STATE OF RHODE ISLAND

IN GENERAL ASSEMBLY

A N A C T

RELATING TO HEALTH AND SAFETY -- THE MEDICAL PRIMARY CARE  
SCHOLARSHIP PROGRAM

Introduced By: Representatives Fogarty, Tanzi, Cortvriend, Boylan, McEntee, Carson,  
Kazarian, Kislak, Cotter, and Donovan

Date Introduced: March 04, 2024

Referred To: House Finance

It is enacted by the General Assembly as follows:

1 SECTION 1. The general assembly hereby makes the following findings of fact:

2 (1) Primary care healthcare in the State of Rhode Island is in crisis.

3 (2) There currently exists a national and regional shortage of primary care healthcare  
4 providers.

5 (3) Many primary care healthcare providers are retiring early and many more are  
6 approaching retirement age.

7 (4) Primary care healthcare is provided by physicians, nurse practitioners and physician  
8 assistants and the overall numbers of medical professionals entering the field of primary care  
9 healthcare is declining.

10 (5) It is increasingly difficult for primary care practices to hire nurses, medical assistants,  
11 behavioral health clinicians and other key staff, which is leading to even higher burnout among  
12 primary care providers.

13 (6) Fewer students are going into primary care as a profession due to lower salaries, high  
14 student loans and increasing administrative burden leading to provider burnout.

15 (7) Our aging Rhode Island population requires more medical care.

16 (8) As a state, we must recruit, train, retain and sustain the number of primary care  
17 providers sufficient to meet the population health needs of all Rhode Islanders.

18 (9) Investments in primary care are essential for access to health services, improving the

1 health of the population and reducing overall healthcare costs.

2 SECTION 2. Title 23 of the General Laws entitled "HEALTH AND SAFETY" is hereby  
3 amended by adding thereto the following chapter:
