15 accidental death benefits purchased under such
16 contracts, the 1971 Group Annuity Mortality Table or
17 any group annuity mortality table adopted after 1980
18 by the NAIC that is approved by regulation promulgated
19 by the Commissioner for use in determining the minimum
20 standard of valuation for such annuities and pure
21 endowments, or any modification of these tables
22 approved by the Commissioner, and seven and one-half
23 percent (7 1/2%) interest.

1 After June 14, 1973, any company may file with the Commissioner
2 a written notice of its election to comply with the provisions of
3 this section after a specified date before January 1, 1985, which
4 shall be the operative date of this section for such company,
5 provided, a company may elect a different operative date for
6 individual annuity and pure endowment contracts from that elected
7 for group annuity and pure endowment contracts. If a company makes
8 no such election, the operative date of this section for such
9 company shall be January 1, 1985.

10 D. 1. The interest rates used in determining the minimum
11 standard for the valuation of all life insurance policies issued in
12 a particular calendar year on or after the operative date of
13 paragraph 4 of subsection I of Section 4029 of this title shall be
14 the calendar year statutory valuation interest rates as defined in
15 this section.

16 2. The interest rates used in determining the minimum standard
17 valuation of individual annuity and pure endowment contracts issued
18 in a particular calendar year on or after January 1, 1985, and
19 annuities and pure endowments purchased in a particular calendar
20 year on or after January 1, 1985, under group annuity and pure
21 endowment contracts shall be the calendar year statutory valuation
22 interest rates as defined in this section.

23

24

1 E. 1. The calendar year statutory valuation interest rates, I,
2 shall be determined as follows and the results rounded to the
3 nearest one-fourth of one percent (1/4 of 1%):

4 (a) For life insurance,

$$5 \quad I = .03 + W (R_a - .03) + (W/2) (R_b - .09)$$

6 where R_a is the lesser of R and $.09$, R_b is the greater
7 of R and $.09$, R is the reference interest rate defined
8 in this section, and W is the weighting factor defined
9 in this section,

10 (b) For single premium immediate annuities and for annuity
11 benefits involving life contingencies arising from
12 other annuities with cash settlement options and from
13 guaranteed interest contracts with cash settlement
14 options,

$$15 \quad I = .03 + W(r - .03)$$

16 where R_1 is the lesser of R and $.09$, R_2 is the
17 greater of R and $.09$, R is the reference interest rate
18 defined in this section, and W is the weighting factor
19 defined in this section,

20 (c) For other annuities with cash settlement options and
21 guaranteed interest contracts with cash settlement
22 options, valued on an issue year basis, except as
23 stated in subparagraph (b) of this paragraph, the
24 formula for life insurance stated in subparagraph (a)

1 of this paragraph shall apply to annuities and
2 guaranteed interest contracts with guarantee durations
3 in excess of ten (10) years and the formula for single
4 premium immediate annuities stated in subparagraph (b)
5 of this paragraph shall apply to annuities and
6 guaranteed interest contracts with guarantee duration
7 of ten (10) years or less,

8 (d) For other annuities with no cash settlement options
9 and for guaranteed interest contracts with no cash
10 settlement options, the formula for single premium
11 immediate annuities stated in subparagraph (b) of this
12 paragraph shall apply, and

13 (e) For other annuities with cash settlement options and
14 guaranteed interest contracts with cash settlement
15 options, valued on a change in fund basis, the formula
16 for single premium immediate annuities stated in
17 subparagraph (b) of this paragraph shall apply.

18 2. However, if the calendar year statutory valuation interest
19 rate for any life insurance policies issued in any calendar year
20 determined without reference to this sentence differs from the
21 corresponding actual rate for similar policies issued in the
22 immediately preceding calendar year by less than one-half of one
23 percent (1/2 of 1%), the calendar year statutory valuation interest
24 rate for such life insurance policies shall be equal to the

1 corresponding actual rate for the immediately preceding calendar
2 year. For purposes of applying the immediately preceding sentence,
3 the calendar year statutory valuation interest rate for life
4 insurance policies issued in a calendar year shall be determined for
5 1980, using the reference interest rate defined for 1979, and shall
6 be determined for each subsequent calendar year.

