20 A pharmacist dispensing a prescription drug order for a biological product prescribed by its
21 brand or proper name may select an interchangeable biological product of the prescribed

11 other prevailing means, if communication is not required where:

- 12 (1) There is no interchangeable biological product approved by the U.S. Food and Drug
13 Administration for the product prescribed; or
- 14 (2) A refill prescription is not changed from the product dispensed on the prior filling of
15 the prescription.

16 Section 11. That chapter 36-11 be amended by adding a NEW SECTION to read:

17 The pharmacist shall, unless otherwise instructed by the prescriber, label the prescription
18 container with the name of the dispensed biological product. If the dispensed biological product
19 does not have a brand name, the prescription label shall indicate the proper name of the
20 biological product dispensed. If a pharmacist selects an interchangeable biological product for
