Bill Analysis

SB 12 modifies language relating to a school district board of education's ability to adopt a school-hours policy for not less than 1,080 hours with no minimum number of days. The measure removes language requiring the district to meet minimum guidelines for performance and cost savings established by the State Board of Education and instead requires each school site in the district to maintain an accountability overview grade of "C" or better. The measure allows a district to maintain a school-hours policy for one year if one or more sites drops below a "C," but it requires all sites to receive a "C" in subsequent years to maintain the policy.
