

TENNESSEE GENERAL ASSEMBLY
FISCAL REVIEW COMMITTEE

FISCAL NOTE

SB 984 - HB 1436

February 12, 2019

SUMMARY OF BILL: Authorizes the Third Coast Comedy Club to sell alcoholic beverages for on-premises consumption.

ESTIMATED FISCAL IMPACT:

Increase State Revenue - \$300/One-Time/ABC Fund
\$2,000/Recurring/ABC Fund
\$8,500/Recurring/General Fund

Increase Local Revenue - \$7,500/Recurring/Permissive

Assumptions:

- This legislation only applies to the Third Coast Comedy Club in Davidson County.
- There is an initial application fee of \$300 and a \$2,000 annual fee payable to the Tennessee Alcoholic Beverage Commission (ABC).
- No additional personnel or resources will be required by the ABC.
- Local privilege tax is estimated to be \$1,500 annually. Any increase in local government expenditures for collecting local privilege taxes is estimated to be not significant.
- State and local sales taxes and a 15.0 percent liquor-by-the-drink (LBD) tax will be assessed on alcoholic beverage sales.
- The current state sales tax rate is 7.0 percent; the local option sales tax rate in Davidson County is 2.25 percent; the effective rate of apportionment to local government pursuant to the state-shared allocation is estimated to be 3.617 percent.
- Pursuant to Tenn. Code Ann. § 57-4-306(a), 50.0 percent of the 15.0 percent LBD tax is allocated to the state General Fund and 50.0 percent is distributed to the local government.
- It is assumed that the establishment will begin selling alcoholic beverages in FY19-20.
- Based on the interquartile average of 2018 LBD tax returns and assuming reasonable growth rates in LBD tax collections, the average taxable base per establishment is estimated to be approximately \$120,000 per year.
- Given current limitations on the availability of LBD sales data by venue type and size, it is assumed that there are three venue-type categories: smaller than average; average; and larger than average. For the purpose of estimating the tax base for entities authorized to conduct LBD sales pursuant to legislation, the following ratios relative to the average

LBD taxable base for all sized entities are utilized: 50 percent for smaller than average; 100 percent for average; and 50 percent for larger than average.

- Given the size of this particular venue, the recurring increase in sales is estimated to be 50 percent of the average taxable base, or \$60,000 per year.
- The recurring increase in state revenue to the General Fund is estimated to be \$8,548 $[(\$60,000 \times 7.0\%) - (\$60,000 \times 7.0\% \times 3.617\%) + (\$60,000 \times 15.0\% \times 50.0\%)]$.
- The recurring increase in local revenue is estimated to be \$7,502 $[\$1,500 + (\$60,000 \times 2.25\%) + (\$60,000 \times 7.0\% \times 3.617\%) + (\$60,000 \times 15.0\% \times 50.0\%)]$.
- Any revenue collected from any state or local taxes imposed on manufacturers or wholesalers is estimated to be not significant.

CERTIFICATION:

The information contained herein is true and correct to the best of my knowledge.