7 F. 1. The weighting factors referred to in the formulas stated
8 above are given in the following table:

9 (a) Weighting Factors for Life Insurance:

10 Guarantee	11 Duration	12 Weighting
	13 (Years)	14 Factors
15 10 or less		.50
16 More than 10, but not		
17 more than 20		.45
18 More than 20		.35

19 For life insurance, the guarantee duration is the
20 maximum number of years the life insurance can remain
21 in force on a basis guaranteed in the policy or under
22 options to convert to plans of life insurance with
23 premium rates or nonforfeiture values or both which
24 are guaranteed in the original policy.

(b) Weighting factor for single premium immediate
annuities and for annuity benefits involving life

contingencies arising from other annuities with cash settlement options and guaranteed interest contracts with cash settlement options: .80

(c) Weighting factors for other annuities and for guaranteed interest contracts, except as stated in subparagraph (b) of this paragraph, shall be as specified in tables (1), (2) and (3) below, according to the rules and definitions in (4) and (5) below:

(1) For annuities and guaranteed interest contracts valued on an issue year basis:

Guarantee Duration (Years)	Weighting Factor for Plan Type		
	A	B	C
5 or less	.80	.60	.50
More than 5, but not more than 10	.75	.60	.50
More than 10, but not more than 20	.65	.50	.45
More than 20	.45	.35	.35

(2) For annuities and guaranteed interest contracts valued on a change in fund basis, the factors shown in (1) above increased by:

Plan Type		
A	B	C

.15 .25 .05

(3) For annuities and guaranteed interest contracts valued on an issue year basis (other than those with no cash settlement options) which do not guarantee interest on considerations received more than one (1) year after issue or purchase and for annuities and guaranteed interest contracts valued on a change in fund basis which do not guarantee interest rates on considerations received more than twelve (12) months beyond the valuation date, the factors shown in (1) or derived in (2) increased by:

Plan Type

A B C

.05 .05 .05

(4) For other annuities with cash settlement options and guaranteed interest contracts with cash settlement options, the guarantee duration is the number of years for which the contract guarantees interest rates in excess of the calendar year statutory valuation interest rate for life insurance policies with guarantee duration in excess of twenty (20) years. For other annuities with no cash settlement options and for

1 guaranteed interest contracts with no cash
2 settlement options, the guarantee duration is the
3 number of years from the date of issue or date of
4 purchase to the date annuity benefits are
5 scheduled to commence.

6 (5) Plan type as used in the above tables is defined
7 as follows:

8 Plan Type A: At any time policyholder may
9 withdraw funds only (1) with an adjustment to
10 reflect changes in interest rates or asset values
11 since receipt of the funds by the insurance
12 company, or (2) without such adjustment but in
13 installments over five (5) years or more, or (3)
14 as an immediate life annuity, or (4) no
15 withdrawal permitted.

16 Plan Type B: Before expiration of the interest
17 rate guarantee, policyholder may withdraw funds
18 only (1) with adjustment to reflect changes in
19 interest rates or asset values since receipt of
20 the funds by the insurance company, or (2)
21 without such adjustment but in installments over
22 five (5) years or more, or (3) no withdrawal
23 permitted. At the end of interest rate
24 guarantee, funds may be withdrawn without such

1 adjustment in a single sum or installments over
2 less than five (5) years.

3 Plan Type C: Policyholder may withdraw funds
4 before expiration of interest rate guarantee in a
5 single sum or installments over less than five
6 (5) years either (1) without adjustment to
7 reflect changes in interest rates or asset values
8 since receipt of the funds by the insurance
9 company, or (2) subject only to a fixed surrender
10 charge stipulated in the contract as a percentage
11 of the fund.

12 2. A company may elect to value guaranteed interest contracts
13 with cash settlement options and annuities with cash settlement
14 options on either an issue year basis or on a change in fund basis.
15 Guaranteed interest contracts with no cash settlement options and
16 other annuities with no cash settlement options shall be valued on
17 an issue year basis. As used in this section, an issue year basis
18 of valuation refers to a valuation basis under which the interest
19 rate used to determine the minimum valuation standard for the entire
20 duration of the annuity or guaranteed interest contract is the
21 calendar year valuation interest rate for the year of issue or year
22 of purchase of the annuity or guaranteed interest contract, and the
23 change in fund basis of valuation refers to a valuation basis under
24 which the interest rate used to determine the minimum valuation

1 standard applicable to each change in the fund held under the
2 annuity or guaranteed interest contract is the calendar year
3 valuation interest rate for the year of the change in the fund.

