in section 5119.01 of the 5
Revised Code. 6

(B) Not later than sixty days after the effective date of 7
this section, the Department of Mental Health and Addiction 8
Services shall establish a pilot program to provide grant 9
funding for the provision of remote methadone treatment, through 10
opioid treatment programs licensed under section 5119.37 of the 11
Revised Code, to individuals with opioid use disorder. The pilot 12
program shall operate during fiscal year 2024 and fiscal year 13
2025. The Department shall ensure that the pilot program and 14
participating opioid treatment programs are in compliance with 15
all federal and state laws, regulations, and rules concerning 16
take-home methadone dosing. 17

(C) Any opioid treatment program licensed under section 18
5119.37 of the Revised Code may apply to the Department for 19
consideration to participate in the pilot program, and the 20
Department shall provide notice to all licensed opioid treatment 21
programs of the opportunity to apply. From the applicants, the 22
Department shall select up to ten opioid treatment programs to 23
participate in the pilot program, and those that are selected 24
shall receive grant funding through the pilot program. The 25
Department shall use its best efforts to ensure that selected 26
opioid treatment programs represent varied geographic areas 27
across this state. 28

(D) Each opioid treatment program that is selected to 29
participate in the pilot program shall procure a remote 30
methadone treatment vendor. The Department shall create a list 31
of possible vendors that use or offer all of the following 32
accessibility and security requirements: 33

(1) Browser-based applications and non-local stream 34
recording; 35

(2) Asynchronous audio-visual dosing sessions; 36

(3) Patient-clinician communication and at least monthly 37
patient check-ins; 38

(4) Combined physical and digital bottle-tamper awareness; 39

(5) Unique dose identifiers; 40

(6) Data aggregation capabilities and performance of 41
monthly documentation; 42

(7) Equity-focused design and inclusive implementation 43
protocols, including by minimizing patient literacy barriers; 44

(8) High-tier security measures that are compliant with 45

the "Health Insurance Portability and Accountability Act of 46
1996," 42 U.S.C. 1320d et seq., and the regulations adopted 47
thereunder; 48

(9) Customer support. 49

(E) Opioid treatment programs that are selected to 50
participate in the pilot program shall provide, and the 51
Department shall collect from those participants, data on 52
patient outcomes, including information regarding time in 53
treatment, patient retention, and realized reductions in 54
medication transportation costs as compared to in-person dosing. 55

Not later than six months after the conclusion of the 56
pilot program, the Department shall complete a report on the 57
information collected and findings from the pilot program. On 58
completion, the Department shall submit the report to the 59
Governor and to the General Assembly. The Department shall 60
submit the report to the General Assembly in accordance with 61
section 101.68 of the Revised Code. 62

Section 2. All items in this act are hereby appropriated 63
as designated out of any moneys in the state treasury to the 64
credit of the designated fund. For all operating appropriations 65
made in this act, those in the first column are for fiscal year 66
2024 and those in the second column are for fiscal year 2025. 67
The operating appropriations made in this act are in addition to 68
any other operating appropriations made for these fiscal years. 69
