

House Bill 2387

Sponsored by Representative GRAYBER (Pre-session filed.)

SUMMARY

The following summary is not prepared by the sponsors of the measure and is not a part of the body thereof subject to consideration by the Legislative Assembly. It is an editor's brief statement of the essential features of the measure **as introduced**. The statement includes a measure digest written in compliance with applicable readability standards.

Digest: The Act says some health care providers can talk about psilocybin and provide psilocybin services. The Act also says that some state boards can share information. The Act changes the members on the OPAB and says product labels have to list the psilocin potency of the product. (Flesch Readability Score: 61.3).

Prohibits certain health professional regulatory boards from disciplining licensees for providing psilocybin services as licensed psilocybin service facilitators or for discussing psilocybin services with clients or patients. Allows the Oregon Health Authority and certain health professional regulatory boards to share with each other information relating to complaints and discipline, but otherwise requires confidentiality. Changes membership of the Oregon Psilocybin Advisory Board. Requires psilocybin product labels to include the psilocin potency in a product.

Declares an emergency, effective on passage.
