\*\*\*

1           This act would require all state and municipal employees to contribute a minimum of  
2   20% of the cost of health care benefits provided to them. The act would mandate that the state  
3   and municipalities shall not enter into any new contracts, extension of contracts, or renewal of  
4   contracts with any individuals or labor organizations unless the 20% co-share is included. The act  
5   also eliminates any payments to individuals for refusing the provided healthcare coverage.

6           This act would take effect upon passage.
