STATE OF RHODE ISLAND

IN GENERAL ASSEMBLY

JANUARY SESSION, A.D. 2016

—————  
A N A C T

RELATING TO INSURANCE - INSURANCE COVERAGE FOR MENTAL HEALTH AND  
SUBSTANCE ABUSE DISORDERS

Introduced By: Senator Joshua Miller

Date Introduced: February 25, 2016

Referred To: Senate Health & Human Services

It is enacted by the General Assembly as follows:

1           SECTION 1. Legislative findings. - The general assembly hereby finds and declares as  
2 follows:

3           (1) A substantial amount of health care debt incurred by patients in this state is due to the  
4 increasing amount of patient responsibility for covered services outside of the premium of an  
5 insurance policy.

6           (2) It has been shown that patients, especially those in need of mental health and  
7 substance use disorder treatment have been discouraged from seeking treatment based upon the  
8 increasing amount of patient financial liability for such covered services.

9           (3) The imposition of coinsurance by insurers as a percentage of the allowable payment  
10 brings much confusion to consumers in attempting to control health care costs. Collection of  
11 coinsurance at the point of service by a provider is difficult due to the calculation of a percentage  
12 of an insurer's allowable cost of a service prior to the filing of a claim. This confusion further  
13 compounds a patient's financial and emotional stress in obtaining necessary covered services and  
14 meeting the patient's financial responsibility for such covered service.

15           (4) The power of insurers to unilaterally impose coinsurance based upon a percentage of  
16 an allowable cost of a covered service determined after the provider has filed a claim may further  
17 jeopardize the ability of patients and consumers to be educated and knowledgeable in their full  
18 financial responsibility under a health insurance plan or contract.

1           It is the intention of the general assembly to enable those in need of mental health and  
2 substance use disorder treatment to have greater access for care with fewer financial burdens that  
3 may result in avoidance of needed care. It is also the intention of the general assembly to lessen  
4 the financial complexity and burden on patients and easing the difficulty in the imposition of  
5 cost-sharing under health insurance plans.

6           SECTION 2. Section 27-18-8 of the General Laws in Chapter 27-18 entitled "Accident  
7 and Sickness Insurance Policies" is hereby amended to read as follows:
