14 be a manufacturer within a city or town within this state if that person uses any premises, room,  
15 or place in it primarily for the purpose of transforming raw materials into a finished product for  
16 trade through any or all of the following operations: adapting, altering, finishing, making, and  
17 ornamenting; provided, that public utilities; non-regulated power producers commencing  
18 commercial operation by selling electricity at retail or taking title to generating facilities on or

20 distribution bases or outlets of out-of-state manufacturers; and fabricating processes incidental to  
21 warehousing or distribution of raw materials, such as alteration of stock for the convenience of a  
22 customer; are excluded from this definition;

23 (ii) For the purposes of §§ 44-3-3, 44-4-10, and 44-5-38, the term "manufacturer's  
24 inventory" or any similar term means and includes the manufacturer's raw materials, the  
25 manufacturer's work in process, and finished products manufactured by the manufacturer in this  
26 state, and not sold, leased, or traded by the manufacturer or its title or right to possession  
27 divested; provided, that the term does not include any finished products held by the manufacturer  
28 in any retail store or other similar selling place operated by the manufacturer whether or not the  
29 retail establishment is located in the same building in which the manufacturer operates the  
30 manufacturing plant;

31 (iii) For the purpose of § 44-11-2, a "manufacturer" is a person whose principal business  
32 in this state consists of transforming raw materials into a finished product for trade through any or  
33 all of the operations described in paragraph (i) of this subdivision. A person will be deemed to be  
34 principally engaged if the gross receipts that person derived from the manufacturing operations in

1 this state during the calendar year or fiscal year mentioned in § 44-11-1 amounted to more than  
2 fifty percent (50%) of the total gross receipts that person derived from all the business activities  
3 in which that person engaged in this state during the taxable year. For the purpose of computing  
4 the percentage, gross receipts derived by a manufacturer from the sale, lease, or rental of finished  
5 products manufactured by the manufacturer in this state, even though the manufacturer's store or  
6 other selling place may be at a different location from the location of the manufacturer's  
7 manufacturing plant in this state, are deemed to have been derived from manufacturing;

8 (iv) Within the meaning of the preceding paragraphs of this subdivision, the term  
9 "manufacturer" also includes persons who are principally engaged in any of the general activities  
10 coded and listed as establishments engaged in manufacturing in the Standard Industrial  
11 Classification Manual prepared by the Technical Committee on Industrial Classification, Office  
12 of Statistical Standards, Executive Office of the President, United States Bureau of the Budget, as  
13 revised from time to time, but eliminating as manufacturers those persons, who, because of their  
14 limited type of manufacturing activities, are classified in the manual as falling within the trade  
15 rather than an industrial classification of manufacturers. Among those thus eliminated, and  
16 accordingly also excluded as manufacturers within the meaning of this paragraph, are persons  
17 primarily engaged in selling, to the general public, products produced on the premises from which  
18 they are sold, such as neighborhood bakeries, candy stores, ice cream parlors, shade shops, and  
19 custom tailors, except, that a person who manufactures bakery products for sale primarily for  
20 home delivery, or through one or more non-baking retail outlets, and whether or not retail outlets  
21 are operated by person, is a manufacturer within the meaning of this paragraph;

22 (v) The term "Person" means and includes, as appropriate, a person, partnership, or  
23 corporation; and

24 (vi) The department of revenue shall provide to the local assessors any assistance that is  
25 necessary in determining the proper application of the definitions in this subdivision.

26 (21) Real and tangible personal property acquired to provide a treatment facility used  
27 primarily to control the pollution or contamination of the waters or the air of the state, as defined  
28 in chapter 12 of title 46 and chapter 25 of title 23, respectively, the facility having been  
29 constructed, reconstructed, erected, installed, or acquired in furtherance of federal or state  
30 requirements or standards for the control of water or air pollution or contamination, and certified  
31 as approved in an order entered by the director of environmental management. The property is  
32 exempt as long as it is operated properly in compliance with the order of approval of the director  
33 of environmental management; provided, that any grant of the exemption by the director of  
34 environmental management in excess of ten (10) years is approved by the city or town in which

1 the property is situated. This provision applies only to water and air pollution control properties  
2 and facilities installed for the treatment of waste waters and air contaminants resulting from  
3 industrial processing; furthermore, it applies only to water or air pollution control properties and  
4 facilities placed in operation for the first time after April 13, 1970;

5 (22) New manufacturing machinery and equipment acquired or used by a manufacturer  
6 and purchased after December 31, 1974. Manufacturing machinery and equipment is defined as:

7 (i) Machinery and equipment used exclusively in the actual manufacture or conversion  
8 of raw materials or goods in the process of manufacture by a manufacturer, as defined in  
9 subdivision (20) of this section, and machinery, fixtures, and equipment used exclusively by a  
10 manufacturer for research and development or for quality assurance of its manufactured products;

11 (ii) Machinery and equipment that is partially used in the actual manufacture or  
12 conversion of raw materials or goods in process of manufacture by a manufacturer, as defined in  
13 subdivision (20) of this section, and machinery, fixtures, and equipment used by a manufacturer  
14 for research and development or for quality assurance of its manufactured products, to the extent  
15 to which the machinery and equipment is used for the manufacturing processes, research and  
16 development, or quality assurance. In the instances where machinery and equipment is used in  
17 both manufacturing and/or research and development, and/or quality assurance activities and non-  
18 manufacturing activities, the assessment on machinery and equipment is prorated by applying the  
19 percentage of usage of the equipment for the manufacturing, research and development and  
20 quality assurance activity to the value of the machinery and equipment for purposes of taxation,  
21 and the portion of the value used for manufacturing, research and development, and quality  
22 assurance is exempt from taxation. The burden of demonstrating this percentage usage of  
23 machinery and equipment for manufacturing and for research and development, and/or quality  
24 assurance of its manufactured products rests with the manufacturer; and

25 (iii) Machinery and equipment described in § 44-18-30(7) and (22) that was purchased  
26 after July 1, 1997; provided that the city or town council of the city or town in which the  
27 machinery and equipment is located adopts an ordinance exempting the machinery and equipment  
28 from taxation. For purposes of this subsection, city councils and town councils of any  
29 municipality may, by ordinance, wholly or partially exempt from taxation the machinery and  
30 equipment discussed in this subsection for the period of time established in the ordinance and  
31 may, by ordinance, establish the procedures for taxpayers to avail themselves of the benefit of  
32 any exemption permitted under this section; provided, that the ordinance does not apply to any  
33 machinery or equipment of a business, subsidiary, or any affiliated business that locates or  
34 relocates from a city or town in this state to another city or town in the state.

1 (23) Precious metal bullion, meaning any elementary metal that has been put through a  
2 process of melting or refining, and that is in a state or condition that its value depends upon its  
3 content and not its form. The term does not include fabricated precious metal that has been  
4 processed or manufactured for some one or more specific and customary industrial, professional,  
5 or artistic uses;

6 (24) Hydroelectric power generation equipment, which includes, but is not limited to,  
7 turbines, generators, switchgear, controls, monitoring equipment, circuit breakers, transformers,  
8 protective relaying, bus bars, cables, connections, trash racks, headgates, and conduits. The  
9 hydroelectric power generation equipment must have been purchased after July 1, 1979, and  
10 acquired or used by a person or corporation who or that owns or leases a dam and utilizes the  
11 equipment to generate hydroelectric power;

12 (25) Subject to authorization by formal action of the council of any city or town, any real  
13 or personal property owned by, held in trust for, or leased to an organization incorporated under  
14 chapter 6 of title 7, as amended, or an organization meeting the definition of "charitable trust" set  
15 out in § 18-9-4, as amended, or an organization incorporated under the not for profits statutes of  
16 another state or the District of Columbia, the purpose of which is the conserving of open space, as  
17 that term is defined in chapter 36 of title 45, as amended, provided the property is used  
18 exclusively for the purposes of the organization;

19 (26) Tangible personal property, the primary function of which is the recycling, reuse, or  
20 recovery of materials (other than precious metals, as defined in § 44-18-30(24)(ii) and (iii)), from  
21 or the treatment of "hazardous wastes" as defined in § 23-19.1-4, where the "hazardous wastes"  
22 are generated primarily by the same taxpayer and where the personal property is located at, in, or  
23 adjacent to a generating facility of the taxpayer. The taxpayer may, but need not, procure an order  
24 from the director of the department of environmental management certifying that the tangible  
25 personal property has this function, which order effects a conclusive presumption that the tangible  
26 personal property qualifies for the exemption under this subdivision. If any information relating  
27 to secret processes or methods of manufacture, production, or treatment is disclosed to the  
28 department of environmental management only to procure an order, and is a "trade secret" as  
29 defined in § 28-21-10(b), it shall not be open to public inspection or publicly disclosed unless  
30 disclosure is otherwise required under chapter 21 of title 28 or chapter 24.4 of title 23;