4 G. 1. The reference interest rate referred to above shall be
5 defined as follows:

6 (a) For life insurance, the lesser of the average over a
7 period of thirty-six (36) months and the average over
8 a period of twelve (12) months, ending on June 30 of
9 the calendar year next preceding the year of issue, of
10 Moody's Corporate Bond Yield Average - Monthly Average
11 Corporates, as published by Moody's Investors Service,
12 Inc.,

13 (b) For single premium immediate annuities and for annuity
14 benefits involving life contingencies arising from
15 other annuities with cash settlement options and
16 guaranteed interest contracts with cash settlement
17 options, the average over a period of twelve (12)
18 months, ending on June 30 of the calendar year of
19 issue or year of purchase of the Monthly Average of
20 the Composite Yield on Seasoned Corporate Bonds, as
21 published by Moody's Investors Service, Inc.,

22 (c) For other annuities with cash settlement options and
23 guaranteed interest contracts with cash settlement
24 options, valued on an issue year basis, except as

1 stated in subparagraph (b) of this paragraph, with
2 guarantee duration in excess of ten (10) years, the
3 lesser of the average over a period of thirty-six (36)
4 months and the average over a period of twelve (12)
5 months, ending on June 30 of the calendar year of
6 issue or purchase, of the Monthly Average of the
7 Composite Yield on Seasoned Corporate Bonds, as
8 published by Moody's Investors Service, Inc.,

9 (d) For other annuities with cash settlement options and
10 guaranteed interest contracts with cash settlement
11 options, valued on an issue year basis, except as
12 stated in subparagraph (b) of this paragraph, with
13 guarantee duration of ten (10) years or less, the
14 average over a period of twelve (12) months, ending on
15 June 30 of the calendar year of issue or purchase, of
16 the Monthly Average of the Composite Yield on Seasoned
17 Corporate Bonds, as published by Moody's Investors
18 Service, Inc.,

19 (e) For other annuities with no cash settlement options
20 and for guaranteed interest contracts with no cash
21 settlement options, the average over a period of
22 twelve (12) months, ending on June 30 of the calendar
23 year of issue or purchase, of the Monthly Average of
24

1 the Composite Yield on Seasoned Corporate Bonds, as
2 published by Moody's Investors Service, Inc., and

3 (f) For other annuities with cash settlement options and
4 guaranteed interest contracts with cash settlement
5 options, valued on a change in fund basis, except as
6 stated in subparagraph (b) of this paragraph, the
7 average over a period of twelve (12) months, ending on
8 June 30 of the calendar year of the change in the
9 fund, of the Monthly Average of the Composite Yield on
10 Seasoned Corporate Bonds, as published by Moody's
11 Investors Service, Inc.

12 H. In the event that the Moody's Corporate Bond Yield Average -
13 Monthly Average Corporates is no longer published by Moody's
14 Investors Service, Inc., or in the event that the NAIC determines
15 that the Moody's Corporate Bond Yield Average - Monthly Average
16 Corporates as published by Moody's Investors Service, Inc., is no
17 longer appropriate for the determination of the reference interest
18 rate, then an alternative method for determination of the reference
19 interest rate, which is adopted by the NAIC and approved by
20 regulation promulgated by the Commissioner, may be substituted.

21 I. The Commissioner may vary the standards of interest and
22 mortality in particular cases of invalid life and other extra
23 hazards and value policies in groups, use approximate averages for
24 fractions of a year and otherwise, and accept the valuation of the

1 Department of Insurance of any other state or country, if made upon
2 a basis and according to standards not lower than herein required or
3 authorized, in place of the valuation herein required.

4 J. If in any contract year the gross premium charged by any
5 company on any policy or contract is less than the valuation net
6 premium for the policy or contract calculated by the method used in
7 computing the reserve liability thereon but using the minimum
8 valuation standards of mortality and rate of interest, the minimum
9 reserve required for such policy or contract shall be the greater of
10 either the reserve calculated according to the mortality table, rate
11 of interest and method actually used for such policy or contract, or
12 the reserve calculated by the method actually used for such policy
13 or contract, but using the minimum valuation standards of mortality
14 and rate of interest and replacing the valuation net premium by the
15 actual gross premium in each contract year for which the valuation
16 net premium exceeds the actual gross premium. The minimum valuation
17 standards of mortality and rate of interest referred to in this
18 subsection are those standards stated in this section.

