SUMMARY OF BILL AS AMENDED (012464): Decreases, from 2.5 percent to .5 percent, the minimum number of signatures of registered voters equal to the percentage of the total number of votes cast for gubernatorial candidates in the most recent election of governor received in order to qualify as a recognized minor party in a primary or general election. Requires at least 25 signatures to qualify as a minor party for purposes of a primary election. Increases, from 5 percent to 25 percent, the minimum number of votes equal to the percentage of the total number of votes cast for gubernatorial candidates in the most recent election of governor one political party candidate must receive for the party to qualify as a statewide political party. Decreases, from 5 percent to 1 percent, the minimum number of votes equal to the percentage of the total number of votes cast for candidates in the most recent election of county mayor a recognized minor party must receive if the party is established solely within one county.

Authorizes a recognized minor party to retain statewide recognition beyond the current election year if one candidate for the party received a number of votes equal to 1 percent of the total votes cast for gubernatorial candidates in the most recent election of governor.

FISCAL IMPACT OF BILL AS AMENDED:

NOT SIGNIFICANT

Assumptions for the bill as amended:

- Pursuant to Tenn. Code Ann. § 2-13-107(f), to retain statewide recognition as a minor party after the current election year, the minor party must meet the requirements of a statewide political party. A statewide political party is currently required to have one candidate receive the number of votes equal to five percent of total votes cast for gubernatorial candidates in the most recent election of governor to retain statewide political party status.
- The proposed legislation authorizes a recognized minor party to retain statewide status after the current election year if one candidate for the party received a number of votes equal to one percent of the total votes cast for gubernatorial candidates in the most recent election of governor.
- The proposed legislation may result in an increase of recognized minor party participation in primary or general elections; however, it is not estimated to significantly

impact the policies or procedures of the Secretary of State Division of Elections or local county election commissions.

- It is not anticipated that the number of additional minor parties will result in a significant increase in the cost of printing ballots.