19 Provided that for any life insurance policy issued on or after
20 January 1, 1986, for which the gross premium in the first policy
21 year exceeds that of the second year and for which no comparable
22 additional benefit is provided in the first year for such excess,
23 and which provides an endowment benefit or a cash surrender value or
24 a combination thereof in an amount greater than such excess premium,

1 the foregoing provisions of this subsection shall be applied as if
2 the method actually used in calculating the reserve for such policy
3 were the method described in paragraph 2 of subsection L of this
4 section, ignoring subparagraph (c) of that paragraph. The minimum
5 reserve at each policy anniversary of such a policy shall be the
6 greater of the minimum reserve calculated in accordance with
7 paragraph 2 of subsection L of this section, including subparagraph
8 (c) of that paragraph, and the minimum reserve calculated in
9 accordance with this subsection.

10 K. Term Insurance.

11 Policies issued by life insurance companies doing business in
12 this state may provide for not more than one (1) year preliminary
13 term insurance, purchased by the whole or part of the premium to be
14 received during the first policy year, under the conditions
15 prescribed in this section.

16 L. Reserves.

17 1. Reserves on policies of ordinary insurance which are valued
18 in accordance with the American Experience Table of Mortality, or
19 the American Men Table of Mortality, and policies of industrial
20 insurance which are valued in accordance with the Standard
21 Industrial Mortality Table (1907), which are issued on or after June
22 6, 1949, may be computed as follows: If the premium charged for
23 term insurance under a limited payment life preliminary term policy
24 providing for the payment of all premiums thereon in less than

1 twenty (20) years from the date of the policy or under an endowment
2 preliminary term policy, exceeds that charged for life insurance,
3 under twenty-year payment life preliminary term policies of the same
4 company, the reserve thereon at the end of any year, including the
5 first, shall not be less than the reserve on a twenty-payment life
6 preliminary term policy issued in the same year and at the same age,
7 together with an amount which shall be equivalent to the
8 accumulation of a net level premium sufficient to provide for a pure
9 endowment at the end of the premium payment period equal to the
10 difference between the value at the end of such period of such a
11 twenty-payment life preliminary term policy and the full reserve at
12 such time of such a limited payment life or endowment policy. The
13 premium payment period is the period during which premiums are
14 concurrently payable under such twenty-payment life preliminary term
15 policy and such limited payment life or endowment policy. Any
16 policy valued in accordance with this paragraph shall specify the
17 mortality table, rate of interest, and method used in calculating
18 the reserves on the policy.

19 2. Reserves on policies of ordinary insurance which are valued
20 in accordance with the Commissioners 1941 Standard Ordinary
21 Mortality Table, the Commissioners 1958 Standard Ordinary Mortality
22 Table, or the Commissioners 1980 Standard Ordinary Mortality Table,
23 policies of industrial insurance which are valued in accordance with
24 the 1941 Standard Industrial Mortality Table or the Commissioners

1 1961 Standard Industrial Mortality Table and policies valued in
2 accordance with any substandard mortality table approved by the
3 Commissioner pursuant to this section, issued on or after June 6,
4 1949, may be computed in accordance with the Commissioners Reserve
5 Valuation method, defined as follows: Reserves for the life
6 insurance and endowment benefits of policies providing for a uniform
7 amount of insurance and requiring the payment of uniform premiums
8 shall be the excess, if any, of the present value, at the date of
9 valuation, of such future guaranteed benefits provided for by such
10 policies, over the then present value of any future modified net
11 premiums therefor. The modified net premiums for any such policy
12 shall be such uniform percentage of the respective contract premiums
13 for such benefits that the present value, at the date of issue of
14 the policy, of all such modified net premiums shall be equal to the
15 sum of the then present value of such benefits provided for by the
16 policy and the excess of subparagraph (a) over subparagraph (b) as
17 follows:

18 (a) a net level annual premium equal to the present value,
19 at the date of issue, of such benefits provided for
20 after the first policy year, divided by the present
21 value, at the date of issue, of an annuity of one per
22 annum payable on the first and each subsequent
23 anniversary of such policy on which a premium falls
24 due; provided, however, that such level annual premium

1 shall not exceed the net level annual premium on the
2 nineteen-year premium whole life plan for insurance of
3 the same amount at the age one (1) year higher than
4 the age at issue of such policy,

5 (b) a net one-year term premium for such benefits provided
6 for in the first policy year, and

7 (c) provided that for any life insurance policy issued on
8 or after January 1, 1986, for which the contract
9 premium in the first policy year exceeds that of the
10 second year and for which no comparable additional
11 benefit is provided in the first year for such excess
12 and which provides an endowment benefit or a cash
13 surrender value or a combination thereof in an amount
14 greater than such excess premium, the reserve
15 according to the commissioners reserve valuation
16 method as of any policy anniversary occurring on or
17 before the assumed ending date defined herein as the
18 first policy anniversary on which the sum of any
19 endowment benefit and any cash surrender value then
20 available is greater than such excess premium shall,
21 except as otherwise provided in subsection J of this
22 section, be the greater of the reserve as of such
23 policy anniversary calculated as described in this
24 paragraph and the reserve as of such policy

1 anniversary calculated as described in subparagraph
2 (a) of this paragraph, but with (i) the value defined
3 in subparagraph (a) of that paragraph being reduced by
4 fifteen percent (15%) of the amount of such excess
5 first-year premium, (ii) all present values of
6 benefits and premiums being determined without
7 reference to premiums or benefits provided for by the
8 policy after the assumed ending date, (iii) the policy
9 being assumed to mature on such date as an endowment,
10 and (iv) the cash surrender value provided on such
11 date being considered as an endowment benefit. In
12 making the above comparison, the mortality and
13 interest bases stated in this section shall be used.

14 Reserves for life insurance policies providing for a varying
15 amount of insurance or requiring the payment of varying premiums
16 shall be calculated by a method consistent with the principles of
17 paragraph 2 of this subsection, provided that any extra premiums
18 charged because of impairments or special hazards shall be
19 disregarded in the determination of modified net premiums. All
20 modified net premiums and present values referred to in this
21 section, except those based on sex-distinct mortality tables, may be
22 calculated according to an age not more than six (6) years younger
23 than the actual age of the insured in the case of any category of
24 ordinary policies issued on female risks.

1 M. 1. Reserves on policies of any category may be computed, at
2 the option of the company, according to any valuation standard which
3 produces greater aggregate reserves than those computed according to
4 the minimum standard provided in this section.

5 2. In the case of any plan of life insurance which provides for
6 future premium determination, the amounts of which are to be
7 determined by the insurance company based on then estimates of
8 future experience, or in the case of any plan of life insurance or
9 annuity which is of such a nature that the minimum reserves cannot
10 be determined by the methods described in subsections C, I, J, K,
11 and N of this section, the reserves which are held under any such
12 plan must:

13 (a) be appropriate in relation to the benefits and the
14 pattern of premiums for that plan, and

15 (b) be computed by a method which is consistent with the
16 principles of this Standard Valuation Law,

17 as determined by regulations promulgated by the Commissioner.

18 N. This section shall apply to all annuity and pure endowment
19 contracts other than group annuity and pure endowment contracts
20 purchased under a retirement plan or plan of deferred compensation,
21 established or maintained by an employer (including a partnership or
22 sole proprietorship) or by an employee organization, or by both,
23 other than a plan providing individual retirement accounts or
24

1 individual retirement annuities under Section 408 of the Internal
2 Revenue Code, as now or hereafter amended.

3 Reserves according to the Commissioners Annuity Reserve method
4 for benefits under annuity or pure endowment contracts, excluding
5 any disability and accidental death benefits in such contracts,
6 shall be the greatest of the respective excesses of the present
7 values, at the date of valuation, of the future guaranteed benefits,
8 including guaranteed nonforfeiture benefits, provided for by such
9 contracts at the end of each respective contract year, over the
10 present value, at the date of valuation, of any future valuation
11 considerations derived from future gross considerations, required by
12 the terms of such contract, that become payable prior to the end of
13 such respective contract year. The future guaranteed benefits shall
14 be determined by using the mortality table, if any, and the interest
15 rate, or rates, specified in such contracts for determining
16 guaranteed benefits. The valuation considerations are the portions
17 of the respective gross considerations applied under the terms of
18 such contracts to determine nonforfeiture values.

19 O. For accident and health insurance contracts issued on or
20 after the operative date of the valuation manual, the standard
21 prescribed in the valuation manual is the minimum standard of
22 valuation required under paragraph 2 of subsection B of this
23 section. For accident and health insurance contracts issued prior
24

1 to the operative date of the valuation manual, the minimum standard
2 of valuation is the standard adopted by the commissioner by rule.

3 P. Valuation Manual for Policies Issued On or After the
4 Operative Date of the Valuation Manual.

5 1. For policies issued on or after the operative date of the
6 valuation manual, the standard prescribed in the valuation manual is
7 the minimum standard of valuation required under paragraph 2 of
8 subsection B of this section, except as provided under paragraphs 5
9 or 7 of this subsection.

10 2. The operative date of the valuation manual is January 1 of
11 the first calendar year following the first July 1 as of which all
12 of the following have occurred:

13 a. the valuation manual has been adopted by the NAIC by
14 an affirmative vote of at least forty-two members, or
15 three-fourths of the members voting, whichever is
16 greater,

17 b. the Standard Valuation Law, as amended by the NAIC in
18 2009, or legislation including substantially similar
19 terms and provisions, has been enacted by states
20 representing greater than seventy-five percent (75%)
21 of the direct premiums written as reported in the
22 following annual statements submitted for 2008: life,
23 accident and health annual statements; health annual
24 statements; or fraternal annual statements, and

1 c. the Standard Valuation Law, as amended by the NAIC in
2 2009, or legislation including substantially similar
3 terms and provisions, has been enacted by at least
4 forty-two of the following fifty-five jurisdictions:
5 the fifty states of the United States, American Samoa,
6 the American Virgin Islands, the District of Columbia,
7 Guam, and Puerto Rico.

8 3. Unless a change in the valuation manual specifies a later
9 effective date, changes to the valuation manual shall be effective
10 on January 1 following the date when all of the following have
11 occurred:

12 a. the change to the valuation manual has been adopted by
13 the NAIC by an affirmative vote representing:

14 (1) at least three-fourths (3/4) of the members of
15 the NAIC voting, but not less than a majority of
16 the total membership, and

17 (2) members of the NAIC representing jurisdictions
18 totaling greater than seventy-five percent (75%)
19 of the direct premiums written as reported in the
20 following annual statements most recently
21 available prior to the vote in division (1) of
22 this subparagraph: life, accident and health
23 annual statements; health annual statements; or
24 fraternal annual statements, and

1 b. the valuation manual becomes effective pursuant to
2 order adopted by the commissioner.

3 4. The valuation manual must specify all of the following:

4 a. minimum valuation standards for and definitions of the
5 policies or contracts subject to paragraph 2 of
6 subsection B of this section. Such minimum valuation
7 standards shall be:

8 (1) the commissioner's reserve valuation method for
9 life insurance contracts, other than annuity
10 contracts, subject to paragraph 2 of subsection B
11 of this section,

12 (2) the commissioner's annuity reserve valuation
13 method for annuity contracts subject to paragraph
14 2 of subsection B of this section, and

15 (3) minimum reserves for all other policies or
16 contracts subject to paragraph 2 of subsection B
17 of this section,

18 b. which policies or contracts or types of policies or
19 contracts that are subject to the requirements of a
20 principle-based valuation in paragraph 1 of subsection
21 Q of this section and the minimum valuation standards
22 consistent with those requirements,

23 c. for policies and contracts subject to a principle-
24 based valuation under subsection Q of this section:

1 (1) requirements for the format of reports to the
2 commissioner under subparagraph (c) of paragraph
3 2 of subsection Q of this section and which shall
4 include information necessary to determine if the
5 valuation is appropriate and in compliance with
6 this section,

7 (2) assumptions shall be prescribed for risks over
8 which the company does not have significant
9 control or influence, and

10 (3) procedures for corporate governance and oversight
11 of the actuarial function, and a process for
12 appropriate waiver or modification of such
13 procedures,

14 d. for policies not subject to a principle-based
15 valuation under subsection Q of this section, the
16 minimum valuation standard shall either

17 (1) be consistent with the minimum standard of
18 valuation prior to the operative date of the
19 valuation manual, or

20 (2) develop reserves that quantify the benefits and
21 guarantees, and the funding, associated with the
22 contracts and their risks at a level of
23 conservatism that reflects conditions that
24

1 include unfavorable events that have a reasonable
2 probability of occurring,

3 e. other requirements, including, but not limited to,
4 those relating to reserve methods, models for
5 measuring risk, generation of economic scenarios,
